

publications and technical documentation; personnel training and equipment; airlift and transportation support; U.S. Government and contractor engineering, technical, and logistics support services; studies and surveys; and other related elements of logistics and program support. The estimated total cost is \$39 million.

This proposed sale will support the foreign policy goals and national security objectives of the U.S. by improving the security of a major ally that is a force for political stability and economic progress in the Indo-Pacific region.

The proposed sale will improve Japan's capability to meet current and future threats by providing stand-off capability via advanced, long-range strike systems for employment on Japan Air Self-Defense Force (JASDF) fighter aircraft, including but not limited to the F-15J and F-35A/B. Japan will have no difficulty absorbing these articles and services into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractor will be Lockheed Martin, located in Orlando, FL. At this time, the U.S. Government is not aware of any offset agreement proposed in connection with this potential sale. Any offset agreement will be defined in negotiations between the purchaser and the contractor.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government or contractor representatives to Japan.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

Annex

Item No. vii

(vii) *Sensitivity of Technology:*

1. The AGM-158B/B-2 Joint Air-to-Surface Standoff Missile with Extended Range (JASSM-ER) All Up Round (AUR) is a low-observable, highly survivable, subsonic cruise missile designed to penetrate next-generation air defense systems enroute to target. The JASSM-ER is designed to kill hard, medium-hardened, soft, and area-type targets. The extended range over the baseline was obtained by going from a turbo jet to a turbo-fan engine and by reconfiguring the fuel tanks for added capacity.

a. The AGM-158B-2 system capabilities include all the capabilities of the AGM-158B. The AGM-158B-2 configuration will have different internal components to address multiple obsolescence issues as well as subcomponent updates to position for M-Code and other potential upgrades. Global Positioning System/Precise Positioning Service (GPS/PPS) to be provided by either Selective Availability Anti-Spoofing Module (SAASM) or M-Code.

2. The highest level of classification of defense articles, components, and services included in this potential sale is SECRET.

3. If a technologically advanced adversary were to obtain knowledge of the specific hardware and software elements, the information could be used to develop countermeasures that might reduce system effectiveness or be used in the development of a system with similar or advanced capabilities.

4. A determination has been made that Japan can provide substantially the

same degree of protection for the sensitive technology being released as the U.S. Government. This sale is necessary in furtherance of the U.S. foreign policy and national security objectives outlined in the Policy Justification.

5. All defense articles and services listed in this transmittal have been authorized for release and export to the Government of Japan.

**POLICY JUSTIFICATION**

*Kingdom of Saudi Arabia—MK 54 MOD 0 Lightweight Torpedoes*

The Kingdom of Saudi Arabia has requested to buy twenty (20) MK 54 MOD 0 Lightweight Torpedo (LWT) all up rounds. The following non-MDE items will also be included: MK 54 MOD 0 LWT spare parts; MK 54 Recoverable Exercise Torpedoes (REXTORP); handling shapes and

containers; training; publications; support and test equipment; U.S. Government and contractor engineering, technical, and logistics support services; and other related elements of logistics and program support. The estimated total program cost is \$78.5 million.

This proposed sale will support the foreign policy goals and national security objectives of the U.S. by improving the security of a partner country that is a force for political stability and economic progress in the Gulf region.

The proposed sale will improve the Kingdom of Saudi Arabia's capability to deter current and future threats by upgrading its anti-submarine warfare capabilities. The Kingdom of Saudi Arabia will have no difficulty absorbing this equipment into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractor will be RTX Integrated Defense Systems, located in Portsmouth, RI. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this sale will require travel of up to two U.S. Government or up to two contractor representatives to the Kingdom of Saudi Arabia on a temporary basis for program technical support and management oversight.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

Annex

Item No. vii

(vii) *Sensitivity of Technology:*

1. The MK 54 MOD 0 Lightweight Torpedo is a conventional torpedo that can be launched from surface ships, rotary, and fixed wing aircraft. It is an upgrade from the MK 46 torpedo and has modernized sonar and guidance and control systems. The new guidance and control system uses a mixture of commercial-off-the-shelf and custom-built electronics. The warhead, fuel tank, and propulsion system from the MK 46 torpedo are re-used in the MK 54 MOD 0 configuration with minor modifications.

2. The highest level of classification of defense articles, components, and services included in this potential sale is SECRET.

3. If a technologically advanced adversary were to obtain knowledge of the specific hardware and software elements, the information could be used to develop countermeasures that might reduce weapon system effectiveness or be used in the development of a system with similar or advanced capabilities.

4. A determination has been made that the Kingdom of Saudi Arabia can provide substantially the same degree of protection for the sensitive technology being released as the U.S. Government. This sale is necessary in furtherance of the U.S. foreign policy and national security objectives outlined in the Policy Justification.

5. All defense articles and services listed in this transmittal have been authorized for release and export to the Kingdom of Saudi Arabia.
