

program for the FCC's Lifeline program is 47 U.S.C. 254(a)–(c), (j).

**Purpose(s):** The purpose of this new matching agreement is to verify the eligibility of applicants and subscribers to Lifeline, as well as to ACP and other Federal programs that use qualification for Lifeline as an eligibility criterion. This new agreement will permit eligibility verification for the Lifeline program and ACP by checking an applicant's/subscriber's participation in SNAP and Medicaid in Pennsylvania Department of Human Services. Under FCC rules, consumers receiving these benefits qualify for Lifeline discounts and also for ACP benefits.

**Categories of Individuals:** The categories of individuals whose information is involved in the matching program include, but are not limited to, those individuals who have applied for Lifeline and/or ACP benefits; are currently receiving Lifeline and/or ACP benefits; are individuals who enable another individual in their household to qualify for Lifeline and/or ACP benefits; are minors whose status qualifies a parent or guardian for Lifeline and/or ACP benefits; or are individuals who have received Lifeline and/or ACP benefits.

**Categories of Records:** The categories of records involved in the matching program include the last four digits of the applicant's Social Security Number, date of birth, first and last name. The National Verifier will transfer these data elements to the Pennsylvania Department of Human Services which will respond either "yes" or "no" that the individual is enrolled in a qualifying assistance program: SNAP and Medicaid administered by the Pennsylvania Department of Human Services.

**System(s) of Records:** The records shared as part of this matching program reside in the Lifeline system of records,

FCC/WCB–1, Lifeline, which was published in the **Federal Register** at 89 FR 28777 (Apr. 19, 2024).

The records shared as part of this matching program reside in the ACP system of records, FCC/WCB–3, Affordable Connectivity Program, which was published in the **Federal Register** at 89 FR 28780 (Apr. 19, 2024).

*General Description of Collection:* The Board of Governors of the Federal Reserve System (the Board) promulgated Regulation C, 12 CFR part 203, to implement the Home Mortgage Disclosure Act (HMDA), 12 U.S.C. 2801–2810. Regulation C requires depository institutions that meet its asset-size threshold to maintain data about home loan applications (the type of loan requested, the purpose of the loan, whether the loan was approved,

and the type of purchaser if the loan was later sold), to update the information quarterly, and to report the information annually. Pursuant to Regulation C, insured state-nonmember banks supervised by the FDIC with assets over a certain dollar threshold must collect, record, and report data about home loan applications. The total estimated annual burden for this information collection is 329,347 hours. This represents a 44 percent decrease

from the 2022 information collection. The decrease is driven by a reduction in the estimated number of responses per respondent.

2. *Title:* Management Official Interlocks.

*OMB Number:* 3064–0118.

*Form Number:* N/A.

*Affected Public:* Insured state nonmember banks and state savings associations.

*Burden Estimate:*

## SUMMARY OF ESTIMATED ANNUAL BURDEN (OMB NO. 3064–0118)

Source: FDIC.

*General Description of Collection:* The FDIC's Management Official Interlocks regulation, 12 CFR 348, which implements the Depository Institutions Management Interlocks Act (DIMIA), 12 U.S.C. 3201–3208, generally prohibits bank management officials from serving simultaneously with two unaffiliated depository institutions or their holding companies but allows the FDIC to grant exemptions in appropriate

circumstances. Consistent with DIMIA, the FDIC's Management Official Interlocks regulation has an application requirement requiring information specified in the FDIC's procedural regulation. The rule also contains a notification requirement. There is no change in the method or substance of the collection. The increase of 38 hours from 7 in 2023 to the current estimate of 45 hours is due to an increase in

respondents and revised estimates of time per response for applications and recordkeeping.

3. *Title:* Funding and Liquidity Risk Management.

*OMB Number:* 3064–0174.

*Form Number:* N/A.

*Affected Public:* Businesses or other for-profits.

*Burden Estimate:*

## SUMMARY OF ESTIMATED ANNUAL BURDEN (OMB NO. 3064–0174)

Source: FDIC.

*General Description of Collection:* The information collection includes reporting and recordkeeping burdens related to sound risk management principles applicable to insured depository institutions. To enable an

institution and its supervisor to evaluate the liquidity risk exposure of an institution's individual business lines and for the institution as a whole, the Interagency Policy Statement on Funding and Liquidity Risk

Management (Interagency Statement) summarizes principles of sound liquidity risk management and advocates the establishment of policies and procedures that consider liquidity costs, benefits, and risks in strategic

planning. In addition, the Interagency Statement encourages the use of liquidity risk reports that provide detailed and aggregate information on items such as cash flow gaps, cash flow projections, assumptions used in cash flow projections, asset and funding concentrations, funding availability, and early warning or risk indicators. This is intended to enable management to

assess an institution's sensitivity to changes in market conditions, the institution's financial performance, and other important risk factors. There is no change in the substance of this collection. The estimated annual burden for this ICR is 344,621 hours per year. This estimate represents a 32 percent decrease from the 2023 ICR estimate of 503,881 hours per year. The decrease is

driven by the change in methodology for estimating the burden for each response.

#### SUMMARY OF ESTIMATED ANNUAL BURDEN (OMB No. 3064–0188)

**General Description of Collection:** Section 1471 of the Dodd-Frank Act established a new Truth in Lending (TILA) section 129H, which contains appraisal requirements applicable to higher-risk mortgages and prohibits a creditor from extending credit in the form of a higher-risk mortgage loan to any consumer without meeting those requirements. A higher-risk mortgage is defined as a residential mortgage loan secured by a principal dwelling with an annual percentage rate (APR) that exceeds the average prime offer rate (APOR) for a comparable transaction as of the date the interest rate is set by certain enumerated percentage point spreads. The rule requires that, within three days of application, a creditor provide a disclosure that informs consumers regarding the purpose of the appraisal, that the creditor will provide

the consumer a copy of any appraisal, and that the consumer may choose to have a separate appraisal conducted at the expense of the consumer. If a loan meets the definition of a higher-risk mortgage loan, then the creditor would be required to obtain a written appraisal prepared by a certified or licensed appraiser who conducts a physical visit of the interior of the property that will secure the transaction and send a copy of the written appraisal to the consumer. To qualify for the safe harbor provided under the rule, a creditor is required to review the written appraisal as specified in the text of the rule and appendix A. If a loan is classified as a higher-risk mortgage loan that will finance the acquisition of the property to be mortgaged, and the property was acquired within the previous 180 days by the seller at a price that was lower

than the current sale price, then the creditor is required to obtain an additional appraisal. A creditor is required to provide the consumer a copy of the appraisal reports performed in connection with the loan, without charge, at least days prior to consummation of the loan. There is no change in the method or substance of the collection. The decrease of 1,750 hours from 7,412 in 2022 to the current estimate of 5,662 hours is due to a decrease in respondents and number of responses per respondent.

RtoB—Required to Receive Benefits.

Line 3 of the table FDIC expects no entities to file but has kept that line item with 0 burden in case needed for future IC renewal cycle.

*General Description of Collection:*  
When a bank fails, the FDIC must provide depositors insured funds “as soon as possible” after failure while also resolving the failed bank in the least costly manner. The 12 CFR part 370 facilitates prompt payment of FDIC insured deposits when large insured depository institutions fail. The rule requires insured depository institutions that have two million or more deposit accounts (covered institutions), to maintain complete and accurate data on each depositor’s ownership interest by right and capacity for all of the covered institution’s deposit accounts. The covered institutions are required to develop the capability to calculate the insured and uninsured amounts for each deposit owner, by ownership right and capacity, for all deposit accounts. This data would be used by the FDIC to make timely deposit insurance determinations in the event of a covered insured depository institution’s failure. There is no change in the method or substance of the collection. The decrease of 42,483 hours from 52,652 hours in 2023 to the current estimate of 10,169 hours is due the elimination of the implementation burden for the Highest Complexity covered insured depository institutions (IDIs) and the reduction in the times per response.
