

patent practitioners across the United States for assistance in preparing and arguing *ex parte* appeals before the PTAB. The PTAB Bar Association's national clearinghouse provides nationwide access to legal representation for *pro bono ex parte* appeal services. The PTAB Pro Bono Program supports the purposes described above by facilitating the availability of *pro bono* services for proceedings before the PTAB, which the USPTO believes can help reduce the financial burden on under-resourced inventors seeking *ex parte* appeal assistance.

This information collection covers the surveys used in the Patent and PTAB Pro Bono Programs. The surveys gather information about the effectiveness of the programs and how participants utilize the programs' resources. The information, at its highest level, allows the USPTO to determine whether the regional hubs and national clearinghouse are matching qualified under-resourced inventors with volunteer patent practitioners and help estimate the total economic benefit derived by under-resourced inventors in the form of donated legal services. This information also helps the USPTO determine if the regional hubs and clearinghouse are effectively serving under-resourced inventors and whether they need additional support.
