

**DEPARTMENT OF COMMERCE****Foreign-Trade Zones Board****[B-18-2026]****Foreign-Trade Zone (FTZ) 22, Notification of Proposed Production Activity; AFC Specialty Coatings Group, LLC; (Polymer or Silicone Coated Fabrics); Lake in the Hills, Illinois**

The Illinois International Port District, grantee of FTZ 22, submitted a notification of proposed production activity to the FTZ Board (the Board) on behalf of AFC Specialty Coatings Group, LLC (AFC) for AFC's facility in Lake in the Hills, Illinois within FTZ 22. The notification conforming to the requirements of the Board's regulations (15 CFR 400.22) was received on February 10, 2026.

Pursuant to 15 CFR 400.14(b), FTZ production activity would be limited to the specific foreign-status material(s)/ component(s) and specific finished product(s) described in the submitted notification (summarized below) and subsequently authorized by the Board. The benefits that may stem from conducting production activity under FTZ procedures are explained in the background section of the Board's website—accessible via [www.trade.gov/ftz](http://www.trade.gov/ftz).

The proposed finished products include: Full-Width PTFE Coated Fiberglass/Aramid Fabric; Pressure Sensitive Tapes Made of PTFE Coated Fiberglass/Aramid Fabrics; Slit-Width PTFE Coated Fiberglass/Aramid Fabrics; Slit Width Pressure Sensitive Tapes Made of PTFE Coated Fiberglass/Aramid Fabrics; Cut Sheets Made of PTFE Coated Fiberglass Fabrics; Fabricated Parts Made of PTFE Coated Fiberglass/Aramid Fabrics; Full-Width Silicone Coated Fiberglass/Aramid Fabric; Slit-Width Silicone Coated Fiberglass/Aramid Fabric; Conveyor Belting Made of Silicone Coated Fiberglass/Kevlar Fabrics; Molded Composite Trays Made of PTFE, Polyphenylene Sulfide (PPS), Polyether sulfone (PESU), Polyamide-imide Coated (PAI) Fiberglass/Aramid Fabrics or Combination of Such Fabrics and Coatings; Conveyor Belting Made of PTFE Coated Fiberglass/Aramid Fabrics; Fabricated Parts Made of PTFE Coated Fiberglass/Aramid Fabrics; Conveyor Belting Made of PTFE Coated Aramid (Kevlar) Fabrics with Specialized Fabrication, such as breathable fabric seams made of custom Aramid (Kevlar) or similar construction (non-metallic) or non-standard (custom designed) belt guiding mechanisms; Full-Width

Neoprene Coated Reinforced Fabrics; and Slit-Width Neoprene Coated Reinforced Fabrics (duty rate ranges from 3.3% to 5.8%).

The proposed foreign-status materials/components include: Silicone Rubber; Neoprene Rubber; Silicone Pressure Sensitive Adhesives; Acrylic Pressure Sensitive Adhesives; Rubber Pressure Sensitive Adhesives; Benzoyl Peroxide Crosslinking Agents; Reaction Initiator—Platinum; Silane-Based Coating Primers; Zirconate/Titanate-Based Coating Primers; PTFE Aqueous Dispersion; PFA (Perfluoroether Polymer) Dispersion; FEP (Fluorinated Ethylene Propylene) Dispersion; Fused Silica; Colloidal Silica; Silicon Carbide Powder; Carbon Black Powders; Mica Pigments; Iron-Oxide Pigments; Nonionic Surfactants; Acrylic Alkali-Soluble Emulsion (ASE); Rheology Modifier; Release Liner for Pressure Sensitive Tapes—Plastic; Release Liner for Pressure Sensitive Tapes—Paper; Polyethylene Plastic Film; Polyester Plastic Film; Woven Kevlar Fabric; Woven Nylon Fabric; Woven E-Glass Fiberglass Fabric—Closed Weave; Woven E-Glass Fiberglass Fabric—Mesh; Woven E-Glass Fiberglass Fabric; Woven Polyester Fabric; PTFE Synthetic Filaments for Sewing; Kevlar (Aramid) Synthetic Filaments for Sewing; DOTs (Metal Snap Fasteners); Conveyor Belt Lacing out of Steel; Conveyor Belt Clips Out of Steel; Conveyor Belt Grommets Out of Steel; Polyphenylene Sulfide Resin (PPS); Polyphenylsulfone Resin (PPSU); Polyamideimide Resin (PAI); and Polyethersulfone Resin (PESU/PES) (duty rate ranges from duty-free to 14.90%).

The request indicates that certain materials/components are subject to duties under section 1702(a)(1)(B) of the International Emergency Economic Powers Act (section 1702), section 232 of the Trade Expansion Act of 1962 (section 232), or section 301 of the Trade Act of 1974 (section 301), depending on the country of origin. The applicable section 1702, section 232, and section 301 decisions require subject merchandise to be admitted to FTZs in privileged foreign status (19 CFR 146.41). The request also indicates that PTFE Aqueous Dispersion is subject to an antidumping/countervailing duty (AD/CVD) order/investigation if imported from certain countries. The Board's regulations (15 CFR 400.13(c)(2)) require that merchandise subject to AD/CVD orders, or items which would be otherwise subject to suspension of liquidation under AD/CVD procedures if they entered U.S. customs territory, be admitted to the

zone in privileged foreign status (19 CFR 146.41).

Public comment is invited from interested parties. Submissions shall be addressed to the Board's Executive Secretary and sent to: [ftz@trade.gov](mailto:ftz@trade.gov). The closing period for their receipt is March 30, 2026.

A copy of the notification will be available for public inspection in the "Online FTZ Information System" section of the Board's website.

For further information, contact John Frye at [John.Frye@trade.gov](mailto:John.Frye@trade.gov).

Dated: February 11, 2026.

**Elizabeth Whiteman,**  
*Executive Secretary.*

**BILLING CODE 3510-DS-P**

**DEPARTMENT OF COMMERCE****International Trade Administration****[A-570-194]****Active Anode Material From the People's Republic of China: Final Affirmative Determination of Sales at Less Than Fair Value**

**AGENCY:** Enforcement and Compliance, International Trade Administration, Department of Commerce.

**SUMMARY:** The U.S. Department of Commerce (Commerce) determines that active anode material from the People's Republic of China (China) is being, or likely to be, sold in the United States at less than fair value (LTFV). The period of investigation (POI) is April 1, 2024, through September 30, 2024.

**DATES:** Applicable February 17, 2026.

**FOR FURTHER INFORMATION CONTACT:** Hermes Pinilla or Jacob Keller, AD/CVD Operations, Office I, U.S. Department of Commerce, 1401 Constitution Avenue NW, Washington, DC 20230; telephone: (202) 482-3477 and (202) 482-4849, respectively.

**SUPPLEMENTARY INFORMATION:****Background**

On July 22, 2025, Commerce published the *Preliminary Determination* in the **Federal Register**, in which we also postponed the final determination until December 4, 2025.<sup>1</sup>

<sup>1</sup> See *Active Anode Material from the People's Republic of China: Preliminary Affirmative Determination of Sales at Less Than Fair Value, Postponement of Final Determination and Extension of Provisional Measures from the People's Republic of China*, 90 FR 34423 (July 22, 2025) (*Preliminary Determination*), and accompanying Preliminary Decision Memorandum (PDM).

We invited interested parties to comment on the *Preliminary Determination*.

Due to the lapse in appropriations and Federal Government shutdown, on November 14, 2025, Commerce tolled all deadlines in administrative proceedings by 47 days.<sup>2</sup> Additionally, due to a backlog of documents that were electronically filed via Enforcement and Compliance's Antidumping and Countervailing Duty Centralized Electronic Service System (ACCESS) during the Federal Government shutdown, on November 24, 2025, Commerce tolled all deadlines in administrative proceedings by an additional 21 days.<sup>3</sup> Accordingly, the deadline for this final determination is now February 10, 2025.

A summary of the events that occurred since the *Preliminary Determination*, as well as a full discussion of the issues raised by parties for this final determination, may be found in the Issues and Decision Memorandum.<sup>4</sup> The Issues and Decision Memorandum is a public document and is on file electronically via ACCESS. ACCESS is available to registered users at <https://access.trade.gov>. In addition, a complete version of the Issues and Decision Memorandum can be accessed directly at <https://access.trade.gov/public/FRNoticesListLayout.aspx>.

### Scope of the Investigation

The product covered by this investigation is active anode material from China. For a complete description of the scope of this investigation, see Appendix I.

### Scope Comments

In the Preliminary Scope Memorandum, we set aside a period of time for parties to raise issues regarding product coverage (*i.e.*, scope) in scope-specific case briefs or other written comments.<sup>5</sup> We received scope case and

rebuttal briefs from multiple interested parties. For a summary of the product coverage comments and rebuttal responses submitted to the record for this final determination, and accompanying discussion and analysis of all comments timely received, see the Final Scope Memorandum.<sup>6</sup> In the Final Scope Memorandum, Commerce determined that it is modifying the scope language as it appeared in the *Initiation Notice*.<sup>7</sup> See Appendix I.

### Verification

Because the mandatory respondents in this investigation are not eligible for a separate rate, Commerce did not conduct verification.

### Analysis of Comments Received

The issues raised in the case and rebuttal briefs submitted by interested parties in this investigation are addressed in the Issues and Decision Memorandum. A list of the issues addressed in the Issues and Decision Memorandum is attached to this notice as Appendix II.

### Changes Since the Preliminary Determination

Based on a review of the record and comments received from interested parties regarding the *Preliminary Determination*, Commerce made changes to its preliminary separate rate determination with respect to multiple companies. Because we have excluded certain products containing active anode material from the scope of these investigations, certain companies are not eligible for a separate rate because they did not make any shipments of subject merchandise during the POI.<sup>8</sup>

### China-Wide Entity and Use of Adverse Facts Available

Consistent with the *Preliminary Determination*,<sup>9</sup> Commerce continues to

Material from the People's Republic of China: Preliminary Scope Determination," dated July 16, 2025 (Preliminary Scope Memorandum).

<sup>6</sup> See Memorandum, "Less-Than-Fair Value and Countervailing Duty Investigations of Active Anode Material from the People's Republic of China: Final Scope Issues and Decision Memorandum," dated concurrently with and hereby adopted by this notice (Final Scope Memorandum).

<sup>7</sup> See *Active Anode Material from the People's Republic of China: Initiation of Less-Than-Fair Value Investigation*, 90 FR 3792 (January 15, 2025) (*Initiation Notice*).

<sup>8</sup> See Issues and Decision Memorandum at 4–5.

<sup>9</sup> See *Preliminary Determination* PDM at 14–17.

find that, pursuant to sections 776(a) and (b) of the Tariff Act of 1930, as amended (the Act), the use of facts otherwise available, with adverse inferences, is warranted in determining the dumping rate for the China-wide entity.<sup>10</sup> For this final determination, there is no new information on the record that would cause us to reconsider our preliminary decision.<sup>11</sup> Therefore, as facts available with adverse inference, we assigned the final rate of 102.72 percent, which is the highest calculated Petition margin to the China-wide entity.<sup>12</sup>

### Separate Rate Eligibility

We received comments on our preliminary separate rate determination.<sup>13</sup> Based on our analysis of the comments received, we updated our preliminary determination with respect to separate rate eligibility. As noted above, because we excluded certain products containing active anode material from the scope of these investigations, we determined that certain companies are not eligible for a separate rate because they did not make any shipments of subject merchandise during the POI.<sup>14</sup>

### Combination Rates

Consistent with the *Preliminary Determination* and Policy Bulletin 05.1,<sup>15</sup> Commerce assigned a producer/exporter combination rate for the companies eligible for separate rates.<sup>16</sup>

### Final Determination

Commerce determines that the following estimated weighted-average dumping margins exist for the period, April 1, 2024, through September 30, 2024:

<sup>10</sup> See sections 776(a)(1) and (2)(A)–(C) and (b) of the Act.

<sup>11</sup> See Issues and Decision Memorandum at Comment 17.

<sup>12</sup> See *Preliminary Determination* PDM at 13–17.

<sup>13</sup> See Issues and Decision Memorandum at 1–2; see also *Preliminary Determination* PDM at 6–9.

<sup>14</sup> *Id.* at 4–5.

<sup>15</sup> See Enforcement and Compliance's Policy Bulletin No. 05.1, regarding, "Separate-Rates Practice and Application of Combination Rates in Antidumping Investigations Involving Non-Market Economy Countries," (April 5, 2005) (Policy Bulletin 05.1), available on Commerce's website at <https://access.trade.gov/Resources/policy/bull05-1.pdf>.

<sup>16</sup> See *Preliminary Determination*, 90 FR at 34424.

<sup>2</sup> See Memorandum, "Deadlines Affected by the Shutdown of the Federal Government," dated November 14, 2025.

<sup>3</sup> See Memorandum, "Tolling of all Case Deadlines," dated November 24, 2025.

<sup>4</sup> See Memorandum, "Issues and Decision Memorandum for the Final Affirmative Determination in the Less-Than-Fair-Value Investigation of Active Anode Material from the People's Republic of China," dated concurrently with, and hereby adopted by, this notice (Issues and Decision Memorandum).

<sup>5</sup> See Memorandum, "Less-Than-Fair Value and Countervailing Duty Investigations of Active Anode

\* This rate is based on facts available with adverse inferences.

### Disclosure

Because we have not modified our calculation of the margins in the *Preliminary Determination*, we are adopting the *Preliminary Determination* as the final determination. Consequently, there are no new calculations to disclose in accordance with 19 CFR 351.224(b) for the final determination of this investigation.

### Suspension of Liquidation

In accordance with section 733(d)(1)(B) of the Act, we instructed U.S. Customs and Border Protection (CBP) to suspend liquidation of all entries of subject merchandise, as described in Appendix I of the *Initiation Notice*, which were entered, or withdrawn from warehouse, for consumption on or after July 22, 2025, the date of publication of the *Preliminary Determination* in the **Federal Register**. In accordance with section 733(d) of the Act, we instructed CBP to discontinue the suspension of liquidation of all entries of subject merchandise entered or withdrawn from warehouse, on or after January 18, 2026.

If the U.S. International Trade Commission (ITC) issues a final affirmative injury determination, we will issue an antidumping duty (AD) order, reinstate the suspension of liquidation under section 736(a) of the Act, and require a cash deposit of estimated antidumping duties for such entries of subject merchandise in the amounts indicated above, in accordance with section 736(a) of the Act. However, we will discontinue suspension of liquidation for any merchandise that was previously suspended based on the description of subject merchandise in the *Initiation Notice* that is no longer covered by the scope language in

Appendix I of this notice, and instruct CBP to refund cash deposits, as appropriate. If the ITC determines that material injury, or threat of material injury, does not exist, then this proceeding will be terminated, the suspension of liquidation will be lifted, and all cash deposits for estimated antidumping duties will be refunded.

Pursuant to section 735(c)(1)(B)(ii) of the Act and 19 CFR 351.210(d), we will instruct CBP to require a cash deposit for such entries of merchandise equal to the amount by which normal value exceeds the U.S. price as follows: (1) the cash deposit rate for the exporter/producer combination listed in the table above will be the rate identified in the table, adjusted for subsidy offsets, if appropriate; (2) for all combinations of Chinese producers/exporters of subject merchandise that have not established eligibility for their own separate rates, the cash deposit rate will be the rate established for the China-wide entity, adjusted for subsidy offsets if appropriate; and (3) for all third country exporters of subject merchandise, the cash deposit rate will be the cash deposit rate applicable to the Chinese producer/exporter that supplied that third country exporter.

To determine the cash deposit rate, Commerce normally adjusts the estimated weighted-average dumping margin by the amount of domestic pass-through and export subsidies countervailed in a companion countervailing duty (CVD) proceeding, when CVD provisional measures are in effect. Accordingly, where Commerce has made a final affirmative determination for domestic pass-through or export subsidies, Commerce offsets the estimated weighted-average dumping margin by the appropriate

CVD rate. Commerce has continued to adjust the cash deposit rate for export subsidies found in the companion CVD investigation by the appropriate export subsidy rate, however, the suspension of liquidation of provisional measures in the companion CVD case has been discontinued.<sup>17</sup> Therefore, we are not instructing CBP to collect cash deposits based on the adjusted estimated weighted-average dumping margin for export subsidies at this time.<sup>18</sup> If the ITC makes a final affirmative determination of injury due to both dumping and subsidies, then the cash deposit rate will be revised effective on the date of publication of the ITC's final affirmative determination in the **Federal Register** to be the company-specific estimated weighted-average dumping margin adjusted for export subsidies.

### ITC Notification

In accordance with section 735(d) of the Act, Commerce will notify the ITC of its final affirmative determination of sales at LTFV. Because Commerce's final determination is affirmative, in accordance with section 735(b)(2) of the Act, the ITC will make its final determination as to whether the domestic industry in the United States is materially injured, or threatened with

<sup>17</sup> See section 703(d) of the Act, which states that the provisional measures may not be in effect for more than four months, which in the companion CVD case is 120 days after the publication of the preliminary determination, or September 25, 2025 (*i.e.* the last day provisional measures are in effect).

<sup>18</sup> See *Active Anode Material from the People's Republic of China: Preliminary Affirmative Countervailing Duty Determination and Alignment of Final Determination with Final Antidumping Duty Determination*, 90 FR 22465 (May 28, 2025); see also section 703(d) of the Act, which states that the provisional measures may not be in effect for more than four months, which in the companion CVD case is 120 days after the publication of the preliminary determination, or September 25, 2025.

material injury, by reason of imports, or sales (or the likelihood of sales) for importation, of active anode material no later than 45 days after this final determination. If the ITC determines that material injury or threat of material injury does not exist, this proceeding will be terminated, all cash deposits will be refunded or canceled, and suspension of liquidation will be lifted. If the ITC determines that such injury does exist, Commerce will issue an antidumping duty order directing CBP to assess, upon further instructions by Commerce, antidumping duties on all imports of the subject merchandise that are entered, or withdrawn from warehouse, for consumption on or after the effective date of the suspension of liquidation, as discussed above in the "Suspension of Liquidation" section.

#### Administrative Protective Order (APO)

This notice serves as the only reminder to parties subject to an APO of their responsibility concerning the disposition of proprietary information disclosed under APO in accordance with 19 CFR 351.305(a)(3). Timely written notification of the return or destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and terms of an APO is a sanctionable violation.

#### Notification to Interested Parties

This determination is issued and published in accordance with sections 735(d) and 777(i) of the Act, and 19 CFR 351.210(c).

Dated: February 10, 2026.

**Christopher Abbott,**

*Deputy Assistant Secretary for Policy and Negotiations, performing the non-exclusive functions and duties of the Assistant Secretary for Enforcement and Compliance.*

#### Appendix I

##### Scope of the Investigation

The merchandise covered by this investigation is active anode material, which is an anode grade graphite material with a graphite minimum purity content of 90 percent carbon by weight, whether containing synthetic graphite, natural graphite, or a blend of synthetic and natural graphite; with or without coating. Subject merchandise may be in the form of powder, dry, liquid, or block form and is covered irrespective of the form in which it enters. Subject merchandise typically has a maximum size of 80 microns when in powder form. Subject merchandise has an energy density of 330 milliamp hours per gram or greater and a degree of graphitization of 80 percent or greater, where graphitization refers to the extent of the graphite crystal structure.

Subject merchandise is covered regardless of whether it is mixed with silicon based

active materials, e.g., silicon-oxide (SiO<sub>x</sub>), silicon-carbon (SiC), or silicon, or additives such as carbon black or carbon nanotubes. Subject merchandise is covered regardless of the combination of compounds that comprise the graphite material. Subject merchandise is covered regardless of whether it is imported independently, as part of a compound, or as a component of an anode slurry, or in a subassembly of a battery such as an electrode. Only the anode grade graphite material is covered when entered as part of a mixture with silicon based active materials, as part of a compound, or as a component of an anode slurry, or in a subassembly of a battery such as an electrode.

Subject merchandise does not include active anode material incorporated into imports of lithium-ion battery products (such as cells, modules, and packs), electric vehicles, hybrid vehicles, cell phones or battery energy storage systems.

Active anode material subject to this investigation may be classified under the Harmonized Tariff Schedule of the United States (HTSUS) subheadings 2504.10.5000, 3801.10.5010, and 3801.10.5090. Subject merchandise may also enter under HTSUS subheadings 2504.10.1000 and 3801.90.00. The HTSUS subheadings are provided for convenience and customs purposes only. The written description of the scope of this investigation is dispositive.

#### Appendix II

##### List of Topics Discussed in the Issues and Decision Memorandum

- I. Summary
- II. Background
- III. Scope of the Investigation
- IV. Changes Since the *Preliminary Determination*
- V. Discussion of the Issues
  - Comment 1: CATL's Separate Rate Status
  - Comment 2: Whether to Verify CATL
  - Comment 3: CATL and the China-Wide Entity Rate
  - Comment 4: Whether the Calculated Separate Rate is Reasonable
  - Comment 5: Surrogate Country Selection
  - Comment 6: Whether CATL's Information is Adequate to Calculate a Margin
  - Comment 7: BTR's Separate Rate Status
  - Comment 8: BYD's Separate Rate Status
  - Comment 9: Whether BYD Made Shipments of Subject Merchandise
  - Comment 10: EVE Group's Separate Rate Status
  - Comment 11: Gotion's Separate Rate Status
  - Comment 12: Whether Gotion Made Shipments of Subject Merchandise
  - Comment 13: Hithium's Separate Rate Status
  - Comment 14: Sungrow's Separate Rate Status
  - Comment 15: Whether Sungrow Made Shipments of Subject Merchandise
  - Comment 16: Whether to Accept Subaru Inc.'s (Subaru) Submissions
  - Comment 17: Which Consumption Rate to Use Concerning a Certain Input
  - Comment 18: Whether to Correct Certain Errors in the Preliminary Margin Calculations
