SUPPLEMENTARY INFORMATION:

Correction

In the **Federal Register** of January 14, 2026, in FR Doc. No. 2026-00542, on page 1501, correct the **SUPPLEMENTARY INFORMATION** caption, paragraph 1 and 2, under the Abstract section, to read:

Abstract: The primary objective of the National Agricultural Statistics Service

(NASS) is to collect, prepare and issue State and national estimates of crop and livestock production, prices and disposition as well as economic statistics, farm numbers, land values, on-farm pesticide usage, pest crop management practices, as well as the Census of Agriculture. The Objective Yield Surveys objectively predict yields for corn, soybeans, wheat, citrus, and nuts. Sample fields are randomly selected for these crops, plots are laid out, and periodic counts and measurements are taken and then used to forecast production during the growing season. Production forecasts are published in USDA crop reports.

The fruit and nut objective yield surveys are conducted under cooperative agreements with several State Departments of Agriculture. The individual States will be reimbursing NASS for the costs associated with these additional surveys.

Yvette Anderson,

Federal Register Liaison Officer.

National Institute of Food and Agriculture

Notice of Intent To Extend and Revise a Previously Approved Information Collection

AGENCY: National Institute of Food and Agriculture, USDA.

ACTION: Notice and request for comments.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995 and Office of Management and Budget (OMB) regulations, this notice announces the National Institute of Food and Agriculture's (NIFA) intention to extend and revise a previously approved information collection, entitled *Expanded Food and Nutrition Education Program (EFNEP)*.

DATES: Written comments on this notice must be received by March 23, 2026 to be assured of consideration. Comments received after that date will be considered to the extent practicable.

ADDRESSES: You may submit comments through the Federal eRulemaking Portal:

SUPPLEMENTARY INFORMATION:

Title of Collection: Expanded Food and Nutrition Education Program.

OMB Control Number: 0524-0044.

Expiration Date of Current Approval: 05/31/2026.

Type of Request: Notice of intent to extend and revise a previously approved information collection for three years.

Abstract: EFNEP is authorized under section 1425 of the National Agricultural Research, Extension, and Teaching Policy Act of 1977 (7 U.S.C. 3175 and funded under section 3(d) of the Smith-Lever Act (7 U.S.C. 343(d)). Extension professionals train and supervise paraprofessionals and volunteers who teach food and nutrition information and skills to families and youth with limited financial resources. EFNEP operates through the 1862 and 1890 Land Grant Universities (LGU) in all 50 States, the District of Columbia, and in American Samoa, Guam, Micronesia, Northern Marianas, Puerto Rico, and the Virgin Islands.

NIFA sponsors an integrated data collection process that is used at the county, State, and Federal level. The current data collection system, the Web-based Nutrition Education Evaluation and Reporting System (WebNEERS), captures EFNEP impacts. Its purpose is to gauge if the Federal assistance provided has had an impact on the target audience. It also enables EFNEP staff to make programmatic improvements in delivering nutrition education. Further, the data collected provide information for program management decisions and diagnostic assessments of participants' needs and program fidelity. In order to capture all of EFNEP's reporting requirements in one place, EFNEP program plans and budgetary data are now submitted, reviewed, and approved through WebNEERS. These specific reporting requirements are tied to release of Federal EFNEP funds.

WebNEERS is a single web-based system that operates at three levels: Region (County); Institution
