DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Project No. 6972–035]

Ampersand Hollow Dam Hydro LLC; Notice of Availability of Environmental Assessment

In accordance with the National Environmental Policy Act of 1969 and the Federal Energy Regulatory Commission's (Commission or FERC) regulations, 18 CFR part 380, Commission staff reviewed Ampersand Hollow Dam Hydro LLC's (licensee) application for surrender and decommissioning of the Hollow Dam Hydroelectric Project No. 6972 and have prepared an Environmental Assessment (EA) for the project.¹ As part of surrender of the project, the licensee proposes to remove equipment from the control room, remove the unit from the powerhouse, and deenergize the substation. The dam, fencing, portage, and parking area would be left in place. No ground disturbance is proposed. The project is located on the West Branch of the Oswegatchie River near the Town of Fowler, in St. Lawrence County, New York. The project does not occupy any federal lands.

The EA contains Commission staff's analysis of the potential environmental effects of the proposed surrender, alternatives to the proposed action, and concludes that the proposed action, with staff recommended measures, would not constitute a major federal action that would significantly affect the quality of the human environment.

The EA may be viewed on the Commission's website at <http://www.ferc.gov> using the "eLibrary" link. Enter the docket number (P–6972) in the docket number field to access the document. For assistance, contact FERC Online Support at FERCOnlineSupport@ferc.gov or toll-free at 1–866–208–3676, or for TTY, (202) 502–8659.
