

BILLING CODE 6001-FR-C

Transmittal No. 25-0N

**REPORT OF ENHANCEMENT OR
UPGRADE OF SENSITIVITY OF
TECHNOLOGY OR CAPABILITY (SEC.
36(B)(5)(C), AECA)**(i) *Prospective Purchaser:* Republic of Korea(ii) *Sec. 36(b)(1), AECA Transmittal No.:* 18-35

Date: September 13, 2018

Implementing Agency: Army

(iii) *Description:* On September 13, 2018, Congress was notified by congressional certification transmittal number 18-35 of the possible sale, under Section 36(b)(1) of the Arms Export Control Act, of sixty-four (64) Patriot Advanced Capability-3 (PAC-3) Missile Segment Enhancement (MSE) missiles. Also included were two (2) PAC-MSE test missiles, range and test programs, publications and technical documentations, training equipment, spare parts, personnel training, United States (U.S.) Government and contractor technical, engineering, and logistics support services, and other related elements of logistics and program support. The estimated total value was \$501 million. Major Defense Equipment (MDE) constituted \$365 million of this total.

On December 22, 2022, Congress was notified by congressional certification transmittal number 23-0C of the inclusion of the following additional MDE items: one-hundred sixteen (116) PAC-3 Missile Segment Enhancement (MSE) missiles; and two (2) PAC-3 MSE test missiles. Also included were spare parts; U.S. Government and contractor technical, engineering, and logistics support services; and other related

elements of logistics and program support. The estimated total value of the additional items was \$533 million. The estimated non-MDE value increased by \$19 million to a revised \$155 million. The revised estimated total case value was \$1.034 billion. MDE constituted \$879 million of this total.

This transmittal notifies the inclusion of the following additional MDE items: up to one hundred seven (107) PAC-3 MSE missiles; and up to five (5) PAC-3 MSE test missiles. The following non-MDE is also included: spare parts; U.S. Government and contractor technical, engineering, and logistics support services; and other related elements of logistics and program support. The estimated total value of the new items is \$1.006 billion. The estimated non-MDE value will increase by \$300 million to a revised \$455 million. The revised estimated total case value will be \$2.04 billion. MDE will constitute \$1.585 billion of this total.

(iv) *Significance:* This notification is being provided as the MDE items were not enumerated in the original notification. The proposed sale will improve the Republic of Korea's air and missile defense capability and ensure greater interoperability with other PAC-3 MSE missile users in the region.

(v) *Justification:* This proposed sale will support the foreign policy goals and national security objectives of the U.S. by improving the security of a major non-NATO ally that is a force for political stability and economic progress in the Pacific region.

(vi) *Sensitivity of Technology:*

The Sensitivity of Technology statement contained in the original notification applies to items reported here.

The highest level of classification of defense articles, components, and services included in this potential sale is SECRET.

(vii) *Date Report Delivered to Congress:* May 15, 2025

POLICY JUSTIFICATION

*Poland—GBU-39/B Small Diameter
Bombs*

The Government of Poland has
requested to buy one thousand four
hundred (1,400) GBU-39/B Small
Diameter Bombs (SDB-I); and four (4)
GBU-39 (T-1)/B inert practice bombs
with fuzes. The following non-MDE

training equipment; warranties;
transportation support; site surveys;

U.S. Government and contractor engineering, logistics, and technical support services; and other related elements of logistics and program support. The estimated total cost is \$180 million.

This proposed sale will support the foreign policy goals and national security of the U.S. by improving the security of a NATO Ally that is a force for political and economic stability in Europe.

The proposed sale will improve Poland's capability to meet current and future threats by enhancing its capacity to conduct effective air-to-ground strikes, reinforcing its capability to protect Polish sovereign territory, and improving its ability to meet NATO requirements. Poland will have no difficulty absorbing these articles into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractor will be The Boeing Corporation, located in St. Louis, MO. At this time, the U.S. Government is not aware of any offset agreement proposed in connection with this potential sale. Any offset agreement will be defined in negotiations between the purchaser and the contractor.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government or contractor representatives to Poland.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

Transmittal No. 25–29

Notice of Proposed Issuance of Letter of Offer Pursuant to Section 36(b)(1) of the Arms Export Control Act

Annex

Item No. vii

(vii) *Sensitivity of Technology:*

1. The GBU–39/B Small Diameter Bomb I (SDB–I) is a 250-pound GPS-aided inertial navigation system with precise positioning service provided by Selective Availability Anti-Spoofing Module or M-Code. It is a small autonomous, day or night, adverse weather, conventional, air-to-ground precision glide weapon able to strike fixed and stationary re-locatable non-hardened targets from standoff ranges. It is intended to provide aircraft with an ability to carry a high number of bombs. Aircraft can carry four SDBs in place of one 2,000-pound bomb.

2. The highest level of classification of defense articles, components, and services included in this potential sale is SECRET.

3. If a technologically advanced adversary were to obtain knowledge of the specific hardware and software elements, the information could be used to develop countermeasures that might reduce system effectiveness or be used in the development of a system with similar or advanced capabilities.

4. A determination has been made that Poland can provide substantially the same degree of protection for the sensitive technology being released as the U.S. Government. This sale is necessary in furtherance of the U.S. foreign policy and national security objectives outlined in the Policy Justification.

5. All defense articles and services listed in this transmittal have been authorized for release and export to the Government of Poland.
