

This section of the FEDERAL REGISTER contains documents other than rules or proposed rules that are applicable to the public. Notices of hearings and investigations, committee meetings, agency decisions and rulings, delegations of authority, filing of petitions and applications and agency statements of organization and functions are examples of documents appearing in this section.

## DEPARTMENT OF AGRICULTURE

### Animal and Plant Health Inspection Service

[Docket No. APHIS–2026–0036]

#### Notice of Request for Extension of Approval of an Information Collection; Emergency Management Response System

**AGENCY:** Animal and Plant Health Inspection Service, USDA.

**ACTION:** Extension of approval of an information collection; comment request.

**SUMMARY:** In accordance with the Paperwork Reduction Act of 1995, this notice announces the Animal and Plant Health Inspection Service's intention to request an extension of approval of an information collection associated with the Emergency Management Response System.

**DATES:** We will consider all comments that we receive on or before April 21, 2026.

**ADDRESSES:** You may submit comments by either of the following methods:

- *Federal eRulemaking Portal:* Go to [www.regulations.gov](http://www.regulations.gov). Enter APHIS–2026–0036 in the Search field. Select the Documents tab, then select the Comment button in the list of documents.
- *Postal Mail/Commercial Delivery:* Send your comment to Docket No. APHIS–2026–0036, Regulatory Analysis and Development, PPD, APHIS, 5601 Sunnyside Ave., #AP760, Beltsville, MD 20705.

Supporting documents and any comments we receive on this docket may be viewed at [regulations.gov](http://regulations.gov) or in our reading room, which is located in room 1620 of the USDA South Building, 14th Street and Independence Avenue SW, Washington, DC. Normal reading room hours are 8 a.m. to 4:30 p.m., Monday through Friday, except

holidays. To be sure someone is there to help you, please call (202) 799–7039 before coming.

**FOR FURTHER INFORMATION CONTACT:** For information on the Emergency Management Response System (EMRS), contact Dr. Brian Archer, EMRS National Coordinator, National Preparedness and Incident Coordination, Strategy and Policy, VS, APHIS, 2150 Centre Ave., Bldg. B, 2W93, Fort Collins, CO 80526; (620) 755–1724. For more detailed information on the information collection, contact Ms. Sheniqua Harris, APHIS' Paperwork Reduction Act Coordinator, at (301) 851- 2528; [APHIS.PRA@usda.gov](mailto:APHIS.PRA@usda.gov).

#### SUPPLEMENTARY INFORMATION:

*Title:* Emergency Management Response System (EMRS).

*OMB Control Number:* 0579–0071.

*Type of Request:* Extension of approval of an information collection.

*Abstract:* Under the Animal Health Protection Act (7 U.S.C. 8301 *et seq.*), the Animal and Plant Health Inspection Service (APHIS) of the U.S. Department of Agriculture is authorized, among other things, to protect the health of U.S. livestock and poultry populations by preventing the introduction and interstate spread of serious diseases and pests of livestock and by eradicating such diseases from the United States when feasible.

The Emergency Management Response System (EMRS), which is a web-based system, helps APHIS manage and investigate potential incidents of foreign animal diseases in the United States.

When a potential foreign animal disease incident is reported, APHIS or State animal health officials dispatch a foreign animal disease veterinary diagnostician to the premises of the reported incident to conduct an investigation. The diagnostician obtains vital epidemiological data by conducting field investigations, including sample collection, and by interviewing the owner or manager of the premises being investigated. These important data, submitted electronically by the diagnostician into EMRS, include such items as the purpose of the diagnostician's visit and suspected disease, type of operation on the premises, the number and type of animals on the premises, the number of sick or dead animals on the premises,

the results of physical examinations of affected animals and necropsy examinations, vaccination information on the animals in the herd or flock, biosecurity practices at the site, whether any animals were recently moved out of the herd or flock, whether any new animals were recently introduced into the herd or flock, the number and kinds of test samples taken, and detailed geographic data concerning the premises location. EMRS allows these epidemiological and diagnostic data to be documented and transmitted more efficiently.

We are asking the Office of Management and Budget (OMB) to approve our use of these information collection activities, as described, for an additional 3 years.

The purpose of this notice is to solicit comments from the public (as well as affected agencies) concerning our information collection. These comments will help us:

- (1) Evaluate whether the collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;
- (2) Evaluate the accuracy of our estimate of the burden of the collection of information, including the validity of the methodology and assumptions used;
- (3) Enhance the quality, utility, and clarity of the information to be collected; and
- (4) Minimize the burden of the collection of information on those who are to respond, through use, as appropriate, of automated, electronic, mechanical, and other collection technologies; *e.g.*, permitting electronic submission of responses.

*Estimate of burden:* The public burden for this collection of information is estimated to average 1 hour per response.

*Respondents:* Owners or operators of livestock and poultry facilities and State animal health officials.

*Estimated annual number of respondents:* 158.

*Estimated annual number of responses per respondent:* 156.

*Estimated annual number of responses:* 24,703.

*Estimated total annual burden on respondents:* 24,703 hours. (Due to averaging, the total annual burden hours may not equal the product of the annual number of responses multiplied by the reporting burden per response.)

All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Done in Washington, DC, this 12th day of February 2026.

**Kelly Moore,**

*Acting Administrator, Animal and Plant Health Inspection Service.*

### Animal and Plant Health Inspection Service

[Docket No. APHIS-2026-0035]

#### Notice of Request for Revision to and Extension of Approval of an Information Collection; Control of African Swine Fever; Restrictions on the Movement of Swine Products and Swine Byproducts From Puerto Rico and the U.S. Virgin Islands

**AGENCY:** Animal and Plant Health Inspection Service, USDA.

**ACTION:** Revision to and extension of approval of an information collection; comment request.

**SUMMARY:** In accordance with the Paperwork Reduction Act of 1995, this notice announces the Animal and Plant Health Inspection Service's intention to request a revision to and extension of approval of an information collection associated with control of African swine fever and restrictions on the movement of swine products and swine byproducts from Puerto Rico and the U.S. Virgin Islands.

**DATES:** We will consider all comments that we receive on or before April 21, 2026.

**ADDRESSES:** You may submit comments by either of the following methods:

- *Federal eRulemaking Portal:* Go to [www.regulations.gov](http://www.regulations.gov). Enter APHIS-2026-0035 in the Search field. Select the Documents tab, then select the Comment button in the list of documents.
- *Postal Mail/Commercial Delivery:* Send your comment to Docket No. APHIS-2026-0035, Regulatory Analysis and Development, PPD, APHIS, 5601 Sunnyside Ave., #AP760, Beltsville, MD 20705.

Supporting documents and any comments we receive on this docket may be viewed at <http://www.regulations.gov> or in our reading room, which is in room 1620 of the USDA South Building, 14th Street and Independence Avenue SW, Washington,

DC. Normal reading room hours are 8 a.m. to 4:30 p.m., Monday through Friday, except holidays. To be sure someone is there to help you, please call (202) 799-7039 before coming.

**FOR FURTHER INFORMATION CONTACT:** For information on the control of African swine fever and restrictions on the movement of swine products and swine byproducts, contact Dr. Dawn Hunter, Staff Trade Policy Advisor, Strategy and Policy, Veterinary Services, 5601 Sunnyside Ave., Beltsville, MD 20705; (301) 851-3333; [Dawn.K.Hunter@usda.gov](mailto:Dawn.K.Hunter@usda.gov). For information on the information collection process, contact Ms. Sheniqua Harris, APHIS' Paperwork Reduction Act Coordinator, at (301) 851-2528; or email: [APHIS.PRA@usda.gov](mailto:APHIS.PRA@usda.gov).

#### SUPPLEMENTARY INFORMATION:

*Title:* Control of African Swine Fever; Restrictions on the Movement of Swine Products and Swine Byproducts From Puerto Rico and the U.S. Virgin Islands.

*OMB Control Number:* 0579-0480.

*Type of Request:* Revision to and extension of approval of an information collection.

*Abstract:* Under the Animal Health Protection Act (7 U.S.C. 8301 *et seq.*), the Secretary of the U.S. Department of Agriculture (USDA) is authorized to protect the health of the livestock, poultry, and aquaculture populations in the United States by preventing the introduction and interstate spread of serious diseases and pests of livestock, poultry, and aquaculture, and for eradicating such diseases and pests from the United States, when feasible. Within the USDA, this authority and mission is delegated to the Animal and Plant Health Inspection Service (APHIS).

Within APHIS, Veterinary Services (VS) is tasked with, among other things, preventing foreign animal disease outbreaks in the United States, and monitoring, controlling, and eliminating a disease outbreak should one occur. In the past several years, there have been significant worldwide outbreaks of African swine fever (ASF). ASF is a highly contagious and deadly viral disease affecting domestic and feral (wild) pigs. The disease has not been detected in the United States; however, APHIS is committed to working with State and industry partners to keep the disease out of the country.

The Dominican Republic has continued to report a significant outbreak of ASF. While ASF is not known to occur in Puerto Rico or the U.S. Virgin Islands, they are in proximity to the Dominican Republic. Frequent passenger travel and international mail shipments occur

between the Dominican Republic and Puerto Rico and the U.S. Virgin Islands, as well as frequent small-scale commercial agricultural trade. Thus, APHIS identified several pathways for the possible introduction of ASF from the Dominican Republic to Puerto Rico or the U.S. Virgin Islands. Moreover, there are known commercial and feral pig populations in both territories, and there were no restrictions on the interstate movement of live swine, swine germplasm, swine products, and swine byproducts from Puerto Rico or the U.S. Virgin Islands into the continental United States. Accordingly, APHIS suspended interstate movement of live swine, swine germplasm, and processed swine products and byproducts through issuance of a Federal Order (DA-2021-0002)<sup>1</sup> on September 17, 2021. In situations where a disease risk is sufficiently severe and fast-moving so that the regular regulatory process cannot provide adequate relief, APHIS employs Federal Orders to set trade restrictions quickly to control, eradicate, or prevent a disease threat.

Since the issuance of the Federal Order, APHIS has established sufficient mitigations to allow the movement of certain swine products and swine byproducts under specified conditions that mitigate the risk of spreading ASF through interstate commerce. As a result, on December 2, 2021, APHIS issued a Federal Order (DA-2021-0003)<sup>2</sup> to allow interstate movement of certain swine products and byproducts from Puerto Rico and the U.S. Virgin Islands under certain conditions. To certify compliance with this Federal Order and restriction guidelines for the interstate movement of swine products and byproducts from Puerto Rico and the U.S. Virgin Islands, commercial producers must meet the requirements as listed in the Federal Order or complete a VS Form 16-3, an application for a permit to import or transport-controlled material or organisms or vectors.

We are asking the Office of Management and Budget (OMB) to approve our use of these information collection activities, as described, for an additional 3 years. APHIS has amended this information collection by decreasing the number of Respondents reporting showing a decrease in the number of Responses and Total Burden Hours.
