**DEPARTMENT OF TRANSPORTATION****Federal Transit Administration****Prevention of Alcohol Misuse and Prohibited Drug Use in Transit Operations**

**AGENCY:** Federal Transit Administration (FTA), Department of Transportation (DOT).

**ACTION:** Notice of calendar year 2026 random drug and alcohol testing rates.

**SUMMARY:** This notice announces the calendar year 2026 drug and alcohol random testing rates for specific recipients of FTA financial assistance. The minimum random drug testing rate will remain at 50 percent, and the random alcohol testing rate will remain at 10 percent.

**DATES:** *Applicability Date:* January 1, 2026.

**FOR FURTHER INFORMATION CONTACT:** Iyon Rosario, Senior Drug and Alcohol Program Manager, FTA Office of Transit Safety and Oversight, 1200 New Jersey Avenue SE, Washington, DC 20590 (telephone: 202–366–2010 or email: [Iyon.Rosario@dot.gov](mailto:Iyon.Rosario@dot.gov)).

**SUPPLEMENTARY INFORMATION:** On January 1, 1995, FTA required large transit employers to begin drug and alcohol testing of employees performing

safety-sensitive functions, and to submit annual reports by March 15 of each year beginning in 1996, pursuant to drug and alcohol regulations adopted by FTA at 49 CFR parts 653 and 654 in February 1994. The annual report includes the number of employees who had a verified positive test for the use of prohibited drugs, and the number of employees who tested positive for the misuse of alcohol during the reported year. Small employers commenced the required testing on January 1, 1996, and began reporting the same information as the large employers beginning March 15, 1997.

FTA updated the testing rules by merging them into a new 49 CFR part 655, effective August 1, 2001 (66 FR 41996). The regulation maintained a random testing rate for prohibited drugs at 50 percent and the misuse of alcohol at 10 percent. The Administrator may lower the random testing rate to 25 percent if the violation rates drop below 1.0 percent for drug testing and 0.5 percent for alcohol testing for two consecutive years. Accordingly, in 2007, FTA reduced the random drug testing rate from 50 percent to 25 percent (72 FR 1057). In 2018, however, FTA returned the random drug testing rate to 50 percent for calendar year 2019 based on verified industry data for calendar year 2017, which showed that the rate had exceeded 1 percent (83 FR 63812).

Pursuant to 49 CFR 655.45, the Administrator's decision to determine

the minimum annual percentage rate for random drug and alcohol testing is based, in part, on the reported positive drug and alcohol violation rates for the entire public transportation industry. The information used for this determination is drawn from the Drug and Alcohol Management Information System (MIS) reports required by 49 CFR 655.72. To ensure the reliability of the data, the Administrator must consider the quality and completeness of the reported data, may obtain additional information or reports from employers, and may make appropriate modifications in calculating the industry's verified positive results and violation rates.

For calendar year 2026, the Administrator has determined that the minimum random drug testing rate for covered employees will remain at 50 percent based on a verified positive rate for prohibited drug use of 1.24 percent for calendar year 2024 and 1.23 percent for calendar year 2023. Further, the Administrator has determined that the minimum random alcohol testing rate for calendar year 2026 will remain at 10 percent, because the violation rate again was lower than 0.5 percent for calendar years 2024 and 2023. The random alcohol violation rates were 0.17 percent for 2024 and 0.18 for 2023.

Detailed reports on FTA's drug and alcohol testing data collected from transit employers may be obtained from FTA, Office of Transit Safety and

Oversight, 1200 New Jersey Avenue SE, Washington, DC 20590, (202) 366–2010, or at: <https://transit-safety.fta.dot.gov/DrugAndAlcohol/Publications/Default.aspx>.

Marcus J. Molinaro,  
Administrator.

**SUPPLEMENTARY INFORMATION:** Pursuant to 46 U.S.C. 12121(b), the U.S. Coast Guard may issue a certificate of documentation with a coastwise trade endorsement for eligible, small passenger vessels authorized to carry no more than 12 passengers for hire if MARAD, after notice and an opportunity for public comment, determines the use of the small passenger vessel in the coastwise trade will not adversely affect United States vessel builders or the coastwise trade business of any person that employs vessels built in the United States in that business.<sup>1</sup>

MARAD has received an eligibility determination request. Further details about the requester's vessel and its proposed operations may be found in the determination request posted in the DOT Docket Number listed in the **ADDRESSES** section above at <https://www.regulations.gov>. Interested parties may comment on the undue adverse effect this action may have on U.S. vessel builders or coastwise trade businesses in the U.S. that employ U.S.-built vessels in those businesses. Comments should refer to the vessel name, state the commenter's interest in the request, and demonstrate, with supporting documentation, the undue adverse effect on U.S. vessel builders and coastwise trade businesses.
