 Families, U.S. Department of Health and  
 Human Services.

**ACTION:** Request for public comments.

**SUMMARY:** The Administration for  
 Children and Families’ (ACF) Office of  
 Refugee Resettlement (ORR) intends to  
 continue collecting demographic,  
 programmatic, and outcome data on  
 Services for Survivors of Torture (SOT)  
 grant recipients and the clients they  
 serve. ORR collects information from  
 the grantee cohort under the Survivors  
 of Torture Program Data Points (PDP)  
 and Program Performance Progress

Report (PPR) (Office of Management and  
 Budget (OMB) #0970-0599; Expiration  
 date: February 28, 2026) to learn more  
 about the populations served; the types  
 and effectiveness of services provided;  
 methods, challenges, and facilitators of  
 implementing services; and grant  
 recipients’ progress towards  
 programmatic goals. Revisions are  
 proposed as described in the discussion  
 section that follows.

**DATES:** *Comments due* March 26, 2026.

**ADDRESSES:** The public may view and  
 comment on this information collection  
 request at: [https://www.reginfo.gov/

 emailed requests by the title of the  
 information collection.

**SUPPLEMENTARY INFORMATION:**

*Description:* ORR proposes to  
 continue to use the PDP Form and PPR,  
 with revisions, to collect data on the  
 Services for SOT grant recipients and  
 their clients.

The recipients will continue to report  
 their PDP through the ORR Refugee  
 Arrivals Data System (RADS), an  
 information technology platform used  
 for enhanced data collection and record  
 keeping.

Grant recipients will provide  
 aggregated data on new and continuing  
 clients annually, including demographic  
 information, characteristics related to  
 experiences of torture, services received,

length of service, and wellbeing across  
 six outcome domains.

Grant recipients will also provide  
 information about community  
 attendance at trainings and pro-bono  
 services donated to the program. In the  
 PPR, grant recipients will provide  
 program narrative and program metric  
 information on grant-funded activities  
 and progress towards grant goals semi-  
 annually.

Information collected will be used in  
 aggregate by ORR to provide reports to  
 stakeholders, including a required  
 Report to Congress, and responses to  
 funding requests.

ORR has made changes to the data  
 collection, which include removing a  
 total of twelve subcategories for two  
 program indicators and reducing the  
 frequency of reporting percentage-based  
 outcomes in the program metrics. ORR  
 has also added one subcategory in one  
 program indicator. Overall, these  
 changes have reduced the estimated  
 reporting burden by 30 percent.

*Respondents:* Services for SOT grant  
 programs (this may include non-profit  
 social service, health, and higher  
 education organizations, states,  
 municipalities, and for-profit  
 organizations).

*Annual Burden Estimates:* Estimated  
 annual burden has been updated to  
 reflect a reduction in estimated time per  
 response from an average of 6 hours per  
 response to an average of 4 hours per  
 response.

**ACTION:** Notice.

**SUMMARY:** The Food and Drug  
 Administration (FDA or Agency) is  
 announcing an opportunity for public  
 comment on the proposed collection of  
 certain information by the Agency.  
 Under the Paperwork Reduction Act of  
 1995 (PRA), Federal Agencies are  
 required to publish notice in the  
**Federal Register** concerning each  
 proposed collection of information,  
 including each proposed extension of an  
 existing collection of information, and  
 to allow 60 days for public comment in  
 response to the notice. This notice  
 solicits comments on the information  
 collection provisions of FDA’s  
 regulations regarding current good

manufacturing practice (CGMP) for dietary supplements.

**DATES:** Either electronic or written comments on the collection of information must be submitted by April 27, 2026.

**ADDRESSES:** You may submit comments as follows. Please note that late, untimely filed comments will not be considered. The <https://www.regulations.gov> electronic filing system will accept comments until 11:59 p.m. Eastern Time at the end of April 27, 2026. Comments received by mail/hand delivery/courier (for written/paper submissions) will be considered timely if they are received on or before that date.

#### Electronic Submissions

Submit electronic comments in the following way:

- **Federal eRulemaking Portal:** <https://www.regulations.gov>. Follow the instructions for submitting comments. Comments submitted electronically, including attachments, to <https://www.regulations.gov> will be posted to the docket unchanged. Because your comment will be made public, you are solely responsible for ensuring that your comment does not include any confidential information that you or a third party may not wish to be posted, such as medical information, your or anyone else's Social Security number, or confidential business information, such as a manufacturing process. Please note that if you include your name, contact information, or other information that identifies you in the body of your comments, that information will be posted on <https://www.regulations.gov>.

- If you want to submit a comment with confidential information that you do not wish to be made available to the public, submit the comment as a written/paper submission and in the manner detailed (see "Written/Paper Submissions" and "Instructions").

#### Written/Paper Submissions

Submit written/paper submissions as follows:

- **Mail/Hand Delivery/Courier (for written/paper submissions):** Dockets Management Staff (HFA-305), Food and Drug Administration, 5630 Fishers Lane, Rm. 1061, Rockville, MD 20852.

- For written/paper comments submitted to the Dockets Management Staff, FDA will post your comment, as well as any attachments, except for information submitted, marked and identified, as confidential, if submitted as detailed in "Instructions."

**Instructions:** All submissions received must include the Docket No. [Insert

docket number xxxxx] for "Agency Information Collection Activities; Proposed Collection; Comment Request; Current Good Manufacturing Practice in Manufacturing, Packaging, Labeling, or Holding Operations for Dietary Supplements." Received comments, those filed in a timely manner (see **ADDRESSES**), will be placed in the docket and, except for those submitted as "Confidential Submissions," publicly viewable at <https://www.regulations.gov> or at the Dockets Management Staff between 9 a.m. and 4 p.m., Monday through Friday, 240-402-7500.

- **Confidential Submissions—**To submit a comment with confidential information that you do not wish to be made publicly available, submit your comments only as a written/paper submission. You should submit two copies total. One copy will include the information you claim to be confidential with a heading or cover note that states "THIS DOCUMENT CONTAINS CONFIDENTIAL INFORMATION." The Agency will review this copy, including the claimed confidential information, in its consideration of comments. The second copy, which will have the claimed confidential information redacted/blacked out, will be available for public viewing and posted on <https://www.regulations.gov>. Submit both copies to the Dockets Management Staff. If you do not wish your name and contact information to be made publicly available, you can provide this information on the cover sheet and not in the body of your comments and you must identify this information as "confidential." Any information marked as "confidential" will not be disclosed except in accordance with 21 CFR 10.20 and other applicable disclosure law. For more information about FDA's posting of comments to public dockets, see 80 FR 56469, September 18, 2015, or access the information at: <https://www.govinfo.gov/content/pkg/FR-2015-09-18/pdf/2015-23389.pdf>.

**Docket:** For access to the docket to read background documents or the electronic and written/paper comments received, go to <https://www.regulations.gov> and insert the docket number, found in brackets in the heading of this document, into the "Search" box and follow the prompts and/or go to the Dockets Management Staff, 5630 Fishers Lane, Rm. 1061, Rockville, MD 20852, 240-402-7500.

**SUPPLEMENTARY INFORMATION:** Under the PRA (44 U.S.C. 3501-3521), Federal Agencies must obtain approval from the Office of Management and Budget (OMB) for each collection of information they conduct or sponsor. "Collection of information" is defined in 44 U.S.C. 3502(3) and 5 CFR 1320.3(c) and includes Agency requests or requirements that members of the public submit reports, keep records, or provide information to a third party. Section 3506(c)(2)(A) of the PRA (44 U.S.C. 3506(c)(2)(A)) requires Federal Agencies to provide a 60-day notice in the **Federal Register** concerning each proposed collection of information, including each proposed extension of an existing collection of information, before submitting the collection to OMB for approval. To comply with this requirement, FDA is publishing notice of the proposed collection of information set forth in this document.

With respect to the following collection of information, FDA invites comments on these topics: (1) whether the proposed collection of information is necessary for the proper performance of FDA's functions, including whether the information will have practical utility; (2) the accuracy of FDA's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques, when appropriate, and other forms of information technology.

#### Current Good Manufacturing Practice in Manufacturing, Packaging, Labeling, or Holding Operations for Dietary Supplements—21 CFR Part 111

##### OMB Control Number 0910-0606—Extension

The Dietary Supplement Health and Education Act (DSHEA) (Pub. L. 103-417) added section 402(g) of the Federal Food, Drug, and Cosmetic Act (FD&C Act) (21 U.S.C. 342(g)), which provides, in part, that the Secretary of Health and Human Services may, by regulation, prescribe good manufacturing practice for dietary supplements. Section 402(g) of the FD&C Act also stipulates that such regulations will be modeled after CGMP regulations for food and may not impose standards for which there are no current, and generally available, analytical methodology. Section

402(g)(1) of the FD&C Act states that a dietary supplement is adulterated if “it has been prepared, packed, or held under conditions that do not meet current good manufacturing practice regulations.”

Accordingly, we have promulgated regulations in part 111 (21 CFR part 111) establishing minimum CGMP requirements pertaining to the manufacturing, packaging, labeling, or holding of dietary supplements to ensure their quality. Included among the requirements is recordkeeping, documenting, planning, control, and improvement processes of a quality control system. Implementation of these processes in a manufacturing operation serves as the backbone to CGMP. The records must show what is being manufactured and whether the controls in place ensure the product’s identity, purity, strength, and composition, and that limits on contaminants and measures to prevent adulteration are effective. Further, records must show whether and what deviations from control processes occurred, facilitate evaluation and corrective action concerning these deviations (including, where necessary, whether associated batches of product should be recalled from the marketplace), and enable a manufacturer to assure that the corrective action was effective. We believe the regulations in part 111 establish the minimum manufacturing

practices necessary to ensure that dietary supplements are manufactured, packaged, labeled, or held in a manner that will ensure the quality of the dietary supplements during manufacturing, packaging, labeling or holding operations.

Specifically, the recordkeeping requirements of the regulations in part 111 include establishing written procedures and maintaining records pertaining to: (1) personnel; (2) sanitation; (3) calibration of instruments and controls; (4) calibration, inspection, or checks of automated, mechanical, or electronic equipment; (5) maintaining, cleaning, and sanitizing equipment and utensils and other contact surfaces; (6) water used that may become a component of the dietary supplement; (7) production and process controls; (8) quality control; (9) components, packaging, labels and product received for packaging and labeling; (10) master manufacturing and batch production; (11) laboratory operations; (12) manufacturing operations; (13) packaging and labeling operations; (14) holding and distributing operations; (15) returned dietary supplements; and (16) product complaints.

Section 111.75(a)(1) (21 CFR 111.75) reflects FDA’s determination that manufacturers that test or examine 100 percent of the incoming dietary ingredients for identity can be assured of the identity of the ingredient.

However, we recognize that it may be possible for a manufacturer to demonstrate, through various methods and processes in use over time for its particular operation, that a system of less than 100 percent identity testing would result in no material diminution of assurance of the identity of the dietary ingredient as compared to the assurance provided by 100 percent identity testing. Section 111.75(a)(1) provides an opportunity for a manufacturer to make such a showing and reduce the frequency of identity testing of components that are dietary ingredients from 100 percent to some lower frequency. Section 111.75(a)(1) also sets forth the information a manufacturer is required to submit for an exemption from the requirement of 100 percent identity testing when a manufacturer petitions the Agency for such an exemption to 100 percent identity testing under 21 CFR 10.30 and the Agency grants such exemption.

*Description of Respondents:* Respondents to this collection of information include manufacturers, packagers and repackagers, labelers and re-labelers, holders, distributors, warehouse, exporters, importers, large businesses, and small businesses engaged in the dietary supplement industry. Respondents are from the private sector.

We estimate the burden of this collection of information as follows:

[Docket No. FDA-2026-N-0008]

**Advisory Committee; Gastrointestinal Drugs Advisory Committee; Renewal**

**AGENCY:** Food and Drug Administration, HHS.

**ACTION:** Notice; renewal of Federal advisory committee.

**SUMMARY:** The Food and Drug Administration (FDA) is announcing the renewal of the Gastrointestinal Drugs Advisory Committee by the Commissioner of Food and Drugs (the Commissioner). The Commissioner has determined that it is in the public interest to renew the Gastrointestinal Drugs Advisory Committee for an additional 2 years beyond the charter expiration date. The new charter will be in effect until the March 3, 2028, expiration date.

**DATES:** Authority for the Gastrointestinal Drugs Advisory Committee will expire on March 3, 2026, unless the Commissioner formally determines that renewal is in the public interest.

**FOR FURTHER INFORMATION CONTACT:** Advisory Committee Oversight and Management Staff, Office of the Chief Scientist, Food and Drug Administration, 10903 New Hampshire Ave., Bldg. 31, Rm. 2417, Silver Spring,

MD 20993-0002, (301) 796-9001, [ACOMSSubmissions@fda.hhs.gov](mailto:ACOMSSubmissions@fda.hhs.gov).

**SUPPLEMENTARY INFORMATION:** Pursuant to 14 CFR 14.40(b) and 41 CFR 102-3.65, and following approval by the Department of Health and Human Services and review by the General Services Administration, FDA is announcing the renewal of the Gastrointestinal Drugs Advisory Committee (the Committee). The Committee is a discretionary Federal advisory committee established to provide advice to the Commissioner. The Committee advises the Commissioner or designee in discharging responsibilities as they relate to helping to ensure safe and effective drugs for human use and, as required, any other product for which FDA has regulatory responsibility.

The Committee reviews and evaluates data on the safety and effectiveness of marketed and investigational human drug and biologic products for use in the treatment of gastrointestinal and liver diseases. The Committee may consider the quality and relevance of FDA’s research program, which provides scientific support for the regulation of these products and makes appropriate recommendations to the Commissioner. Meetings are convened as appropriate consistent with the Agency’s needs and applicable legal and regulatory authorities.

The Committee shall consist of at least two voting members including the Chair. Subject to legal and regulatory requirements, members and the Chair are selected by and serve at the discretion of the Commissioner or designee. Each member, including the Chair, will be selected from among authorities knowledgeable in the fields of gastroenterology, hepatology, nutrition, surgery, clinical pharmacology, physiology, pathology, and statistics.

Members may be invited to serve for terms of up to four years, or for less time in the discretion of the Commissioner or designee. Non-Federal members of this Committee will serve as Special Government Employees or representatives. Federal members will serve as Regular Government Employees or Ex-Officios.

In addition to the voting members, the Commissioner or designee may identify consumer and/or industry representatives to join the Committee (or serve as alternate representatives) as non-voting representative member(s), via a process consistent with legal and regulatory requirements. Individuals currently employed at FDA-regulated companies, such as pharmaceutical and medical device manufacturers, shall not be selected to serve as members of the Committee unless this Committee is expected to address issues for which inclusion of an industry representative is required by statute. If this Committee includes an industry representative, the Commissioner or designee will determine whether to invite them to participate in meetings on a case-by-case basis, according to applicable legal and regulatory requirements.

The Commissioner or designee shall have the authority to select members of other scientific and technical FDA advisory committees to serve temporarily as voting members and to designate Special Government Employees to serve temporarily as voting members when: (1) expertise is required that is not available among current voting standing members of the Committee (when additional voting members are added to the Committee to provide needed expertise, a quorum will be based on the combined total of regular and added members), or (2) to comprise a quorum when, because of unforeseen circumstances, a quorum is or will be lacking; or (3) when
