

Each applicant requests an ITPs to take the federally listed Alabama beach mouse (*Peromyscus polionotus ammobates*) incidental to the construction, maintenance and operation of a single-family home in Baldwin County, Alabama. We request public comment on each applicants' habitat conservation plans (HCP) and on the Service's preliminary determination that the proposed ITPs qualify under the GCP and Final Environmental Impact Statement (FEIS) for the Alabama beach mouse published on March 28, 2012 (FWS-R4-ES-2012-N063).

### Proposed Projects

*Permit Number: PER21705285*

Joseph Pianalto, applicant, requests a 50-year ITP to take Alabama beach mice via the conversion of 0.10 acre (ac) of occupied nesting, foraging, and sheltering ABM habitat incidental to the construction of a single-family home on a 0.66-ac parcel located off Bonita Lane in Gulf Shores, Alabama. The applicant proposes to mitigate for the take of ABM through an in-lieu fee of \$10,005.00 to the Alabama Coastal Heritage Trust's Alabama beach mouse conservation fund.

*Permit Number: PER21702947*

Jeffrey W. Floyd, applicant, requests a 50-year ITP to take Alabama beach mice via the conversion of approximately 0.13-ac of occupied nesting, foraging, and sheltering ABM habitat incidental to the construction of a single-family home on a 0.964-ac lot. The parcel is located at 2549 W Beach Boulevard, in Gulf Shores, Alabama. The applicant proposes to mitigate for the take of ABM through an in-lieu fee of \$12,590.20 to the Alabama Coastal Heritage Trust's Alabama beach mouse conservation fund.

*Permit Number: PER21705302*

Robert Holzberger, applicant, requests a 50-year ITP to take Alabama beach mice via the conversion of approximately 0.086-ac of occupied nesting, foraging, and sheltering ABM habitat incidental to the construction of a single-family home on a 0.57-ac lot. The parcel is located on Palmetto Drive in Gulf Shores, Alabama. The applicant proposes to mitigate for the take of ABM through an in-lieu fee of \$8,579 to the Alabama Coastal Heritage Trust's ABM conservation fund.

### Our Preliminary Determination

The Service has made a preliminary determination that reasonably foreseeable effects of each applicants' proposed projects, including the construction of the three single family

homes, would have a minor effect on Alabama beach mice and the human environment. Reasonably foreseeable effects encompass effects of the implementation of the action along with other past, present, and reasonably foreseeable future effects. Therefore, we have preliminarily determined that each proposed ESA section 10(a)(1)(B) permit would meet the requirements of the GCP and FEIS.

### Next Steps

The Service will evaluate each application and the comments to determine whether to issue the requested ITP. We will also conduct an intra-Service consultation pursuant to section 7 of the ESA to evaluate the effects of the proposed take. After considering the preceding and other matters, we will determine whether the permit issuance criteria of section 10(a)(1)(B) of the ESA have been met. If met, the Service will issue ITP number PER21705285 to Joseph Pianalto, PER21702947 to Jeffrey W. Floyd, and PER21705302 to Robert Holzberger.
