

sells at the MDC, while setting the meet-me-room fees too high would negatively affect the Exchange's ability to sell its services at the MDC.¹⁴ Accordingly, there are real constraints on the meet-me-room fees the Exchange charges, such that the Exchange does not have an advantage in terms of costs when compared to third parties that enter the MDC through the meet-me-rooms to provide services to compete with the Exchange's services.

The Exchange believes that the proposed change provides for the equitable allocation of reasonable dues, fees, and other charges among its members and issuers and other persons using its facilities and does not unfairly discriminate between customers, issuers, brokers, or dealers because it is not designed to permit unfair discrimination between market participants. Rather, it would apply to all market participants equally. All Users that have two Resilient TF VCCs, *i.e.* that connect to the same TF and use different networks and so are not able to be active at the same time, would be charged as if they had one TF VCC. All Users that have two TF VCCs that are not resilient, for example that use the same Trading Floor network, will continue to be subject to two charges.

There is no limit on the number of Resilient TF VCCs a User may obtain. Accordingly, a User could have two Resilient TF VCCs to each Trading Floor, or a number of Resilient TF VCCs to one Trading Floor.

The Exchange believes its proposal is not unfairly discriminatory. The proposed change does not apply differently to distinct types or sizes of market participants. Rather, it applies to all market participants equally. The purchase of any proposed service is completely voluntary and the Fee Schedule will be applied uniformly to all market participants.

For the reasons above, the proposed change does not unfairly discriminate between or among market participants that are otherwise capable of satisfying any applicable co-location fees, requirements, terms, and conditions established from time to time by the Exchange.

For these reasons, the Exchange believes that the proposal is consistent with the Act.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange believes that the proposal will not impose any burden on

competition that is not necessary or appropriate in furtherance of the purposes of Section 6(b)(8) of the Act.¹⁵

The proposed change would not impose a burden on competition among national securities exchanges or among members of the Exchange. Rather, it would encourage Users to have resilient VCCs between the MDC and the Trading Floors. The Exchange believes that amending the note to the Fee Schedule would make it easier for potential purchasers of the service to assess what connectivity will best serve them.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

No written comments were solicited or received with respect to the proposed rule change.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Pursuant to Section 19(b)(3)(A)(ii) of the Act,¹⁶ and Rule 19b-4(f)(2) thereunder¹⁷ the Exchange has designated this proposal as establishing or changing a due, fee, or other charge imposed on any person, whether or not the person is a member of the self-regulatory organization, which renders the proposed rule change effective upon filing. At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act.
