

Manual, Revision 24, dated October 30, 2024; and Section 05–10–10, “Airworthiness Limitations,” Chapter 05, “Time Limits/Maintenance Checks,” Gulfstream G650ER Aircraft Maintenance Manual, Revision 19, dated October 30, 2024; as applicable, is acceptable for compliance with the requirements of this paragraph.

(h) No Alternative Actions or Intervals

After the existing maintenance or inspection program has been revised as required by paragraph (g) of this AD, no alternative actions (e.g., inspections) or intervals may be used unless the actions and intervals are approved as an alternative method of compliance (AMOC) in accordance with the procedures specified in paragraph (j) of this AD.

(i) Special Flight Permit

Special flight permits, as described in 14 CFR 39.23, are not allowed.

(j) Alternative Methods of Compliance (AMOCs)

The Manager, East Certification Branch, FAA, has the authority to approve AMOCs for this AD, if requested using the procedures found in 14 CFR 39.19. In accordance with 14 CFR 39.19, send your request to your principal inspector or responsible Flight Standards Office, as appropriate. If sending information directly to the manager of the East Certification Branch, send it to the attention of the person identified in paragraph (k) of this AD. Information may be emailed to: AMOC@faa.gov. Before using any approved AMOC, notify your appropriate principal inspector, or lacking a principal inspector, the manager of the responsible Flight Standards Office.

Office of Management and Budget pursuant to the Paperwork Reduction Act of 1995.¹

III. Environmental Analysis

3. The Commission is required to prepare an Environmental Assessment or an Environmental Impact Statement for any action that may have a significant adverse effect on the human environment.²

4. Part 380 of the Commission’s regulations lists exemptions to the requirement to draft an Environmental Analysis or Environmental Impact Statement. Included is an exemption for procedural, ministerial, or internal administrative actions.³ Accordingly, this rulemaking is exempt from the requirement to draft such documents under that provision.

IV. Regulatory Flexibility Act

5. The Regulatory Flexibility Act of 1980 (RFA)⁴ generally requires a description and analysis of final rules that will have a significant economic impact on a substantial number of small entities. This rule concerns an update to filing fees. The Commission certifies that it will not have a significant economic impact upon a substantial number of small entities. An analysis under the RFA is therefore not required.

V. Document Availability

6. In addition to publishing the full text of this document in the **Federal Register**, the Commission provides all interested persons an opportunity to view and/or print the contents of this document via the internet through the Commission’s Home Page (<https://www.ferc.gov>).

7. From FERC’s Home Page on the internet, this information is available on eLibrary. The full text of this document is available on eLibrary in PDF and Microsoft Word format for viewing, printing, and/or downloading. To access this document in eLibrary, type the docket number excluding the last three digits of this document in the docket number field.

II. Information Collection Statement

2. This Final rule does not contain any new or additional information collection requirements. The Commission is therefore not required to submit this Final rule for review to the

Public Reference Room at
public.reference@ferc.gov.

VI. Administrative Findings

9. The Commission is issuing this rule as a final rule without a period for public comment. Under 5 U.S.C. 553(b)(3)(A), notice-and-comment rulemaking procedures are unnecessary for “rules of agency organization, procedure, or practice.” This rule is therefore exempt from notice-and-comment rulemaking procedures because it concerns the Commission’s procedures and practices. In particular, the rule adjusts filing fee amounts. The rule will not significantly affect regulated entities or the general public.

VII. Regulatory Planning and Review

10. Executive Orders 12866 and 13563 direct agencies to assess the costs and benefits of available regulatory alternatives and, if regulation is necessary, to select regulatory approaches that maximize net benefits (including potential economic, environmental, public health and safety effects, distributive impacts, and equity). Executive Order 13563 emphasizes the importance of quantifying both costs and benefits, of reducing costs, of harmonizing rules, and of promoting flexibility. The Office of Information and Regulatory Affairs (OIRA) has determined this regulatory action is not a “significant regulatory action,” under section 3(f) of Executive

Order 12866, as amended. Accordingly, OIRA has not reviewed this regulatory action for compliance with the analytical requirements of Executive Order 12866.

VIII. Effective Date and Congressional Notification

11. The Commission has determined, with the concurrence of OIRA, that this rule is not a “major rule” as defined in section 351 of the Small Business Regulatory Enforcement Fairness Act of 1996. This final rule is being submitted to the Senate, House, and Government Accountability Office.

12. This rule is effective February 19, 2026.
