SUPPLEMENTARY INFORMATION:

- I. Background on the Wyoming Program
- II. Description of the Proposed Amendment
- III. Public Comment Procedures
- IV. Procedural Determinations

I. Background on the Wyoming Program

Section 503(a) of the Act permits a State to assume primacy for the regulation of surface coal mining and reclamation operations on non-Federal and non-Indian lands within its borders by demonstrating that its approved State program includes, among other things, State laws and regulations that govern surface coal mining and reclamation operations in accordance with the Act and consistent with the Federal regulations. See 30 U.S.C. 1253(a)(1) and (7).

On the basis of these criteria, the Secretary of the Interior conditionally approved the Wyoming program on November 26, 1980. You can find background information on the Wyoming program, including the Secretary’s findings, the disposition of comments, and conditions of approval of the Wyoming program in the November 26, 1980, **Federal Register** (45 FR 78637). You can also find later actions concerning the Wyoming program and program amendments at 30 CFR 950.10.

II. Description of the Proposed Amendment

By letter sent December 17, 2024 (Admin Record No. WY-054-01), Wyoming sent us a proposed amendment to its State program under SMCRA (30 U.S.C. 1201 *et seq.*). We found Wyoming’s proposed amendment administratively complete on December 31, 2024 (Admin Record No. WY-054-02).

Wyoming submitted this amendment after the EQC updated the WYDEQ Rules of Practice and Procedure during three separate rulemaking hearings, occurring between 2017 and 2021. Wyoming states in its submission that rules that contain specific references to Public Law 95-87 (SMCRA) or the WYDEQ, Land Quality Division (LQD) coal rules were not revised in order to maintain consistency with the LQD’s approved coal program.

In 2017, EQC revised the WYDEQ Rules of Practice and Procedure, Chapter 1—General Rules, Chapter 2—

Contested Case Hearings, Chapter 3—Rulemaking, Chapter 5—Petitions for Award of Costs and Expenses, and Chapter 7—Very Rare or Uncommon Areas. Additionally, Chapter 4—Rehearing was repealed and Chapter 6—Review by the Director, was repealed and renamed Chapter 9—Director Review of Actions Involving Surface Coal Mining Operations and All Hearings Before the Department. The rule changes were made in response to a legislative change that directed the Wyoming Office of Administrative Hearings to promulgate uniform contested case rules for use by all Wyoming State agencies to the extent those rules do not conflict with applicable Federal law.

In 2018, the EQC revised WYDEQ Rules of Practice and Procedure, Chapter 1—General Rules, in response to a legislative change that required uniform rules for all Wyoming State agencies in assessing fees to produce public records. Chapter 1 was revised to adopt the uniform rules in a new section 11 to include the rule and effective date that is incorporated by reference.

In 2021, a rulemaking revised WYDEQ Rules of Practice and Procedure, Chapter 3—Rulemaking, in response to the 2019 Wyoming House Enrolled Act (HB0033) which clarified the role of WYDEQ’s Advisory Boards, developed a process by which the Director may bring matters before the EQC, and amended the scope of the EQC’s authority. Chapter 3 of the WYDEQ Rules of Practice and Procedure was revised to provide consistency with these statutory changes.

The full text of the program amendment is available for you to read at the locations listed above under **ADDRESSES** or at www.regulations.gov.

III. Public Comment Procedures

Under the provisions of 30 CFR 732.17(h), we are seeking your comments on whether the amendment satisfies the applicable program approval criteria of 30 CFR 732.15. If we approve the amendment, it will become part of the Wyoming State program.

Electronic or Written Comments

If you submit written or electronic comments on the proposed rule amendment during the 30-day comment period, they should be specific, confined to issues pertinent to the proposed regulations, and explain the reason for any recommended change(s). We appreciate any and all relevant comments, but those most useful and likely to influence decisions on the final regulations will be those that either

involve personal experience or include citations to and analyses of SMCRA, its legislative history, its implementing regulations, case law, other pertinent State or Federal laws or regulations, technical literature, or other relevant publications.

We cannot ensure that comments received after the close of the comment period (see **DATES**) or sent to an address other than those listed (see **ADDRESSES**) will be included in the docket for this rulemaking and considered.

Public Availability of Comments

Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment including your personal identifying information, may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Public Hearing

If you wish to speak at the public hearing, contact the person listed under **FOR FURTHER INFORMATION CONTACT** by 4:00 p.m., M.S.T. on February 2, 2026. If you are disabled and need reasonable accommodations to attend a public hearing, contact the person listed under **FOR FURTHER INFORMATION CONTACT**. We will arrange the location and time of the hearing with those persons requesting the hearing. If no one requests an opportunity to speak, we will not hold a hearing.

To assist the transcriber and ensure an accurate record, we request, if possible, that each person who speaks at the public hearing provide us with a written copy of his or her comments. The public hearing will continue on the specified date until everyone scheduled to speak has been given an opportunity to be heard. If you are in the audience and have not been scheduled to speak and wish to do so, you will be allowed to speak after those who have been scheduled. We will end the hearing after everyone scheduled to speak and others present in the audience who wish to speak, have been heard.

Public Meeting

If only one person requests an opportunity to speak, we may hold a public meeting rather than a public hearing. If you wish to meet with us to discuss the amendment, please request a meeting by contacting the person listed under **FOR FURTHER INFORMATION CONTACT**. All such meetings are open to the public and, if possible, we will post

notices of meetings at the locations listed under **ADDRESSES**. We will make a written summary of each meeting a part of the administrative record.

IV. Procedural Determinations

Executive Order 12866—Regulatory Planning and Review and Executive Order 13563—Improving Regulation and Regulatory Review

Executive Order 12866 provides that the Office of Information and Regulatory Affairs in the Office of Management and Budget (OMB) will review all significant rules. Pursuant to OMB guidance, dated October 12, 1993, the approval of State program amendments is exempted from OMB review under Executive Order 12866.

Other Laws and Executive Orders Affecting Rulemaking

When a State submits a program amendment to OSMRE for review, our regulations at 30 CFR 732.17(h) require us to publish a notice in the **Federal Register** indicating receipt of the proposed amendment, its text or a summary of its terms, and an opportunity for public comment.

We conclude our review of the proposed amendment after the close of the public comment period and determine whether the amendment should be approved, approved in part, or not approved. At that time, we will also make the determinations and certifications required by the various laws and Executive orders governing the rulemaking process and include them in the final rule.
