BILLING CODE 8011-01-P

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-104845; File No. SR-CboeBZX-2026-014]

Self-Regulatory Organizations; Cboe BZX Exchange, Inc.; Notice of Filing and Immediate Effectiveness of a Proposed Rule Change To Amend Its Fee Schedule

February 13, 2026.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 ("Act"),¹ and Rule 19b-4 thereunder,² notice is hereby given that on February 9, 2026, Cboe BZX Exchange, Inc. ("Exchange" or "BZX") filed with the Securities and Exchange Commission ("Commission") the proposed rule change as described in Items I, II, and III below, which Items have been prepared by the Exchange. The Commission is publishing this notice to

solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

Cboe BZX Exchange, Inc. (the "Exchange" or "BZX") proposes to amend its Fee Schedule to introduce a new fee code and add language to bring the Fee Schedule into compliance with Regulation NMS Rule 610(d), which becomes effective on February 2, 2026. The Exchange also proposes to remove obsolete definitions from the Fee Schedule. The text of the proposed rule change is provided in Exhibit 5.

The text of the proposed rule change is also available on the Commission's website (<https://www.sec.gov/rules/sro.shtml>), the Exchange's website (https://www.cboe.com/us/equities/regulation/rule_filings/bzx/), and at the principal office of the Exchange.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The Exchange proposes to amend its Fee Schedule applicable to its equities trading platform ("BZX Equities") to introduce a new fee code and add language to bring the Fee Schedule into compliance with Regulation NMS Rule 610(d), which becomes effective on February 2, 2026. The Exchange also proposes to remove obsolete definitions from the Fee Schedule. The Exchange proposes to implement these changes effective February 2, 2026.³

On September 18, 2024, the Commission adopted several amendments to Regulation NMS in order to increase the transparency of

exchange fees and rebates.⁴ As part of these amendments, the Commission adopted Regulation NMS Rule 610(d), which provides that "[a] national securities exchange shall not impose, nor permit to be imposed, any fee or fees, or provide, or permit to be provided, and rebate or other remuneration, for the execution of an order in an NMS stock that cannot be determined at the time of execution."⁵ On October 31, 2025, the Commission granted temporary exemptive relief from compliance with Regulation NMS Rule 610(d).⁶ The compliance date for Regulation NMS Rule 610(d) is the first business day of February 2026, which is Monday, February 2, 2026.

Currently, the Exchange establishes certain transaction fees and rebates for equities executions that are based on tiers calculated using volume figures from trading or quoting activity in the current month. This means that the fees and rebates at the Exchange associated with a given equities execution often cannot be determined at the time of execution, but only retroactively at the end of the month in which an execution occurred. In order to ensure that its transaction fees and rebates for equities executions are consistent with Regulation NMS Rule 610(d), the Exchange proposes to add the following language to the "General Notes" section of its Fee Schedule:

- In compliance with Regulation NMS Rule 610(d), effective February 2, 2026, unless otherwise indicated, all volume figures will be derived from quoting or trading activity in the prior month. Consequently, all new Members will receive the base rates in their first month of trading.

This change will ensure that all Exchange participants will be able to ascertain at the time of execution all the transaction fees and rebates associated with the execution of an order of an NMS stock at the Exchange.

Additionally, the Exchange proposes to amend certain definitions found in the Fee Schedule to provide additional clarity to Members regarding certain volume calculations. Specifically, the Exchange proposes to revise the definitions of the terms "OCC Customer

³ The Exchange initially submitted the proposed rule change on January 28, 2026 (SR-CboeBZX-2026-009). On February 9, 2026, the Exchange withdrew that filing and submitted this proposal.

Volume,”⁷ “Step-Up ADAV,”⁸ “Step-Up ADV,”⁹ “Step-Up Add TCV,”¹⁰ “Step-Up Remove TCV,”¹¹ and “Tape B Step-Up Add TCV”¹² to remove a reference to the word “current” and replace this word with the term “the prior month’s.” This change is necessary to ensure that certain definitions that currently exist on the Exchange’s Fee Schedule are also consistent with Regulation NMS Rule 610(d).

In addition, the Exchange proposes to remove obsolete definitions from the Fee Schedule. Specifically, the Exchange proposes to remove the definitions of “Options Add OCV,”¹³ “Options Customer Add OCV,”¹⁴ “Options Customer Remove OCV,”¹⁵ “Options Market Maker Add OCV,”¹⁶ and “Options Step-Up Add OCV”¹⁷ from the Fee Schedule as these terms

⁷ “OCC Customer Volume” or “OCV” for purposes of equities pricing means the total equity and ETF options volume that clear in the Customer range at the Options Clearing Corporation (“OCC”) for the month for which the fees apply, excluding volume on any day that the Exchange experiences an Exchange System Disruption and on any day with a scheduled early market close, using the definition of Customer as provided under the Exchange’s fee schedule for BZX Options.

⁸ “Step-Up ADAV” means ADAV in the relevant baseline month subtracted from current ADAV.

⁹ “Step-Up ADV” means ADV in the relevant baseline month subtracted from current day ADV.

¹⁰ “Step-Up Add TCV” means ADAV as a percentage of TCV in the relevant baseline month subtracted from current ADAV as a percentage of TCV.

¹¹ “Step-Up Remove TCV” means ADV resulting from orders that remove liquidity as a percentage of TCV in the relevant baseline month subtracted from current ADV resulting from orders that remove liquidity as a percentage of TCV.

¹² “Tape B Step-Up Add TCV” means ADAV in Tape B securities as a percentage of TCV in the relevant baseline month subtracted from current ADAV in Tape B securities as a percentage of TCV.

¹³ “Options Add OCV” for purposes of equities pricing means ADAV as a percentage of OCV, using the definitions of ADAV and OCV as provided under the Exchange fee schedule for BZX Options.

¹⁴ “Options Customer Add OCV” for purposes of equities pricing means ADAV resulting from Customer orders as a percentage of OCV, using the definitions of ADAV, Customer and OCV as provided under the Exchange fee schedule for BZX Options.

¹⁵ “Options Customer Remove OCV” for purposes of equities pricing means ADAV resulting from Customer orders that remove liquidity as a percentage of OCV, using the definitions of ADAV, Customer and OCV as provided under the Exchange fee schedule for BZX Options.

¹⁶ “Options Market Maker Add OCV” for purposes of equities pricing means ADAV resulting from Market Maker orders as a percentage of OCV, using the definitions of ADAV, Market Maker and OCV as provided under the Exchange fee schedule for BZX Options.

¹⁷ “Options Step-Up Add OCV” for purposes of equities pricing means ADAV as a percentage of OCV in January 2014 subtracted from current ADAV as a percentage of OCV, using the definitions of ADAV and OCV as provided under the Exchange fee schedule for BZX Options.

are no longer being utilized by tiers currently offered by the Exchange.

Fee Codes

Currently, the Exchange appends fee codes AC,¹⁸ AL,¹⁹ and AN²⁰ to LMM orders in LMM Securities,²¹ and denotes under footnote 14, subparagraph (D) of the Fee Schedule that:

- “LMMs in BZX-listed securities will transact for free in the Closing Auction in their LMM Securities, including continuous book orders executed during the Closing Auction[.];” and
- “LMMs in BZX-listed securities will transact for free in continuous book orders executing during the Opening Auction in their LMM Securities.”

In order to simplify billing processes associated with the requirement to comply with Regulation NMS Rule 610(d) on February 2, 2026, the Exchange proposes to introduce fee code AM, which would be appended to an LMM’s order in an LMM Security that executes during the Closing Auction or an LMM’s continuous book order in an LMM Security that executes during the Opening Auction. Orders appended with proposed fee code AM would transact for free on the Exchange and as such, an LMM would not receive an enhanced rebate or be assessed a fee for its orders appended with proposed fee code AM. The introduction of proposed fee code AM would not change the current fee assessed or current rebate provided to an LMM for its orders in LMM Securities that execute in the Closing or Opening Auctions, but rather simplifies back-end billing processes for the Exchange so that an LMM is billed appropriately at the time of execution.

In addition to introducing new fee code AM, the Exchange proposes to amend footnote 14, subparagraph (D) to remove the references to fee codes AC, AL, and AN and instead reference fee code AM. This change is necessary in order to accurately reflect the appropriate fee code applicable to an LMM’s executions in its LMM Securities during the Closing and Opening Auctions.

2. Statutory Basis

The Exchange believes the proposed rule change is consistent with the Act

¹⁸ Fee code AC is appended to orders executed in the Closing Auction in BZX-listed securities.

¹⁹ Fee code AL is appended to late-limit-on-close orders executed in the Closing Auction in BZX-listed securities.

²⁰ Fee code AN is appended to Continuous Book Orders that execute in the Opening or Closing Auction in BZX-listed securities.

²¹ The term “LMM Securities” means a BZX-listed security for which a Member is an LMM.

and the rules and regulations thereunder applicable to the Exchange and, in particular, the requirements of Section 6(b) of the Act.²² Specifically, the Exchange believes the proposed rule change is consistent with the Section 6(b)(5)²³ requirements that the rules of an exchange be designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, to foster cooperation and coordination with persons engaged in regulating, clearing, settling, processing information with respect to, and facilitating transactions in securities, to remove impediments to and perfect the mechanism of a free and open market and a national market system, and, in general, to protect investors and the public interest. Additionally, the Exchange believes the proposed rule change is consistent with the Section 6(b)(5)²⁴ requirement that the rules of an exchange not be designed to permit unfair discrimination between customers, issuers, brokers, or dealers as well as Section 6(b)(4)²⁵ as it is designed to provide for the equitable allocation of reasonable dues, fees and other charges among its Members and other persons using its facilities.

The Exchange believes the addition of the text under the “General Notes” section of the Fee Schedule and the revised text in the definitions section of the Fee Schedule related to terms associated with certain volume calculations provides for the equitable allocation of reasonable dues, fees and other charges among its Members because it allows the Exchange to preserve its current quoting and trading incentives while also complying with Regulation NMS Rule 610(d). Currently, Members are assessed certain transaction fees and paid certain transaction rebates based on tiers calculated using volume figures from trading and quoting activity in the current month. In order to comply with Regulation NMS Rule 610(d), the Exchange is adding language that provides that all transaction fees and transaction rebates shall be calculated using volume figures from trading and quoting activity in the prior month (unless otherwise indicated). As such, all transaction fees and transaction rebates associated with the execution of an order in an NMS stock at the Exchange can be determined at the time of execution of such order. All existing fees and rebates remain otherwise unchanged.

²² 15 U.S.C. 78f(b).

²³ 15 U.S.C. 78f(b)(5).

²⁴ *Id.*

²⁵ 15 U.S.C. 78f(b)(4).

The Exchange believes that its modified Fee Schedule is not unfairly discriminatory because the Exchange will apply its revised transaction fee and transaction rebate calculations equally to all Members, in that all Members will receive transaction fees and transaction rebates based on the previous month's volume and quotation activity. Therefore, all Members will be able to determine relevant transaction fees and transaction rebates at the time of execution of an NMS stock on the Exchange.

Additionally, the Exchange's proposal to remove obsolete definitions from its Fee Schedule promotes just and equitable principles of trade, provides for the equitable allocation of reasonable dues, fees and other charges among its Members, and is not unfairly discriminatory because the changes apply to all Members equally in that the definitions will no longer apply for any Member. Further, removing obsolete language from the Fee Schedule promotes clarity of the Exchange's Fee Schedule by removing definitions that are no longer applicable which promotes just and equitable principles of trade and provides for the equitable allocation of reasonable dues, fees and other charges among its Members.

In addition, the Exchange believes that its proposal to introduce fee code AM is reasonable, equitable, and consistent with the Act because such change is designed to simplify back-end billing processes for the Exchange and does not alter the fee assessed or rebate provided to an LMM for its transactions in LMM Securities that occur during the Closing or Opening Auctions so that the LMM may be billed appropriately in connection with the fee transparency requirements under Regulation NMS Rule 610(d). The Exchange further believes that the proposed introduction of fee code AM is not unfairly discriminatory because it applies to all LMMs equally, in that the proposed fee code will apply to all LMMs and fee code AM will be applied to all orders matching the revised description. Similarly, the Exchange's proposed amendment to footnote 14, subparagraph (D) is reasonable, equitable, and consistent with the Act because the change aligns the footnote with the appropriate fee code, which replaces the existing fee codes referenced in the fee schedule. This proposed change to footnote 14, subparagraph (D) is not unfairly discriminatory because provides clarity to all Users who access the fee schedule, including LMMs.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act. Rather, as discussed above, the Exchange believes that the proposed change would encourage the submission of additional order flow to a public exchange, thereby promoting market depth, execution incentives and enhanced execution opportunities, as well as price discovery and transparency for all Members. As a result, the Exchange believes that the proposed changes further the Commission's goal in adopting Regulation NMS of fostering competition among orders, which promotes "more efficient pricing of individual stocks for all types of orders, large and small."

The Exchange believes the proposed rule changes do not impose any burden on intramarket competition that is not necessary or appropriate in furtherance of the purposes of the Act. Particularly, the Exchange's proposal will apply to all Members equally in that all Members are subject to Regulation NMS Rule 610(d) and will be able to determine their applicable transaction fees and transaction rebates based on tiers by utilizing the previous month's trading and quoting activity.

Further, the Exchange believes the proposed fee code AM does not impose any burden on intramarket competition that is not necessary or appropriate in furtherance of the purposes of the Act. The proposed fee code AM would apply to all LMMs equally in that all LMMs would be subject to the proposed definition and fee code AM will be applied to all orders matching the proposed description.

Next, the Exchange believes the proposed rule changes do not impose any burden on intermarket competition that is not necessary or appropriate in furtherance of the purposes of the Act. The Exchange operates in a highly competitive market. Members have numerous alternative venues that they may participate on and direct their order flow, including other equities exchanges, off-exchange venues, and alternative trading systems. Additionally, the Exchange represents a small percentage of the overall market. Based on publicly available information, no single equities exchange has more than 15% of the market share.²⁶ Therefore, no exchange possesses

significant pricing power in the execution of order flow. Indeed, participants can readily choose to send their orders to other exchange and off-exchange venues if they deem fee levels at those other venues to be more favorable. Moreover, the Commission has repeatedly expressed its preference for competition over regulatory intervention in determining prices, products, and services in the securities markets. Specifically, in Regulation NMS, the Commission highlighted the importance of market forces in determining prices and SRO revenues and, also, recognized that current regulation of the market system "has been remarkably successful in promoting market competition in its broader forms that are most important to investors and listed companies."²⁷ The fact that this market is competitive has also long been recognized by the courts. In *NetCoalition v. Securities and Exchange Commission*, the D.C. Circuit stated as follows: "[n]o one disputes that competition for order flow is 'fierce.' . . . As the SEC explained, '[i]n the U.S. national market system, buyers and sellers of securities, and the broker-dealers that act as their order-routing agents, have a wide range of choices of where to route orders for execution'; [and] 'no exchange can afford to take its market share percentages for granted' because 'no exchange possesses a monopoly, regulatory or otherwise, in the execution of order flow from broker dealers'. . . ."²⁸ Accordingly, the Exchange does not believe its proposed fee change imposes any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

The Exchange neither solicited nor received comments on the proposed rule change.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action
