#### Rural Business-Cooperative Service

*Title:* Strategic Economic and Community Development.

*OMB Control Number:* 0570–0068.

*Summary of Collection:* As authorized under the Agricultural Act of 2018 (2018 Farm Bill), the Strategic Economic and Community Development (SECD) program establishes reserved funds through Rural Development programs to fund projects that support the implementation of multijurisdictional and multisectoral strategic community investment plans (Plan).

*Need and Use of the Information:* Section 6401 relies on the covered programs' methods for program administration. Thus, to the extent the covered programs use collection techniques other than the submittal of written material, this program will follow suit.

Regarding the covered programs, USDA—Rural Development has considered the use of improved information technology to reduce the burden on the applicants. The information involved is unique to each particular case. Automating the written narrative portion of the application assists the applicant and USDA—Rural Development because most is completed and submitted electronically.

*Description of Respondents:* Business or other for-profit; Not-for-profit institutions.

*Number of Respondents:* 100.

*Frequency of Responses:* Reporting: On occasion.

*Total Burden Hours:* 580.

#### Rural Business-Cooperative Service

*Title:* Food Supply Chain Guaranteed Loan Program.

*OMB Control Number:* 0570–0077.

*Summary of Collection:* Section 1001 of the American Recovery Act of 2021, Public Law 117–2 provided funding for fiscal year 2022 (FY22) to the Secretary of Agriculture to provide assistance to maintain and improve food and agricultural supply chain resiliency.

The purpose of the Food Supply Chain (FSC) Guaranteed loan program was to make funds available to qualified applicants and projects to facilitate financing for the start-up or expansion of activities in the middle of the food supply chain, particularly the aggregation, processing, manufacturing,

storing, transporting, wholesaling, or distribution of food, to increase capacity and help create a more resilient, diverse, and secure U.S. food supply chain.

FSC no longer has funding available, and RD is no longer accepting applications for new loans in the program. All FSC loans in the portfolio are now being serviced in accordance with established regulations.

*Need and Use of the Information:* The FSC program requested application submission via an online application system. The use of this system allows the Agency to receive the applications electronically. Applicants who receive funding will be encouraged, but not required, to submit, as applicable, performance reports, and the annual status reports electronically. As such, all reporting requirements noted above, both written/non-forms and forms approved under other OMB control numbers, can be submitted electronically through online systems. The Agency will not require submission by electronic methods because some applicants may not have the technological expertise for electronic submission or may not have the equipment necessary for high technological information gathering.

The information provided will be used to determine applicant and project eligibility and to ensure that projects meet program goals and are for authorized purposes.

*Description of Respondents:* Businesses or other for-profits; Farms; Not-for-profit institutions.

*Number of Respondents:* 311.

*Frequency of Responses:* Reporting: Annually.

*Total Burden Hours:* 1,292.

#### Rural Utilities Service

*Title:* 7 CFR 1717 Subpart Y, Settlement of Debt Owed by Electric Borrowers.

*OMB Control Number:* 0572-0116.

*Summary of Collection:* The Rural Utilities Service (RUS) makes mortgage loans and loan guarantees to electric systems to provide and improve electric service in rural areas pursuant to the Rural Electrification Act of 1936, as amended (7 U.S.C. 901 *et seq.*) [RE Act]. This information collection requirement stems from passage of Public Law 104-127, on April 4, 1996, which amended section 331 (b) of the Consolidated Farm and Rural Development Act (7 U.S.C. 1921 *et seq.*) [Con Act] to extend to the RUS' loans and loan guarantees the Secretary of Agriculture's authority to compromise, adjust, reduce, or charge-off debts or claims owed to the Government (collectively, debt settlement) with respect to loans made or guaranteed by RUS. Only those electric borrowers that are unable to

fully repay their debts to the government and who apply to RUS for relief are affected by this information collection. The amendment also extended to the security instruments, leases, contracts, and agreements administered by RUS, the Secretary's authority to adjust, modify, subordinate, or release the terms of those documents.

*Need and Use of the Information:* This information collection will require information only from those RUS electric borrowers who request assistance to settle a debt or claim owed to the Government arising from loans made or guaranteed or administered by RUS. The information required from the borrower is limited to what would be essential for determining: (1) need for debt settlement; (2) the amount of debt the borrower can repay; (3) the future scheduling of debt repayment; and (4) range of opportunities for enhancing the amount of the debt that can be recovered. The information collected is similar to any prudent lender would need in order to determine that debt settlement is required and the amount of relief that is needed. Since the need for relief is expected to vary substantially from borrower to borrower, so will the required information collected.

*Description of Respondents:* Private Sector; Business or other for-profit.

*Number of Respondents:* 1.

*Frequency of Responses:* Reporting; On occasion.

*Total Burden Hours:* 1,000.
