### National Institute of Food and Agriculture

*Title:* Veterinary Medicine Loan Repayment Program (VMLRP).

*OMB Control Number:* 0524–0050.

*Summary of Collection:* In January 2003, the National Veterinary Medical Service Act (NVMSA) passed into law adding section 1415A to the National Agricultural Research, Extension, and Teaching Policy Act of 1997. This law established a new Veterinary Medicine Loan Repayment Program (VMLRP) (7 U.S.C. 3151a) authorizing the Secretary of Agriculture to carry out a program of entering into agreements with veterinarians under which they agree to provide veterinary services in veterinarian shortage situations. The purpose of the program is to assure an adequate supply of trained food animal veterinarians in shortage situations and provide USDA with a pool of veterinary specialists to assist in the control and eradication of animal disease outbreaks. The National Institute of Food and Agriculture (NIFA) will designate geographic and practice areas that have a shortage of food supply veterinarians to carry out the VMLRP goals of strengthening the nation's animal health infrastructure and supplementing the Federal response during animal health emergencies. NIFA will carry out NVMSA by entering into educational loan repayment agreements with veterinarians who agree to provide veterinary services in veterinarian shortage for a specific duration. NIFA will collect information using the Shortage Situation Nomination Form, Application Form, Records and Reports, and Surveys.

*Need and Use of the Information:* The information collected allows the National Institute of Food and Agriculture to request VMLRP applicants' information related to eligibility, qualification, career interests, and recommendations necessary to evaluate their applications for repayment of educational indebtedness in return for agreeing to provide veterinary services in veterinarian shortage situations. The information will also be used to determine an applicant's eligibility for participation in the program. The information also allows the VMLRP to assess program processes and impact, make program

improvements based on process feedback, and provide feedback to State Animal Health Officials on veterinarian shortage situations, which can aid them during the nomination process.

*Description of Respondents:*

Individuals or households; Business or other for-profit.

*Number of Respondents:* 880.

*Frequency of Responses:* Reporting: Quarterly, Annually, Biennially.

*Total Burden Hours:* 2,540.
