

U.S. Government and contractor engineering, logistics, and technical support services; and other related elements of logistics and program support. The estimated total cost is \$180 million.

This proposed sale will support the foreign policy goals and national security of the U.S. by improving the security of a NATO Ally that is a force for political and economic stability in Europe.

The proposed sale will improve Poland's capability to meet current and future threats by enhancing its capacity to conduct effective air-to-ground strikes, reinforcing its capability to protect Polish sovereign territory, and improving its ability to meet NATO requirements. Poland will have no difficulty absorbing these articles into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractor will be The Boeing Corporation, located in St. Louis, MO. At this time, the U.S. Government is not aware of any offset agreement proposed in connection with this potential sale. Any offset agreement will be defined in negotiations between the purchaser and the contractor.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government or contractor representatives to Poland.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

Transmittal No. 25–29

Notice of Proposed Issuance of Letter of Offer Pursuant to Section 36(b)(1) of the Arms Export Control Act

Annex

Item No. vii

(vii) *Sensitivity of Technology:*

1. The GBU–39/B Small Diameter Bomb I (SDB–I) is a 250-pound GPS-aided inertial navigation system with precise positioning service provided by Selective Availability Anti-Spoofing Module or M-Code. It is a small autonomous, day or night, adverse weather, conventional, air-to-ground precision glide weapon able to strike fixed and stationary re-locatable non-hardened targets from standoff ranges. It is intended to provide aircraft with an ability to carry a high number of bombs. Aircraft can carry four SDBs in place of one 2,000-pound bomb.

2. The highest level of classification of defense articles, components, and services included in this potential sale is SECRET.

3. If a technologically advanced adversary were to obtain knowledge of the specific hardware and software elements, the information could be used to develop countermeasures that might reduce system effectiveness or be used in the development of a system with similar or advanced capabilities.

4. A determination has been made that Poland can provide substantially the same degree of protection for the sensitive technology being released as the U.S. Government. This sale is necessary in furtherance of the U.S. foreign policy and national security objectives outlined in the Policy Justification.

5. All defense articles and services listed in this transmittal have been authorized for release and export to the Government of Poland.

None

(viii) *Date Report Delivered to Congress:* May 20, 2025

* as defined in Section 47(6) of the Arms Export Control Act.

POLICY JUSTIFICATION

Bosnia and Herzegovina—AW-119Kx Helicopters

Bosnia and Herzegovina has requested to buy AW-119Kx helicopters; qualification and transition training of pilots and maintainers; in-country contractor field service representative support; program management reviews; technical assistance; product support; associated aviation ground support equipment; platform-peculiar ground support equipment; hardware; special tools; test equipment and basic issue items; quality assurance team inspections; inventories; ground run and flight test validation and verification testing; air freight

transportation delivery; initial spares, repair and consumable parts; operator maintenance; and technical manuals; U.S. Government and contractor engineering, technical, and logistics support services; and other related elements of logistics and program support. The estimated total cost is \$100 million.

The proposed sale will support the foreign policy goals and the national security objectives of the U.S. by improving the security of a partner country that is a force for political stability and economic progress in Europe.

The proposed sale will improve the capability of the Armed Forces of Bosnia and Herzegovina (AFBiH) to meet current and future threats by supporting regional and NATO cooperation exercises, protecting Bosnia and Herzegovinian national security interests in the country's mountainous and inaccessible terrain. The aircraft will also enable the AFBiH to better support disaster relief, search and rescue, and other humanitarian aid missions in the country, and will also serve for pilot training.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractor will be Leonardo Helicopters U.S., AgustaWestland Philadelphia Corporation, located in Philadelphia, PA. At this time, the U.S. Government is not aware of any offset agreement proposed in connection with this potential sale. Any offset agreement will be defined in negotiations between the purchaser and the contractor.

Implementation of this proposed sale will require the assignment of up to five additional U.S. Government and up to seven contractor representatives to the Bosnia and Herzegovina for a duration of up to five years to support equipment operation and training.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.
