

as an annual true-up, before preparing August Restoration Fund bills. This reconciliation will require WAPA–SN to identify energy amounts exchanged among individual CVP Power Contractors monthly. The applicable billing periods will track exchange energy associated with power deliveries from July to June service months. This information will provide the basis for determining the amount of energy exchanged during the billing year.

WAPA–SN will add an additional charge, or a balloon payment, to the August Restoration Fund bills for each CVP Power Contractor who received exchange energy during the past year that exceeded their contractual Base Resource percentage. Conversely, WAPA–SN will also post an offsetting credit on their August bills for those CVP Power Contractors that provide exchange energy, thus decreasing the amount of contractual Base Resource energy received.

#### **Exclusion of First Preference Contractors From the Power Restoration Payment Obligation**

WAPA–SN reviewed the contributions the Trinity River Division (TRD) and New Melones projects provide, either directly or indirectly, to environmental mitigation in support of CVPIA and/or projects supported by the CVPIA Restoration Fund. The TRD and New Melones projects deliver significant environmental benefits toward the CVPIA Restoration Fund programs.

Since CVPIA was enacted, these facilities have been reoperated, so CVP meets the standards and guidelines set forth by CVPIA. With the reoperation of these facilities and the fact that the First Preference (FP) customers' energy entitlements are based on the generation output of these facilities, their reoperation ultimately affects these customers. These circumstances provide a basis by which to exclude Restoration Fund collections from any FP customers within the affected areas.

#### **Review Process**

WAPA–SN will review the procedures for the assessing and collecting of Restoration Payments from the CVP Power Contractors every five (5) years or if one of the following occurs: (1) if there is a significant change to or suspension of the legislation, (2) if a material issue arises, (3) if an apparent inequity in the procedures is discovered, or (4) if any significant change occurs that affects the procedures.

#### **Comments**

WAPA–SN received no separate oral and/or written comments during the public consultation and comment period.

#### **Availability of Information**

Information used by WAPA–SN to develop the collection procedure are available for inspection and copying at the Sierra Nevada Regional Office, 114 Parkshore Drive, Folsom, California. Many of these documents are also available on WAPA–SN's website at: [www.wapa.gov/about-wapa/regions/sn/sn-rates/restoration-fund/](http://www.wapa.gov/about-wapa/regions/sn/sn-rates/restoration-fund/).
