

This proposed sale will provide Türkiye with a critical air defense capability to assist in defending its homeland and U.S. personnel stationed there. Türkiye will have no difficulty absorbing these articles and services into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractor will be RTX Corporation, located in Tucson, AZ. At this time, the U.S. Government is not aware of any offset agreement proposed in connection with this potential sale. Any offset agreement will be defined in negotiations between the purchaser and the contractor.

Implementation of this proposed sale will require annual trips of three U.S. Government and two contractor representatives to Türkiye for technical reviews, support, and oversight for approximately eight years.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

Transmittal No. 20–61

Notice of Proposed Issuance of Letter of Offer Pursuant to Section 36(b)(1) of the Arms Export Control Act

Annex

Item No. vii

(vii) *Sensitivity of Technology:*

1. The AIM–9X Block II Sidewinder missile represents a substantial increase in missile acquisition and kinematics performance over the AIM–9M and replaces the AIM–9X Block I missile

configuration. The missile includes a high off-boresight seeker, an enhanced countermeasure rejection capability, a low drag/high angle of attack airframe, and the ability to integrate the Helmet Mounted Cueing System. The most current AIM–9X Block II operational flight software developed for all international partners, which is authorized by U.S. Government export policy, provides fifth-generation infrared missile capabilities such as lock-on-after-launch, Weapons Data Link, surface attack, and surface launch. No software source code or algorithms will be released.

2. The highest level of classification of defense articles, components, and services included in this potential sale is SECRET.

3. If a technologically advanced adversary were to obtain knowledge of the specific hardware and software elements, the information could be used to develop countermeasures that might reduce system effectiveness or be used in the development of a system with similar or advanced capabilities.

4. A determination has been made that Türkiye can provide substantially the same degree of protection for the sensitive technology being released as the U.S. Government. This sale is necessary in furtherance of the U.S. foreign policy and national security objectives outlined in the Policy Justification.

5. All defense articles and services listed in this transmittal have been

authorized for release and export to the Republic of Türkiye.

(viii) *Date Report Delivered to Congress*: May 12, 2025

* as defined in Section 47(6) of the Arms Export Control Act.

POLICY JUSTIFICATION

United Arab Emirates—F-16 Sustainment

The Government of the United Arab Emirates (UAE) has requested to buy additional F-16 aircraft components, spares, and accessories; and other related elements of logistics and program support that will be added to a previously implemented case whose value was below the congressional notification threshold. The original Foreign Military Sales (FMS) case, valued at \$40.9 million (\$0 in MDE), included Common Munitions Built-in-Test Reprogramming Equipment (CMBRE); munitions support equipment; night vision device (NVD) support and spare equipment; spare parts, consumables and accessories; repair and return support; classified and unclassified software delivery and support; classified and unclassified publications and technical documentation; site surveys; studies and surveys; transportation support; U.S. Government and contractor engineering, technical, and logistics

support services. The estimated total cost is \$130 million.

This proposed sale will support the foreign policy and national security of the U.S. by helping to improve the security of a major defense partner. The UAE is a force for political stability and economic progress in the Middle East.

The proposed sale will improve the United Arab Emirates' ability to defend its sovereignty and territorial integrity to meet its national defense requirements. The United Arab Emirates will have no difficulty absorbing this equipment and services into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

There are no principal contractors associated with this potential sale. At this time, the U.S. Government is not aware of any offset agreement proposed in connection with this potential sale. Any offset agreement will be defined in negotiations between the purchaser and the contractor.

Implementation of this proposed sale will not require the assignment of additional U.S. Government or U.S. contractor representatives to the UAE.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.
