k. *Description of Project:* The existing Humphreys Hydroelectric Project (P–13871) consists of: (1) 186-foot-long, 90-foot-high concrete arch dam with twin 36-inch outlets; (2) 148-foot long, 70-foot-wide concrete ogee overflow spillway; (3) 44-acre reservoir with normal storage of 842 acre feet and a normal surface elevation of 8,971.15 feet mean sea level; (4) siphon intake and trash rack constructed on the left abutment of the dam at an elevation 8,971.15 feet mean sea level; (5) 36-inch-diameter, 600-foot-long above

ground steel penstock leading from the siphon intake to the powerhouse; (6) 16-foot-wide by 24-foot-long powerhouse housing the turbine, generator, switchgear and controls; (7) 310-kilowatt nameplate capacity turbine generator; (8) 500-foot-long, 25-kilovolt buried cable connecting the powerhouse to the existing underground power line located adjacent to the main ranch access road; and (9) appurtenant facilities.

This petition seeks a declaration finding that the Humphreys Hydroelectric Project is non-jurisdictional because the project is not located on a navigable stream or a tributary to a navigable waterway over which Congress has jurisdiction under the Commerce Clause; does not involve post-1935 construction; and does not directly affect interstate or foreign commerce.

When a Petition for Declaratory Order is filed with the Commission, requesting a jurisdictional determination for an existing project, a review is begun to determine if the interests of interstate or foreign commerce are affected by the project. The Commission also determines whether or not the project: (1) is located on a navigable waterway; (2) is occupying or affecting public lands or reservations of the United States; (3) is utilizing surplus water or water power from a government dam; or (4) if applicable, has undertaken any construction subsequent to 1935 that may have increased the project's head or generating capacity, or has otherwise significantly modified the project's pre-1935 design or operation.

l. *Locations of the Application:* This filing may be viewed on the Commission's website at <http://www.ferc.gov/docs-filing/elibrary.asp>. n. *Comments, Protests, or Motions to Intervene:* Anyone may submit comments, a protest, or a motion to intervene in accordance with the requirements of Rules of Practice and Procedure, 18 CFR 385.210, .211, and .214. In determining the appropriate action to take, the Commission will

consider all protests or other comments filed, but only those who file a motion to intervene in accordance with the Commission's Rules may become a party to the proceeding. Any comments, protests, or motions to intervene must be received on or before the specified comment date for the particular application.
