

the lack of similar cross-references for other Department-wide regulations). Eliminating § 903.1, and therefore 15 CFR part 903 in its entirety, is consistent with the Department's broader policy and effort to remove regulations that are not statutorily required and do not serve any compelling function. This elimination will streamline NOAA's regulations without altering any substantive rights or obligations.

### III. Regulatory Certifications

#### A. Administrative Procedure Act

Pursuant to 5 U.S.C. 553(b)(B), the Department finds good cause to waive the prior notice and opportunity for public participation requirements of the Administrative Procedure Act for this final rule. The Department considers this rule to be uncontroversial, and has determined that prior notice and opportunity for public participation is unnecessary, because this rule only removes an entirely unnecessary cross-reference to other applicable regulations; public participation could not justify the continued maintenance of 15 CFR part 903. For the same reasons, the Department has determined that delaying the effectiveness of these amendments would be contrary to the public interest. The language being removed by this rule serves no meaningful, independent purpose and effectively amounts to regulatory clutter; its removal will immediately benefit the public at little to no cost. The Department therefore finds good cause to waive the public notice and comment period under 553(b)(B) and to waive the 30-day delay in effectiveness under 553(d).

#### B. Executive Orders 12866, 14192, 13132

The Office of Management and Budget has determined this rule is not significant pursuant to Executive Order ("E.O.") 12866. This rule is an E.O. 14192 deregulatory action. This rule does not contain policies having federalism implications as the term is defined in E.O. 13132.

#### C. Regulatory Flexibility Act

Because a notice of proposed rulemaking and an opportunity for public participation are not required to be given for this rule by 5 U.S.C. 553(b)(B), the analytical requirements of the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*) are not applicable. Accordingly, no regulatory flexibility analysis is required, and none has been prepared.

#### D. Paperwork Reduction Act

This rule will not impose additional reporting or recordkeeping requirements under the Paperwork Reduction Act of 1995, 44 U.S.C. 3501 *et seq.*
