DOJ seeks PRA authorization for this information collection for three (3) years. OMB authorization for an ICR cannot be for more than three (3) years without renewal. The DOJ notes that information collection requirements submitted to OMB for existing ICRs receive a month-to-month extension while they undergo review.

Abstract: Under the Uniform Federal Crime Reporting Act of 1988, 34 U.S.C. 41303; the DOJ's authority regarding the acquisition, preservation, and exchange of identification records and information, 28 U.S.C. 534; the USA Patriot Improvement and Reauthorization Act of 2005, Public Law 109–177, 120 Stat. 193; the William Wilberforce Trafficking Victims Protection Reauthorization Act of 2008, 34 U.S.C. 41309; and the Hate Crimes Statistics Act, 34 U.S.C. 41305, this collection requests incident data from federal, state, local, tribal, and territorial LEAs in order for the FBI's Uniform Crime Reporting (UCR) Program to serve as the national clearinghouse for the collection and dissemination of incident data. The traditional Summary Reporting System (SRS), managed by the FBI's UCR Program since the 1930s, includes 10 crimes and employs the Hierarchy Rule (*i.e.*, in a multiple-offense incident, only the most serious crime is reported). In contrast, NIBRS includes 28 offense categories made up of 71 specific crimes (*i.e.*, Group A offenses) and allows LEAs to report up to 10 of those offenses associated with an incident. For each of these offenses, LEAs collect administrative, offense, property, victim, offender, and arrestee information. Arrest data only are reported for an additional 10 Group B offenses. The level of detail is the most significant difference between NIBRS and SRS and the NIBRS data submitted to the FBI's UCR Program are generated as a byproduct of a LEA's records management system.

Notice of Lodging of Proposed Consent Decree Under the Clean Air Act

On February 13, 2026, the Department of Justice lodged a proposed Consent Decree with the United States District Court for the Northern District of West Virginia in the lawsuit entitled *United States and the West Virginia Department of Environmental Protection v. Antero Resources Corporation*, Civil Action No. 26–cv–00010 (N.D. W. Va.).

The lawsuit seeks injunctive relief and civil penalties for violations of the Clean Air Act and its implementing regulations at oil and natural gas production facilities owned and operated by Antero Resources Corporation (“Antero”) in West Virginia and Ohio. The violations relate to alleged failures to adequately design, operate, and maintain storage tank vapor control systems, resulting in emissions of volatile organic compounds (“VOC”) and other pollutants to the atmosphere. The proposed consent decree requires Antero to perform injunctive relief to address these violations and complete mitigation projects to reduce VOC emissions. Antero must also pay a \$3,800,000 civil penalty. Entering into and fully complying with the proposed consent decree would release Antero from past civil liability for violations of Clean Air Act regulations applicable to new and modified storage vessels and related state law at the facilities subject to the proposed consent decree.

The publication of this notice opens a period for public comment on the proposed Consent Decree. Comments should be addressed to the Assistant Attorney General, Environment and Natural Resources Division, and should refer to *United States and the West Virginia Department of Environmental Protection v. Antero Resources Corporation*, D.J. Ref. No. 90–5–2–1–12292. All comments must be submitted no later than thirty (30) days after the publication date of this notice. Comments may be submitted either by email or by mail:
