## DEPARTMENT OF HEALTH AND HUMAN SERVICES

### Centers for Disease Control and Prevention

[60Day-26-1193; Docket No. CDC-2025-1113]

### Proposed Data Collection Submitted for Public Comment and Recommendations

**AGENCY:** Centers for Disease Control and Prevention (CDC), Department of Health and Human Services (HHS).

**ACTION:** Notice with comment period.

**SUMMARY:** The Centers for Disease Control and Prevention (CDC), as part of its continuing effort to reduce public burden and maximize the utility of government information, invites the general public and other federal agencies the opportunity to comment on a continuing information collection, as required by the Paperwork Reduction Act of 1995. This notice invites comment on a proposed information collection project titled Evaluating the Impact of Training and Technical Assistance (TTA) Programs for NCCCP Efforts. This data collection is designed to collect information about TTA offered using focus groups and a web-based survey to assess whether a specific cooperative agreement has been implemented as intended and contributed to National Comprehensive Cancer Control Program (NCCCP) recipients' achievements in program goals and outcomes.

**DATES:** CDC must receive written comments on or before March 16, 2026.

**ADDRESSES:** You may submit comments, identified by Docket No. CDC-2025-1113 by either of the following methods:

*Federal eRulemaking Portal:* [www.regulations.gov](http://www.regulations.gov). Follow the instructions for submitting comments.

*Mail:* Jeffrey M. Zirger, Information Collection Review Office, Centers for Disease Control and Prevention, 1600 Clifton Road NE, MS H21-8, Atlanta, Georgia 30329.

**Instructions:** All submissions received must include the agency name and Docket Number. CDC will post, without change, all relevant comments to [www.regulations.gov](http://www.regulations.gov).

**Please note:** Submit all comments through the Federal eRulemaking portal

([www.regulations.gov](http://www.regulations.gov)) or by U.S. mail to the address listed above.

**FOR FURTHER INFORMATION CONTACT:** To request more information on the proposed project or to obtain a copy of the information collection plan and instruments, contact Jeffrey M. Zirger, Information Collection Review Office, Centers for Disease Control and Prevention, 1600 Clifton Road NE, MS H21-8, Atlanta, Georgia 30329; phone: 404-639-7118; Email: [omb@cdc.gov](mailto:omb@cdc.gov).

**SUPPLEMENTARY INFORMATION:** Under the Paperwork Reduction Act of 1995 (PRA) (44 U.S.C. 3501-3520), federal agencies must obtain approval from the Office of Management and Budget (OMB) for each collection of information they conduct or sponsor. In addition, the PRA also requires federal agencies to provide a 60-day notice in the **Federal Register** concerning each proposed collection of information, including each new proposed collection, each proposed extension of existing collection of information, and each reinstatement of previously approved information collection before submitting the collection to the OMB for approval. To comply with this requirement, we are publishing this notice of a proposed data collection as described below.

The OMB is particularly interested in comments that will help:

1. Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
2. Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
3. Enhance the quality, utility, and clarity of the information to be collected;
4. Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses; and
5. Assess information collection costs.

### Proposed Project

Evaluating the Impact of Training and Technical Assistance (TTA) Programs for NCCP Efforts (OMB Control No. 0920-1193)—Reinstatement with Change—National Center for Chronic Disease Prevention and Health Promotion (NCCDPHP), Centers for Disease Control and Prevention (CDC).

### Background and Brief Description

The Centers for Disease Control and Prevention's (CDC) National Comprehensive Cancer Control Program (NCCCP) has been a primary funder for state and community-based cancer control interventions since its inception in the late 1990s. NCCCP's 66 recipients, including programs in all 50 states, the District of Columbia, a number of tribes, tribal organizations, and U.S. Associated Pacific Islands/territories, as well as cancer coalitions, engage with partners to enhance cancer-related data systems and deliver evidence-based interventions (EBIs) for primary prevention, screening and survivorship with the goal of impacting population-level cancer outcomes and reduce the burden of cancer.

To build capacity and maximize the impact of funded NCCCPs, CDC developed and implemented the training and technical assistance program, Evaluating the Impact of Training and Technical Assistance (TTA) Programs for NCCCP Efforts (referred to hereafter as the "TTA Program" or "DP23-0017"). The current TTA program cycle builds upon the previous cycles to enhance NCCCP recipients' capacity to plan for and implement EBIs and strategies through multisectoral partnerships; policy, system, and environmental change approaches; approaches to health for all, and approaches to addressing non-medical factors that influence health. The funded TTA entities are responsible for developing and implementing a TTA plan, sustaining partnerships, employing various training methods, and evaluating their TTA efforts. A comprehensive evaluation is critical to ensure the provision of high-quality and effective TTA. This program is authorized under sections 301(a) and 317(k)(2) of the Public Health Service Act as amended [42 U.S.C. 241(a) and 42 U.S.C. 247b(k)(2)] and also authorizes CDC to collect this information.

CDC proposes to assess DP23-0017 to: (1) document the nature of the TTA provided and the extent to which they were able to achieve planned short-term outcomes; and (2) identify which TTA efforts contributed to NCCCP recipients' achievement in program outcomes. There are no other data collection efforts currently underway to assess implementation or perceived effectiveness of TTA administered under DP23-0017. CDC is requesting a three-year Reinstatement with Change to the previously approved Information Collection Request (ICR) (Assessing the Impact of Targeted Training and
