

petition, is available for review online at www.regulations.gov.

Interested parties are invited to participate in these proceedings by submitting written views, data, or comments. FRA does not anticipate scheduling a public hearing in connection with these proceedings since the facts do not appear to warrant a hearing. If any interested party desires an opportunity for oral comment and a public hearing, they should notify FRA, in writing, before the end of the comment period and specify the basis for their request.

Communications received by February 11, 2026 will be considered by FRA before final action is taken. Comments received after that date will be considered if practicable.

Privacy Act

Anyone can search the electronic form of any written communications and comments received into any of FRA's dockets by the name of the individual submitting the comment (or signing the document, if submitted on behalf of an association, business, labor union, etc.). Under 5 U.S.C. 553(c), DOT solicits comments from the public to inform its processes. DOT posts these comments, without edit, including any personal information the commenter provides, to www.regulations.gov, as described in the system of records notice (DOT/ALL-14 FDMS), which can be reviewed at [https://www.transportation.gov/privacy](http://www.transportation.gov/privacy). BILLING CODE 4910-06-P

DEPARTMENT OF TRANSPORTATION

Federal Railroad Administration [Docket Number FRA-2005-21179]

Notice of Petition for Extension of Waiver of Compliance

AGENCY: Federal Railroad Administration (FRA), Department of Transportation (DOT).

ACTION: Notice.

SUMMARY: This document provides the public notice that the Union Pacific Railroad Company (UPRR) petitioned FRA for an extension of relief from certain regulations concerning air pressure in train brake systems.

DATES: FRA must receive comments on the petition by February 11, 2026. FRA will consider comments received after that date to the extent practicable.

ADDRESSES:

Comments: Comments related to this docket may be submitted by going to <https://www.regulations.gov> and following the online instructions for submitting comments.

Instructions: All submissions must include the agency name and docket number. All comments received will be posted without change to <https://www.regulations.gov>; this includes any personal information. Please see the Privacy Act heading in the **SUPPLEMENTARY INFORMATION** section of this document for Privacy Act information related to any submitted comments or materials.

Docket: For access to the docket to read background documents or comments received, go to <https://www.regulations.gov> and follow the online instructions for accessing the docket.

FOR FURTHER INFORMATION CONTACT: Check Kam, Railroad Safety Specialist, FRA Motive Power & Equipment Division, telephone: 202-366-2139, email: check.kam@dot.gov.

SUPPLEMENTARY INFORMATION: Under part 211 of title 49 Code of Federal Regulations (CFR), this document provides the public notice that by letter dated October 4, 2025 UPRR petitioned FRA for an extension of a waiver of compliance from certain provisions of the Federal railroad safety regulations contained at 49 CFR parts 229 (Railroad Locomotive Safety Standards) and 232 (Brake System Safety Standards for Freight and Other Non-Passenger Trains and Equipment; End-of-Train Devices). FRA assigned the petition Docket Number FRA-2005-21179.

UPRR requests extended relief from 49 CFR 229.49(a)(1), *Main reservoir system*, and § 232.103(o)(2), *General requirements for all train brake systems*, for locomotives having a safety valve on the main reservoir, which prevents accumulation of more than 25 psi above maximum working pressure. In the petition, UPRR seeks to continue allowing locomotives to have their main reservoir safety valve set at 150 pounds per square inch (psi) with a maximum working pressure of 125 psi. In support of the relief, UPRR states that the waiver “reduces the risk of [a locomotive] having the safety valve blowing when . . . in a consist with [MU] locomotives that have an air system pumping at 130-140 psi.”

A copy of the petition, as well as any written communications concerning the

petition, is available for review online at www.regulations.gov.

Interested parties are invited to participate in these proceedings by submitting written views, data, or comments. FRA does not anticipate scheduling a public hearing in connection with these proceedings since the facts do not appear to warrant a hearing. If any interested party desires an opportunity for oral comment and a public hearing, they should notify FRA, in writing, before the end of the comment period and specify the basis for their request.

Communications received by February 11, 2026 will be considered by FRA before final action is taken. Comments received after that date will be considered if practicable.

BILLING CODE 4910-06-P

DEPARTMENT OF TRANSPORTATION

Federal Railroad Administration [Docket No. FRA-2026-0001]

Establishment of an Emergency Relief Docket for Calendar Year 2026

AGENCY: Federal Railroad Administration (FRA), Department of Transportation (DOT).

ACTION: Notice of establishment of public docket.

SUMMARY: This Notice announces the establishment of FRA's emergency relief docket (ERD) for calendar year 2026. The designated ERD for calendar year 2026 is docket number FRA-2026-0001.

ADDRESSES: See Supplementary Information section for further information regarding submitting petitions and/or comments to docket number FRA-2026-0001.

SUPPLEMENTARY INFORMATION: On May 19, 2009, FRA published a direct final rule establishing ERDs and the procedures for handling petitions for emergency waivers of safety rules, regulations, or standards during an emergency situation or event. 74 FR 23329. That direct final rule became effective on July 20, 2009, and made minor modifications to 49 CFR 211.45 in FRA's Rules of Practice in 49 CFR part 211. Section 211.45(b) provides that each calendar year FRA will establish an ERD in the publicly accessible DOT docket system (available at www.regulations.gov). Section 211.45(b) further provides that FRA will publish a notice in the **Federal Register** identifying by docket number the ERD for that year. FRA established the ERD and emergency waiver procedures to provide an expedited process for FRA to address the needs of the public and the railroad industry during emergency situations or events. This Notice announces the designated ERD for calendar year 2026 is docket number FRA-2026-0001.

As detailed in § 211.45, if the FRA Administrator determines an emergency event as defined in 49 CFR 211.45(a) has occurred, or that an imminent threat of such an emergency occurring exists, and public safety would benefit from providing the railroad industry with operational relief, the emergency waiver procedures of 49 CFR 211.45 will go into effect. In such an event, the FRA Administrator will issue a statement in the ERD indicating the emergency waiver procedures are in effect and FRA will make every effort to post the statement on its website at railroads.dot.gov. Any party desiring relief from FRA regulatory requirements as a result of the emergency should submit a petition for emergency waiver under 49 CFR 211.45(e) and (f). Specific instructions for filing petitions for emergency waivers under 49 CFR 211.45 are found at 49 CFR 211.45(f). Specific instructions for filing comments in response to petitions for emergency waivers are at 49 CFR 211.45(h).

BILLING CODE 4910-06-P

FOR FURTHER INFORMATION CONTACT:
Derrick Griffith, Railroad Safety Specialist, FRA Motive Power & Equipment Division, telephone: 202-493-6322, email: derrick.griffith@dot.gov.

SUPPLEMENTARY INFORMATION: Under part 211 of title 49 Code of Federal Regulations (CFR), this document provides the public notice that by letter dated August 27, 2025, BNSF petitioned FRA for a waiver of compliance from certain provisions of the Federal railroad safety regulations contained at 49 CFR part 229 (Railroad Locomotive Safety Standards). FRA assigned the petition Docket Number FRA-2025-0687.

Specifically, BNSF seeks relief from § 229.15(b)(4), *Inspection, testing, and repair*, which requires locomotives that use remote control pullback protection to "perform a conditioning run over a track" with a positive train stop system "to ensure that the system functions as intended." The regulation states that the conditioning run be conducted "at the first practical time after the start of each shift, but no more than 2 hours after the start of that shift." BNSF seeks to move the timing of the run "to align with the first movement on the track protected by the Pullback System."

In support of its request, BNSF states that the relief will not eliminate the conditioning run required by the regulation, but rather change the timing, so that the remote control operator can ascertain "that the Pullback System is functioning as intended by operating the locomotive to the transponder point." BNSF notes that the purpose of the conditioning run, to verify the pullback system is functioning prior to the operator continuing their work, is preserved. Further, BNSF suggests that the relief will promote greater use of remote control pullback protection within rail yards, which in turn could promote greater safety outcomes.

A copy of the petition, as well as any written communications concerning the petition, is available for review online at www.regulations.gov.

Interested parties are invited to participate in these proceedings by submitting written views, data, or comments. FRA does not anticipate scheduling a public hearing in connection with these proceedings since the facts do not appear to warrant a hearing. If any interested party desires an opportunity for oral comment and a public hearing, they should notify FRA, in writing, before the end of the comment period and specify the basis for their request.
