

equipment and services into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractors will be Lockheed Martin, located in Grand Prairie, TX, and Lockheed Martin, Australia. At this time, the U.S.

Government is not aware of any offset agreement proposed in connection with this potential sale. Any offset agreement will be defined in negotiations between the purchaser and the contractor.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government or contractor representatives to Australia.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

Transmittal No. 25–09

Notice of Proposed Issuance of Letter of Offer Pursuant to Section 36(b)(1) of the Arms Export Control Act

Annex

Item No. vii

(vii) *Sensitivity of Technology:*

1. The M30A2 Guided Multiple Launch Rocket System-Alternate Warhead (GMLRS–AW) is a Convention on Cluster Munitions treaty compliant weapon with a 200-pound fragmentation warhead of pre-formed tungsten penetrators which is optimized

for effectiveness against large area and imprecisely located targets. The munition has a Global Positioning System/Precise Positioning System (GPS/PPS) aided inertial guidance and control system, a fuzing mechanism, a multi-option height of burst capability, and an effective range of 15–70 kilometers.

2. The highest level of classification of defense articles, components, and services included in this potential sale is SECRET.

3. If a technologically advanced adversary were to obtain knowledge of the specific hardware and software elements, the information could be used to develop countermeasures that might reduce system effectiveness or be used in the development of a system with similar or advanced capabilities.

4. A determination has been made that Australia can provide substantially the same degree of protection for the sensitive technology being released as the U.S. Government. This proposed sale is necessary in furtherance of the U.S. foreign policy and national security objectives outlined in the Policy Justification.

5. All defense articles and services listed in this transmittal have been authorized for release and export to the Government of Australia.

Transmittal No. 25-0D

**REPORT OF ENHANCEMENT OR
UPGRADE OF SENSITIVITY OF
TECHNOLOGY OR CAPABILITY (SEC.
36(B)(5)(C), AECA)**

(i) *Prospective Purchaser:* Government of Belgium

(ii) *Sec. 36(B)(1), AECA Transmittal No.:* 22-63

Date: November 8, 2022

Implementing Agency: Air Force

(iii) *Description:* On November 8, 2022, Congress was notified by congressional certification transmittal number 22-63 of the possible sale, under Section 36(b)(1) of the Arms Export Control Act, of up to one hundred twenty (120) AIM-120C-8 Advanced Medium Range Air-to-Air Missiles (AMRAAM); and ten (10) AMRAAM C-8 Guidance Sections. Also included were spare AIM-120 control sections and containers; AIM-120C Captive Air Training Missiles (CATM); other spare parts, consumables, accessories, and repair/return support; classified software; books, technical documentation, and other publications; training and training equipment; munitions support and support

equipment; and other related elements of logistical and program support. The estimated total cost was \$380 million. Major Defense Equipment (MDE) constituted \$358 million of this total.

This transmittal notifies the inclusion of the following MDE items: one hundred fifty-nine (159) AIM-120D-3 Advanced Medium Range Air-to-Air Missiles (AMRAAM); one (1) AMRAAM D-3 guidance section; and one (1) AIM-120D Integrated Test Vehicle. The following non-MDE items will also be included: weapon system support, including software; and KGV-135A COMSEC chips. The estimated total value of the new items and services is \$509 million. The estimated non-MDE value will increase by \$30 million to a revised \$52 million. The estimated total case value will increase by \$509 million to a revised \$889 million. MDE constitutes \$837 million of this total.

(iv) *Significance:* This notification is being provided because the additional MDE and non-MDE items represent an increase in capability over what was previously notified. The proposed sale will improve Belgium's capability to meet current and future threats by maintaining its F-35 fleet in combat-

ready status and providing a credible deterrent to regional threats.

(v) *Justification:* This proposed sale will support the foreign policy and national security objectives of the United States (U.S.) by improving the security of a NATO Ally that is a force for political stability and economic progress in Europe.

(vi) *Sensitivity of Technology:*

The AIM-120D-series Advanced Medium Range Air-to-Air Missile (AMRAAM) is a supersonic, air-launched, aerial intercept, guided missile featuring digital technology and micro-miniature, solid-state electronics. AMRAAM capabilities include look-down/shoot-down, multiple launches against multiple targets, resistance to electronic countermeasures, and interception of high- and low-flying and maneuvering targets. The AIM-120D features a quadrangle target detection device and an electronics unit within the guidance section that performs all radar signal processing, mid-course and terminal guidance, flight control, target detection, and warhead detonation.

The KGV-135A is a high-speed, general purpose encryptor/decryptor module used for wideband data encryption.

The highest level of classification of defense articles, components, and services included in this potential sale is SECRET.

(vii) *Date Report Delivered to Congress*: March 3, 2025
