

Notices

Federal Register

Vol. 91, No. 12

Tuesday, January 20, 2026

This section of the FEDERAL REGISTER contains documents other than rules or proposed rules that are applicable to the public. Notices of hearings and investigations, committee meetings, agency decisions and rulings, delegations of authority, filing of petitions and applications and agency statements of organization and functions are examples of documents appearing in this section.

DEPARTMENT OF AGRICULTURE

Animal and Plant Health Inspection Service

[Docket No. APHIS–2025–0703]

Notice of Request for Revision to and Extension of Approval of an Information Collection; National Poultry Improvement Plan (NPIP)

AGENCY: Animal and Plant Health Inspection Service, USDA.

ACTION: Revision to and extension of approval of an information collection; comment request.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, this notice announces the Animal and Plant Health Inspection Service's intention to request a revision to and extension of approval of an information collection associated with the National Poultry Improvement Plan.

DATES: We will consider all comments that we receive on or before March 23, 2026.

ADDRESSES: You may submit comments by either of the following methods:

- *Federal eRulemaking Portal:* Go to <http://www.regulations.gov>. Enter APHIS–2025–0703 in the Search field. Select the Documents tab, then select the Comment button in the list of documents.

- *Postal Mail/Commercial Delivery:* Send your comment to Docket No. APHIS–2025–0703, Regulatory Analysis and Development, PPD, APHIS, 5601 Sunnyside Ave., #AP760, Beltsville, MD 20705.

Supporting documents and any comments we receive on this docket may be viewed at <http://www.regulations.gov> or in our reading room, which is in Room 1620 of the USDA South Building, 14th Street and Independence Avenue SW, Washington, DC. Normal reading room hours are 8 a.m. to 4:30 p.m., Monday through

Friday, except holidays. To be sure someone is there to help you, please call (202) 799–7039 before coming.

FOR FURTHER INFORMATION CONTACT: For information on the National Poultry Improvement Plan, contact Dr. Savannah Busby, DVM, Acting Senior Coordinator, National Poultry Improvement Plan, Veterinary Services, APHIS, 1506 Klondike Road SW, Suite 301, Conyers, GA 30094; (678) 501–1476. For more information on the information collection reporting process, contact Ms. Sheniqua Harris, APHIS' Paperwork Reduction Act Coordinator, at (301) 851–2528 or email APHIS.PRA@usda.gov.

SUPPLEMENTARY INFORMATION:

Title: National Poultry Improvement Plan (NPIP).

OMB Control Number: 0579–0007.

Type of Request: Revision to and extension of approval of an information collection.

Abstract: Under the Animal Health Protection Act (7 U.S.C. 8301 *et seq.*) the Animal and Plant Health Inspection Service (APHIS) of the U.S. Department of Agriculture (USDA), is authorized, among other things, to administer the National Poultry Improvement Plan (NPIP), the primary purpose of which is to protect the health of the U.S. poultry population. NPIP is a Federal-State-industry cooperative program for the improvement of poultry flocks and products through disease control techniques. Participation in all NPIP programs is voluntary, but flocks, hatcheries, and dealers of breeding poultry must first qualify as “U.S. Pullorum-Typhoid Clean” as a condition for participation in NPIP programs. The NPIP regulations are contained in 9 CFR part 56, and parts 145 through 147.

To administer the NPIP, APHIS requires a number of activities to include memoranda of understanding; flock selecting and testing reports and commercial waterfowl/game bird egg producing flock surveillance; reports of sales of hatching eggs, chicks and poults (including printing and mailing computerized printouts for small shipments); summaries of breeding flock, table-egg layer flock, meat-type chicken and turkey slaughter plant participation; reports of hatcheries, dealers, and independent flocks, table-egg producers, meat-type chicken and turkey slaughter plants participating in

the NPIP; investigations of salmonella isolations in poultry; flock inspection and check testing reports; and hatchery inspection forms. Activities also include banding or marking of sentinel birds for identification prior to flock vaccination; requests for salmonella serotyping; applications for U.S. Avian influenza and Newcastle Clean Compartment and Clean Component Registrations and requests for removal; component audits; auditor applications for NPIP AI Clean Compartment Program; and compliance statements. Activities further include descriptions of animal identification and traceability processes; laboratory examination for Newcastle disease and reporting; diagnostic test evaluations; Newcastle disease biosecurity plans; indemnity compliance agreements; appraisal and indemnity claims for animals or materials destroyed; initial state response and containment plans; and recordkeeping.

We are asking OMB to approve our use of these information collection activities, as described, for an additional 3 years. APHIS has amended this information collection by correcting the number of Respondents reporting showing an increase which were miscounted in the previous collection; however, the number of Responses and Total Burden Hours slightly decreases.

The purpose of this notice is to solicit comments from the public (as well as affected agencies) concerning our information collection. These comments will help us:

(1) Evaluate whether the collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;

(2) Evaluate the accuracy of our estimate of the burden of the collection of information, including the validity of the methodology and assumptions used;

(3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the collection of information on those who are to respond, through use, as appropriate, of automated, electronic, mechanical, and other collection technologies; *e.g.*, permitting electronic submission of responses.

Estimate of burden: The public burden for this collection of information is estimated to average 0.472 hours per response.

Respondents: State agriculture officials; flock owners; breeders; hatchery operators; table-egg, meat-type chicken, and meat-type turkey producers; feedlot and slaughter plant personnel; approved laboratory personnel; prospective and certified auditors; visitors, and associated entities.

Estimated annual number of respondents: 4,555.

Estimated annual number of responses per respondent: 51.

Estimated annual number of responses: 234,529.

Estimated total annual burden on respondents: 110,738 hours. (Due to averaging, the total annual burden hours may not equal the product of the annual number of responses multiplied by the reporting burden per response.)

All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Done in Washington, DC, this 15th day of January 2026.

Michael Watson,

Administrator, Animal and Plant Health Inspection Service.

BILLING CODE 3410-34-P

DEPARTMENT OF COMMERCE

Census Bureau

Agency Information Collection Activities; Submission to the Office of Management and Budget (OMB) for Review and Approval; Comment Request; Annual Integrated Economic Survey

The Department of Commerce will submit the following information collection request to the Office of Management and Budget (OMB) for review and clearance in accordance with the Paperwork Reduction Act of 1995, on or after the date of publication of this notice. We invite the general public and other Federal agencies to comment on proposed, and continuing information collections, which helps us assess the impact of our information collection requirements and minimize the public's reporting burden. Public comments were previously requested via the **Federal Register** on August 21, 2025 during a 60-day comment period. This notice allows for an additional 30 days for public comments.

Agency: U.S. Census Bureau, Commerce.

Title: Annual Integrated Economic Survey.

OMB Control Number: 0607-1024.

Form Number(s): This electronic collection has no form number.

Type of Request: Regular submission, Request for a Revision of a Currently Approved Collection.

Number of Respondents: 305,340.

Average Hours per Response: 2 hours and 15 minutes.

Burden Hours: 687,015.

Needs and Uses: The Census Bureau requests Office of Management and Budget (OMB) approval to make revisions to the Annual Integrated Economic Survey (AIES). Since survey year 2023 (collected in calendar year 2024), the Census Bureau has conducted the AIES on an annual basis. The AIES was created to integrate seven annual business surveys into one comprehensive survey. It was designed to combine Census Bureau collections to reduce respondent burden and increase data quality. The AIES provides the only comprehensive national and subnational data on business revenues and expenses on an annual basis. The survey covers domestic, nonfarm employer businesses with operations during the survey year. In survey year 2025 (which will be collected in calendar year 2026), a new sample will be selected. Additionally, the AIES will begin to use 2022 North American Industry Classification System (NAICS) codes in its sampling, collection, and dissemination operations; implement a modular and subsampled content strategy to reduce respondent burden while still meeting data users' needs; collect North American Product Classification System (NAPCS)-based data from retail, wholesale, and services businesses; remove depreciable asset questions, select capital expenditure details (finance leases and software), company-level questions (leased employees and research and development spending), and select revenue details; and collect capital expenditures by type (structures and equipment).

Private businesses, organizations, industry analysts, educators and students, and economic researchers will use the estimates for analyzing and conducting impact evaluations on past and current economic performance, short-term economic forecasts, productivity, long-term economic growth, market analysis, tax policy, capacity utilization, business fixed capital stocks and capital formation, domestic and international competitiveness trade policy, product development, market research, and financial analysis. Trade and professional organizations will use the estimates to analyze industry trends and benchmark their own statistical

programs, develop forecasts, and evaluate regulatory requirements. Government program officials and agencies will use the data for research, economic policymaking, and forecasting. Estimates produced from the AIES will serve as a benchmark for Census Bureau indicator programs, such as the Monthly Retail Trade Survey (MRTS); Manufacturers' Shipments, Inventories, and Orders (M3); Monthly Wholesale Trade Survey (MWTS); and Quarterly Services Survey (QSS). The Census Bureau will also continue to use information collected in the AIES to update and maintain the centralized, multipurpose Business Register that provides sampling populations and enumeration lists for the Census Bureau's economic surveys and censuses. The Bureau of Economic Analysis (BEA) will continue to use the estimates to derive industry output for the input-output accounts and for the gross domestic product (GDP). The Bureau of Labor Statistics (BLS) will continue to use the data as input to its Producer Price Index (PPI) and in developing productivity measurements. Additionally, the Federal Reserve Board (FRB) will continue to use the data to prepare the Index of Industrial Production, to improve estimates of investment indicators for monetary policy, and in monitoring retail credit lending. The Centers for Medicare and Medicaid Services (CMS) will continue to use the data to estimate expenditures for the National Health Accounts and for monitoring and evaluating healthcare industries. The Department of the Treasury will continue to use the data to analyze depreciation and to research economic trends.

Frequency: Annually.

Respondent's Obligation: Mandatory.

Legal Authority: Title 13 U.S.C., Sections 131 and 182.

This information collection request may be viewed at www.reginfo.gov. Follow the instructions to view the Department of Commerce collections currently under review by OMB.

Written comments and recommendations for the proposed information collection should be submitted within 30 days of the publication of this notice on the following website www.reginfo.gov/public/do/PRAMain.
