That notice was followed by a notice of an additional extension that was published in the **Federal Register** on November 10, 2025. This notice provides an additional extension of the compliance dates for these programs as specified below beyond the dates set forth in the November 10, 2025, notice.

#### SUPPLEMENTARY INFORMATION:

##### I. Background

On April 26, 2024, HUD and the U.S. Department of Agriculture published the Final Determination (89 FR 33112), which adopted the 2021 edition of the International Energy Conservation Code (IECC) and the 2019 edition of ANSI/ASHRAE/IES Standard 90.1: Energy Standard for Buildings, Except Low-Rise Residential Buildings (ASHRAE 90.1) as the minimum energy standards for new construction of buildings in programs covered by section 109 of the Cranston-Gonzalez National Affordable Housing Act of 1990 (42 U.S.C. 12709), as amended by the Energy Independence and Security Act of 2007 (EISA) (Pub. L. 110-140).

In Section VI of the Final Determination, the Departments provided Table 32, which lists compliance dates for the updated energy efficiency standards, also available with further guidance for HUD programs at <https://www.hudexchange.info/programs/minimum-energy-standards/>.

On March 10, 2025, HUD published “Final Determination: Adoption of Energy Efficiency Standards for New Construction of HUD- and USDA-Financed Housing; Extension of HUD Compliance Dates” (90 FR 11622), which extended the compliance dates for the following HUD programs: Federal Housing Administration-Insured (FHA-Insured) Multifamily, FHA-Insured Single Family, Public Housing Capital Fund, and Competitive Grants (Choice Neighborhoods, Section 202, Section 811), and Section 8 Project Based Vouchers. As explained in the March 10 extension notice, HUD did not extend the compliance dates for HOME

and Housing Trust Fund because those dates had already passed.

On July 7, 2025, HUD and USDA published “Adoption of Energy Efficiency Standards for New Construction of HUD- and USDA-Financed Housing; Notice for Comment” (90 FR 29882), in which the agencies announced that they intend to review the analysis contained in the Final Determination and requested additional public comment to inform such review. The agencies received nearly 100 public comments in response to the notice. Subsequent to that notice, HUD published an additional extension of the compliance dates on November 10, 2025 (90 FR 50750).

##### II. Additional Delay of Compliance Dates

HUD is providing an additional delay of the HUD compliance dates that have not yet passed. The compliance dates for the following HUD programs are extended until December 31, 2026: Federal Housing Administration-Insured (FHA-Insured) Multifamily, FHA-Insured Single Family, Public Housing Capital Fund, and Section 8 Project Based Vouchers. The deadline for the Competitive Grants (Choice Neighborhoods, Section 202, Section 811) is extended until the publication of the respective program NOFOs for FY2026.

The additional delay provided by this notice will provide time for the agencies to fully consider the public comments received in response to the July 7 Notice for Comment. In this regard, the Department notes the request from a national building industry advocacy organization for an additional extension of the compliance dates. The additional delay for Section 8 Project Based Vouchers will allow time for HUD to solicit comment and develop and publish further guidance on compliance for Section 8 PBV.

As with the March 10 and November 10 extensions, HUD is not by this notice amending the compliance date for the HOME Investment Partnerships Program (HOME) and the Housing Trust Fund (HTF) Program, which has already passed. As stated on HUD Exchange, if HOME and HTF projects receive layered

funding with other HUD funds covered by this notice as listed in the table below, the later compliance date applies. HUD confirms that HOME and HTF projects with funding from a program covered by this compliance

date extension do not have to comply with the Final Determination until the new extended date. See <https://www.hudexchange.info/programs/minimum-energy-standards/> for more information. Program participants who

may have difficulty meeting compliance dates that have already passed should contact HUD.

The updated compliance dates are as follows:

III. Findings and Certifications

Environmental Impact

This notice provides updated compliance deadlines for the Final Determination. A Finding of No Significant Impact (FONSI) was prepared for the preliminary determination that preceded the Final Determination and remained applicable to the Final Determination. That FONSI is also applicable to this notice. Accordingly, under 24 CFR 50.19(c)(4) this notice is categorically excluded from environmental review under the National Environmental Policy Act of 1969 (42 U.S.C. 4321).
