

future threats by improving its ability to detect various air threats. Egypt already operates a mixture of other radar systems and will have no difficulty absorbing this equipment and services into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractor will be Northrop Grumman Corporation, located in Falls Church, VA. At this time, the U.S. Government is not aware of any offset agreement proposed in connection with this potential sale. Any offset agreement will be defined in negotiations between the purchaser and the contractor.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government or contractor representatives to Egypt.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

Transmittal No. 24–100

Notice of Proposed Issuance of Letter of Offer Pursuant to Section 36(b)(1) of the Arms Export Control Act

Annex

Item No. vii

(vii) *Sensitivity of Technology:*

1. The KIV–78 is a cryptographic appliqué for Identification Friend or Foe (IFF). It can be loaded with Mode 5 classified elements.

2. The Global Positioning System (GPS) devices with Selective

Availability Anti-Spoofing Module (SAASM) and Precise Positioning Service (PPS) are self-contained navigation systems that provide the following: acceleration, velocity, position, attitude, platform azimuth, magnetic and true heading, altitude, body angular rates, time tags, and coordinated universal time (UTC) synchronized time. SAASM enables the GPS receiver access to the encrypted P (Y or M) signal, providing protection against active spoofing attacks.

3. The highest level of classification of defense articles, components, and services included in this potential sale is SECRET.

4. If a technologically advanced adversary were to obtain knowledge of the specific hardware and software elements, the information could be used to develop countermeasures that might reduce system effectiveness or be used in the development of a system with similar or advanced capabilities.

5. A determination has been made that the Government of Egypt can provide substantially the same degree of protection for the sensitive technology being released as the U.S. Government. This sale is necessary in furtherance of the U.S. foreign policy and national security objectives outlined in the Policy Justification.

6. All defense articles and services listed in this transmittal have been authorized for release and export to the Government of Egypt.

* as defined in Section 47(6) of the Arms Export Control Act.

POLICY JUSTIFICATION

Kuwait—Design and Construction Services

The Government of Kuwait has requested to buy services to support the procurement of maritime and land facilities at the Mohammed Al Ahmed Naval Base, other affiliated locations, the Ras Al Ard Naval Base for Onshore Logistics and an alternate logistics station in Kuwait, as well as construction of a headquarters complex. The following non-MDE items will be included: life cycle design; construction; project management; engineering studies; engineering services; technical support; facility and infrastructure assessments; surveys; planning; programming; design;

acquisition; contract administration; construction management; logistics; other technical services; and other related elements of logistics and program support. The estimated total cost is \$1.0 billion.

This proposed sale will support the foreign policy and national security objectives of the United States (U.S.) by helping to improve the infrastructure of a major non-NATO ally that has been an important force for political stability and economic progress in the Middle East.

The proposed sale will improve Kuwait's capability to meet current and future threats by providing onshore logistic support. Kuwait will have no difficulty absorbing this construction and associated services into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractor(s) will be determined from approved vendors, likely by competitive acquisitions. At this time, the U.S. Government is not

aware of any offset agreement proposed in connection with this potential sale. Any offset agreement will be defined in negotiations between the purchaser and the contractor.

Implementation of this proposed sale will require the assignment of up to twenty U.S. Government or U.S. contractor representatives to Kuwait for a duration of up to twelve years to provide construction management and oversight.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.
