

IV. Legislative Revisions to the PAYGO Scorecards

Section 8001(d) of division H of Public Law 119–37, the Continuing Appropriations, Agriculture, Legislative Branch, Military Construction and Veterans Affairs, and Extensions Act, 2026, states: “Effective on the date of the adjournment of the first session of the 119th Congress, and for the purposes of the annual report issued pursuant to section 5 of the Statutory Pay-As-You-Go Act of 2010 (2 U.S.C. 934) after such adjournment and for determining whether a sequestration order is necessary under such section, the balances on the PAYGO scorecards established pursuant to paragraphs (4) and (5) of section 4(d) of such Act shall be zero.” Accordingly, all years on both the 5- and 10-year scorecards are zero.

V. Sequestration Order

As shown on the scorecards, the budgetary effects of PAYGO legislation enacted in the first session of the 119th Congress, combined with section 8001(d) of division H of Public Law 119–37, resulted in no costs on either the 5-year or the 10-year scorecard in the budget year, which is 2026 for the purposes of this Report. Because the costs for the budget year, as shown on the scorecards, were set to zero for the budget year, there is no “debit” on either scorecard under section 3 of the PAYGO Act, 2 U.S.C. 932, and a sequestration order is not required.⁶

SUPPLEMENTARY INFORMATION:

I. Abstract

Homeland Security Presidential Directive 12 (HSPD–12) established a mandatory requirement for a Government-wide identity verification standard. In compliance with HSPD–12 and the National Institute of Standards and Technology (NIST) Federal Information Processing Standard (FIPS) 201: Personal Identity Verification of Federal Employees and Contractors, and OMB Policy memorandum M–05–24 Implementation of Homeland Security Presidential Directive 12, NASA must collect information from members of the public to: (1) validate identity and (2) issue secure and reliable federal credentials to enable access to NASA facilities/sites and NASA information systems. Information collected is consistent with background investigation data to include but not limited to name, date of birth, citizenship, social security number (SSN), address, employment history, biometric identifiers (e.g. fingerprints), signature, digital photograph. NASA collects information from U.S. Citizens and U.S. Persons requiring access 30 or more days in a calendar year. NASA also collects information from foreign nationals regardless of their affiliation time.

NASA collects, stores, and secures information from individuals identified above in the NASA Identity Management and Account Exchange System (IdMAX) in a manner consistent with the Constitution and applicable laws, including the Privacy Act (5 U.S.C. 552a.). Information is collected

via a combination of electronic and paper processes and stored in the NASA IdMAX.

NASA is committed to effectively performing the Agency’s communication function in accordance with the Space Act Section 203 (a)(3) to “provide for the widest practicable and appropriate dissemination of information concerning its activities and the results thereof,” and to enhance public understanding of, and participation in, the nation’s aeronautical and space program in accordance with the NASA Strategic Plan.

II. Methods of Collection

NASA collects this information electronically (90%) and on paper (10%).

III. Data

Title: Personal Identity Validation for Routine and Intermittent Access to NASA Facilities, Sites, and Information Systems.

OMB Number: 2700–0158.

Type of review: Renewal of information collection.

Affected public: Individuals.

Estimated annual number of activities: 52,000.

Estimated number of respondents per activity: 1.

Annual responses: 52,000.

Estimated time per response: 10 minutes.

Estimated total annual burden hours: 8,667 hours.

IV. Request for Comments

Comments are invited on: (1) Whether the proposed collection of information is necessary for the proper performance of the functions of NASA, including whether the information collected has practical utility; (2) the accuracy of NASA’s estimate of the burden (including hours and cost) of the proposed collection of information; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on respondents, including automated collection techniques or the use of other forms of information technology.

Comments submitted in response to this notice will be summarized and included in the request for OMB approval of this information collection. They will also become a matter of public record.
