

support; site surveys; U.S. Government and contractor engineering, logistics, and technical support services; and other related elements of logistics and program support. The estimated total cost is \$84 million.

This proposed sale will support the foreign policy goals and national security objectives of the U.S. by improving the security of a NATO Ally that is an important force for political and economic stability in Europe.

This proposed sale will improve Romania's capability to meet current and future threats by increasing its ability to deter and defend against all threats and to participate in NATO coalition air operations. Romania will have no difficulty absorbing these articles and services into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractor will be The Boeing Company, located in St. Louis, MO. At this time, the U.S. Government is not aware of any offset agreement proposed in connection with this potential sale. Any offset agreement will be defined in negotiations between the purchaser and the contractor.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government or contractor representatives to Romania.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

Transmittal No. 24–110

Notice of Proposed Issuance of Letter of Offer Pursuant to Section 36(b)(1) of the Arms Export Control Act

Annex

Item No. vii

(vii) *Sensitivity of Technology:*

1. The Guided Bomb Unit (GBU)–39 Small Diameter Bomb Increment 1 (SDB–I) All Round (AUR) is a 250-

pound GPS-aided conventional air-to-ground precision glide weapon with an inertial navigation system and small autonomous, day or night, and adverse weather capabilities able to strike fixed and stationary targets from standoff ranges. It is intended to provide aircraft with an ability to carry a high number of bombs. Aircraft are able to carry four SDBs in place of one 2,000-pound bomb.

2. The GBU–39/B inert practice bombs with fuze are identical to a live tactical weapon except that the live warhead is replaced with an inert fill. These bombs are suited for training missions where a flight termination system or collection of telemetry data is not a necessity.

3. Common Munitions Built-In-Test (BIT)/Reprogramming Equipment (CMBRE) is support equipment used to interface with weapon systems to initiate and report BIT results, and upload and download flight software. CMBRE supports multiple munitions platforms with a range of applications that perform preflight checks, periodic maintenance checks, loading of Operational Flight Program (OFP) data, loading of munitions mission planning data, loading of Global Positioning System (GPS) cryptographic keys, and declassification of munitions memory.

4. The ADU–891 Adapter Group Test Set provides the physical and electrical interface between the CMBRE and the bomb.

5. The highest level of classification of defense articles, components, and services included in this potential sale is SECRET.

6. If a technologically advanced adversary were to obtain knowledge of the specific hardware and software elements, the information could be used to develop countermeasures that might reduce system effectiveness or be used in the development of a system with similar or advanced capabilities.

7. A determination has been made that Romania can provide substantially the same degree of protection for the sensitive technology being released as the U.S. Government. This sale is necessary in furtherance of the U.S. foreign policy and national security objectives outlined in the Policy Justification.

8. All defense articles and services listed in this transmittal have been authorized for release and export to the Government of Romania.

February 21, 2025

The Honorable Mike Johnson
Speaker of the House
U.S. House of Representatives
H-209, The Capitol
Washington, DC 20515

Dear Mr. Speaker:

Pursuant to the reporting requirements of Section 36(b)(5)(C) of the Arms Export Control Act (AECA), as amended, we are forwarding Transmittal No. 24-0M. This transmittal notifies a cost increase in excess of the total value previously described in the Section 36(b)(1) AECA certification 13-56 from May 12, 2014.

Sincerely,

Michael F. Miller
Director

Enclosure:

1. Transmittal

BILLING CODE 6001-FR-C

Transmittal No. 24-0M

**REPORT OF ENHANCEMENT OR
UPGRADE OF SENSITIVITY OF
TECHNOLOGY OR CAPABILITY (SEC.
36(B)(5)(C), AECA)**

(i) *Purchaser:* Republic of Türkiye
(ii) *Sec. 36(b)(1), AECA Transmittal*
No.: 13-56

Date: May 12, 2014

Implementing Agency: Navy

Funding Source: National Funds

(iii) *Description:* On May 12, 2014, Congress was notified by congressional certification transmittal number 13-56, of the possible sale under Section 36(b)(1) of the Arms Export Control Act of up to 48 MK 48 Mod 6 Advanced Technology All-Up-Round (AUR) Warshot Torpedoes, containers, fleet exercise sections, exercise fuel tanks, surface recovery cage and tools, exercise hardware, maintenance facility upgrades, support and test equipment, spare and repair parts, personnel

training and training equipment, publications and technical documentation, United States (U.S). Government and contractor engineering, technical, and logistics support services, and other related elements of technical support. The total estimated value was \$170 million. Major Defense Equipment (MDE) constituted \$126 million of this total.

This transmittal notifies an increase in MDE value by \$100 million, due to recent cost increases. There are no additional MDE or non-MDE items being reported with this notification. The total case value will increase by \$100 million to \$270 million. MDE will constitute \$226 million of this total.

(iv) *Significance:* Recent cost increases have brought about the need to add value to the original notification. The proposed sale will improve Türkiye's naval power and its capability to meet current and future threats.

(v) *Justification:* This proposed sale will support the foreign policy goals and

national security of the U.S. by improving the naval capabilities and interoperability of a NATO Ally that is a force for political and economic stability in Europe.

(vi) *Sensitivity of Technology:* The Sensitivity of Technology Statement contained in the original notification applies to items reported here.

(vii) *Date Report Delivered to Congress:* February 21, 2025
