#### SUPPLEMENTARY INFORMATION:

##### Background

The Codex Alimentarius Commission was established in 1963. Through adoption of food standards, codes of practice, and other guidelines developed by its committees, and by promoting their adoption and implementation by governments, Codex seeks to protect the health of consumers and ensure fair practices in the food trade.

The Terms of Reference of the Codex Committee on Food Additives (CCFA) are:

- (a) to establish or endorse permitted maximum levels for individual food additives;
- (b) to prepare priority lists of food additives for risk assessment by the Joint Expert Committee on Food Additives;
- (c) to assign functional classes to individual food additives;
- (d) to recommend specifications of identity and purity for food additives for adoption by the Commission;
- (e) to consider methods of analysis for the determination of additives in food; and
- (f) to consider and elaborate standards or codes for related subjects such as the labelling of food additives when sold as such.

China hosts the CCFA. The United States attends the CCFA as a member country of Codex.

#### SUPPLEMENTARY INFORMATION:

##### **I. Abstract**

The BE-13, Survey of New Foreign Direct Investment in the United States, is a mandatory survey conducted by BEA under the authority of the International Investment and Trade in Services Survey Act (22 U.S.C. 3101-3108).

The purpose of the BE-13 survey is to collect data on the acquisition or establishment of U.S. business enterprises by foreign investors and the expansion of existing U.S. affiliates of foreign companies to establish a new facility where business is conducted. The data collected on the survey are used to measure the amount and economic significance of new foreign direct investment in the United States and assess its impact on the U.S. economy. Foreign direct investment in the United States is defined as the ownership or control, directly or indirectly, by one foreign investor of 10 percent or more of the voting securities of an incorporated U.S. business enterprise, or an equivalent interest of an unincorporated U.S. business enterprise, including a branch. The data collected through the survey are used to measure the amount of new foreign direct investment in the United States, assess the impact on the U.S. economy, and ensure complete coverage of BEA's other foreign direct investment statistics.

The Bureau of Economic Analysis (BEA) is not proposing any changes to the BE-13 survey.

##### **II. Method of Collection**

Notifications will be mailed to respondents as BEA becomes aware of a potentially reportable investment or when annual cost updates are needed. A business enterprise that meets the reporting requirements of the survey is required to report whether or not it is contacted by BEA. A business enterprise that is contacted by BEA and does not meet the reporting requirements is required to respond to indicate that it does not meet the requirements. The survey is due 45 days after (1) an acquisition is completed, (2) a new U.S. business enterprise is established, (3) an expansion is begun, (4) a cost update is

requested by BEA, or (5) a U.S. business enterprise that does not meet the filing requirements for the survey receives a notification letter from BEA.

BEA offers electronic filing through its eFile system ([www.bea.gov/efile](http://www.bea.gov/efile)) for use in reporting on the BE-13 survey forms. In addition, BEA posts all its survey forms and reporting instructions on its website ([www.bea.gov/fdi](http://www.bea.gov/fdi)). These may be downloaded, completed, printed, and submitted via fax or mail.
