### II. Legal Basis

FMCSA has authority under 49 U.S.C. 31136(e) and 31315(b) to grant exemptions from the Federal Motor Carrier Safety Regulations. FMCSA must publish a notice of each exemption request in the **Federal Register** (49 CFR 381.315(a)). The Agency must provide the public an opportunity to inspect the information relevant to the application, including the applicant’s safety analysis. The Agency must provide an opportunity for public comment on the request.

The Agency reviews the application, safety analyses, and public comments submitted and determines whether granting the exemption would likely achieve a level of safety equivalent to, or greater than, the level that would be achieved absent such exemption, pursuant to the standard set forth in 49 U.S.C. 31315(b)(1). The Agency must publish its decision in the **Federal Register** (49 CFR 381.315(b)). If granted, the notice will identify the regulatory provision from which the applicant will be exempt, the effective period, and all terms and conditions of the exemption (49 CFR 381.315(c)(1)). If the exemption is denied, the notice will explain the reason for the denial (49 CFR 381.315(c)(2)). The exemption may be renewed (49 CFR 381.300(b)).

### III. Applicant’s Request

#### Current Regulatory Requirements

Under 49 CFR 391.11(b)(1), “Except as provided in subpart G of this part, a person is qualified to drive a motor vehicle if he/she—(1) Is at least 21 years old.”

Under 49 U.S.C. 31315(c)(2)(A) and 49 CFR 381.505(b)(1), a pilot program is limited to a maximum of 3 years.

FMCSA announced its SDAP program on January 14, 2022 (87 FR 2477). FMCSA began data collection on apprentice drivers in November 2022. The SDAP program concluded on November 7, 2025.

#### Applicant’s Request

ATA requests a five-year exemption from 49 CFR 391.11(b)(1) to allow motor

carriers that had been approved to participate in FMCSA's SDAP program to continue onboarding and training 18- to 20-year-old apprentice drivers after the November 7, 2025 expiration of the SDAP program. ATA states that FMCSA's SDAP program quarterly reports demonstrate positive safety outcomes, including millions of miles driven by program participants without reportable crashes. ATA believes that continuing the regulatory relief under an exemption would create minimal administrative burdens for FMCSA or participating motor carriers.

ATA's request outlines the history of prior efforts to evaluate younger drivers for interstate CMV operations, including the Truckload Carriers Associations' petition for a younger-driver pilot program, which FMCSA denied in 2003 due to insufficient data, and the Under-21 Military Pilot Program established pursuant to § 5404 of the Fixing America's Surface Transportation Act.<sup>1</sup>

#### *Applicant's Equivalent Level of Safety*

ATA contends that the SDAP program has now generated safety data and demonstrated effective oversight, as FMCSA has exercised its authority to remove carriers or participants when necessary to ensure safety. ATA believes that because FMCSA did not end the pilot program early, the program met an equivalent level of safety to existing regulations. Although ATA's application for exemption states that FMCSA "has not acted to end the pilot program," FMCSA clarifies that the SDAP program concluded on November 7, 2025, as required by statute.

A copy of ATA's application for exemption is available for review in the docket for this notice.

#### **IV. Request for Comments**

In accordance with 49 U.S.C. 31315(b), FMCSA requests public comment from all interested persons on ATA's application for a five-year exemption from 49 CFR 391.11(b)(1) to allow 18- to 20-year-old apprentice drivers to continue to be onboarded and trained by motor carriers that were approved to participate in the SDAP program, which ended on November 7, 2025. All comments received before the close of business on the comment closing date will be considered and will be available for examination in the docket at the location listed under the Addresses section of this notice. Comments received after the comment closing date will be filed in the public docket and will be considered to the

extent practicable. In addition to late comments, FMCSA will also continue to file, in the public docket, relevant information that becomes available after the comment closing date. Interested persons should continue to examine the public docket for new material.
