

ACF's annual report to Congress, and the report serves as a useful resource to use in Congressional hearings about how TANF programs are evolving, in assessing state and territory MOE expenditures, and in assessing the need for legislative changes. This information collection will support administration and agency priorities to enhance oversight mechanisms and reinforce accountability across programs. Further, this information collection addresses a recommendation issued by the U.S. Government Accountability Office (GAO) in its final report, GAO-25-107235, that the Secretary of the Department of Health and Human Services should ensure ACF conducts a review of all TANF reporting

requirements and forms and make appropriate changes within its statutory authority to enhance reporting for oversight of TANF funds. The Annual TANF and MOE Report requires states to relate each TANF and MOE benefit or service program to the third and fourth statutory purposes of TANF, which is responsive to GAO's recommendation and aligns with the agency's values of program integrity and fiscal stewardship. This request includes clarifications within instructions, a reduction in burden hours, and a change in collection title to better reflect the content of the collection.

Respondents: The 50 States of the U.S., the District of Columbia, Guam, Puerto Rico, and the Virgin Islands.

Annual Burden Estimates: ACF proposes a 32 percent reduction in estimated average time per response to reflect the intent of existing regulations. 45 CFR 265.9(d) indicates that states that have already incorporated the information required in their TANF State Plan may meet the annual reporting requirements by reference in lieu of completing a re-submission of a particular data element. If the information in the annual report has not changed since the previous annual report, the state may reference this information in lieu of re-submission of a particular data element. Instructions have been updated to make clear both opportunities to reference in lieu of re-submission.

Instrument	Total number of respondents	Annual number of responses per respondent	Average burden hours per response	Annual burden hours
ACF-204; Annual TANF and MOE Report	54	1	80	4,320

Comments: The Department specifically requests comments on (a) whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology. Consideration will be given to comments and suggestions submitted within 60 days of this publication.

Authority: 42 U.S.C. 602 and 611; the Personal Responsibility and Work Opportunity Reconciliation Act of 1996, Public Law 104-193, 110 Stat. 2105.

Mary C. Jones,
ACF/OPRE Certifying Officer.
