

2016) (*2016 Lifeline Modernization Order*), the Commission ordered USAC to create a National Lifeline Eligibility Verifier (“National Verifier”), including the National Lifeline Eligibility Database (LED), that would match data about Lifeline applicants and subscribers with other data sources to verify the eligibility of an applicant or subscriber. The Commission found that the National Verifier would reduce compliance costs for Lifeline service providers, improve service for Lifeline subscribers, and reduce waste, fraud, and abuse in the program.

The Consolidated Appropriations Act of 2021 directs the FCC to leverage the National Verifier to verify applicants’ eligibility for ACP. The purpose of this matching program is to verify the eligibility of Lifeline and ACP applicants and subscribers by determining whether they receive SNAP, SSI, and Medicaid benefits administered by the Michigan Department of Health and Human Services.

Participating Agencies

Michigan Department of Health and Human Services (source agency); Federal Communications Commission (recipient agency) and Universal Service Administrative Company.

Authority for Conducting the Matching Program

The authority to conduct the matching program for the FCC’s ACP is 47 U.S.C. 1752(a)–(b). The authority to conduct the matching program for the FCC’s Lifeline program is 47 U.S.C. 254(a)–(c), (j).

Purpose(s)

The purpose of this new matching agreement is to verify the eligibility of applicants and subscribers to Lifeline, as well as to ACP and other Federal programs that use qualification for Lifeline as an eligibility criterion. This new agreement will permit eligibility verification for the Lifeline program and ACP by checking an applicant’s/ subscriber’s participation in SNAP, SSI, and Medicaid in Michigan Department of Health and Human Services. Under FCC rules, consumers receiving these benefits qualify for Lifeline discounts and also for ACP benefits.

Categories of Individuals

The categories of individuals whose information is involved in the matching program include, but are not limited to, those individuals who have applied for Lifeline and/or ACP benefits; are currently receiving Lifeline and/or ACP benefits; are individuals who enable

another individual in their household to qualify for Lifeline and/or ACP benefits; are minors whose status qualifies a parent or guardian for Lifeline and/or ACP benefits; or are individuals who have received Lifeline and/or ACP benefits.

Categories of Records

The categories of records involved in the matching program include the last four digits of the applicant’s Social Security Number, date of birth, first and last name. The National Verifier will transfer these data elements to the Michigan Department of Health and Human Services which will respond either “yes” or “no” that the individual is enrolled in a qualifying assistance program: SNAP, SSI, and Medicaid administered by the Michigan Department of Health and Human Services.

System(s) of Records

The records shared as part of this matching program reside in the Lifeline system of records, FCC/WCB–1, Lifeline, which was published in the **Federal Register** at 89 FR 28777 (Apr. 19, 2024).

The records shared as part of this matching program reside in the ACP system of records, FCC/WCB–3, Affordable Connectivity Program, which was published in the **Federal Register** at 89 FR 28780 (Apr. 19, 2024).

SUPPLEMENTARY INFORMATION:

A. Need For and Use of the Information Collection

The Federal Home Loan Bank System (System) consists of eleven regional Federal Home Loan Banks (Banks) and the Office of Finance, a joint office of the Banks that issues and services their debt securities. The Banks are wholesale financial institutions, organized under authority of the Federal Home Loan Bank Act (Bank Act) to serve the public interest by enhancing the availability of residential housing finance and community lending credit through their member institutions and, to a limited extent, through eligible non-member "housing associates." Each Bank is structured as a regional cooperative that is owned and controlled by member financial institutions located within its district, which are also its primary customers.

Section 10(g)(1) of the Bank Act requires the Director of FHFA to promulgate regulations establishing

standards of community investment or service that Bank member institutions must meet in order to maintain access to long-term Bank advances.^{1 2} Section 10(g)(2) of the Bank Act requires that, in establishing these community support requirements for Bank members, FHFA take into account factors such as the member's performance under the Community Reinvestment Act of 1977 (CRA)³ and record of lending to first-time homebuyers.⁴ FHFA's community support regulation, which establishes standards and review criteria for determining compliance with section 10(g) of the Bank Act, is set forth at 12 CFR part 1290.

Part 1290 requires that each Bank member subject to community support review submit to FHFA biennially a completed Community Support Statement (Form 060), which contains several short questions, the answers to which are used by FHFA to assess the responding member's compliance with the statutory and regulatory community support standards.⁵ Members are strongly encouraged to complete and submit Form 060 online, but may submit a version via email or fax if they cannot complete the submission online. In Part I of Form 060, a member that is subject to the CRA must record its most recent CRA rating and the year of that rating. Part II of Form 060 addresses a member's efforts to assist first-time homebuyers. A member may either record the number and dollar amount of mortgage loans made to first-time homebuyers in the previous or current calendar year (Part II.A), or indicate the types of programs or activities it has undertaken to assist first-time homebuyers by checking selections from a list (Part II.B), or do both. If a member has received a CRA rating of "Outstanding," it need not complete Part II.

Part 1290 also establishes the circumstances under which FHFA will restrict a member's access to long-term Bank advances and to the Bank Affordable Housing Programs (AHP), Community Investment Programs (CIP), and Community Investment Cash Advance (CICA) programs for failure to meet the community support

requirements.⁶ Part 1290 permits Bank members whose access to long-term advances has been restricted to apply directly to FHFA to remove the restriction.⁷

FHFA uses the information collection contained in FHFA Form 060 to determine whether Bank members satisfy the statutory and regulatory community support requirements, and to ensure that, as required by statute and regulation, only Bank members that meet those requirements maintain continued access to long-term Bank advances and to the Bank AHP, CIP, and CICA programs.

The OMB control number for this information collection is 2590-0005, which is due to expire on April 30, 2026. The respondents are Bank member institutions.

B. Burden Estimate

FHFA has analyzed the two facets of this information collection to estimate the hour burdens that the collection will impose upon Bank members annually over the next three years. Based on that analysis, FHFA estimates that the total annual hour burden will be 1,856 hours. The method FHFA used to determine the annual hour burden for each facet of the information collection is explained in detail below.

1. Community Support Statements

FHFA estimates an annual average of 3,090 respondents. FHFA estimates that the average preparation and submission time for each Community Support Statement is 0.6 hours. The estimate for the total annual hour burden on Bank members in connection with the preparation and submission of Community Support Statements is, therefore, 1,854 hours (3,090 Statements × 0.6 hours).

2. Requests To Remove a Restriction on Access to Long-Term Advances

FHFA estimates that an annual average of 2 Bank members whose access to long-term advances and to AHP, CIP, and CICA programs has been restricted will prepare and submit requests to FHFA to remove those restrictions, and that the average preparation time for each request will be 1 hour. The estimate for the total annual hour burden on Bank members in connection with the preparation and submission of requests to remove a restriction on access to long-term advances is, therefore, 2 hours (2 requests × 1 hour).

¹ 12 U.S.C. 1430(g)(1).

² For purposes of the community support requirements, a long-term advance is an advance with a term of maturity greater than one year. 12 CFR 1290.1 (definition of "long-term advance").

³ See 12 U.S.C. 2901 *et seq.*

⁴ 12 U.S.C. 1430(g)(2).

⁵ See 12 CFR 1290.2. Non-depository community development financial institutions and institutions that have been Bank members for less than one year as of March 31 of the year the Form 060 is due are not required to submit Form 060.

⁶ See 12 CFR 1290.5(b), (e).

⁷ See 12 CFR 1290.5(d).

C. Comment Request

In accordance with the requirements of 5 CFR 1320.8(d), FHFA published an initial notice and request for public comments regarding this information collection in the **Federal Register** on November 18, 2025.⁸ FHFA received one comment letter. The commenter supported this information collection because it extends current processes, which the commenter stated are simple and easy to follow.

FHFA requests written comments on the following: (1) Whether the collection of information is necessary for the proper performance of FHFA functions, including whether the information has practical utility; (2) the accuracy of FHFA's estimates of the burdens of the collection of information; (3) ways to enhance the quality, utility, and clarity of the information collected; and (4) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

SUPPLEMENTARY INFORMATION: Under the Paperwork Reduction Act of 1995 (PRA) (44 U.S.C. 3501-3520), federal agencies must obtain approval from the Office of Management and Budget (OMB) for each collection of information they conduct or sponsor. In addition, the PRA also requires federal agencies to provide a 60-day notice in the **Federal Register** concerning each proposed collection of information, including each new proposed collection, each proposed extension of existing collection of information, and each reinstatement of previously approved information collection before submitting the collection to the OMB for approval. To comply with this requirement, we are publishing this notice of a proposed data collection as described below.

The OMB is particularly interested in comments that will help:

1. Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

2. Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

3. Enhance the quality, utility, and clarity of the information to be collected;

4. Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses; and

Proposed Project

The National Firefighter Registry for Cancer (NFR) (OMB Control No. 0920-1348, Exp. 4/30/2026)—Extension—National Institute for Occupational Safety and Health (NIOSH), Centers for Disease Control and Prevention (CDC).

Background and Brief Description

In order to accurately monitor trends in cancer incidence and evaluate control measures among the U.S. fire service, Congress passed the Firefighter Cancer Registry Act of 2018. Under this legislation, CDC/NIOSH was directed to create a registry of U.S. firefighters for the purpose of monitoring cancer incidence and risk factors among the current U.S. fire service. Funding of the project was authorized through this legislation for five years as of fiscal year 2019. Legislation has now been reauthorized through 2028.

The main goal of the National Firefighter Registry for Cancer (NFR), according to the Firefighter Cancer Registry Act of 2018, is, "to develop and maintain . . . a voluntary registry of firefighters to collect relevant health and occupational information of such firefighters for purposes of determining cancer incidence." Results from the NFR will provide information for decision makers within the fire service and medical or public health community to devise and implement policies and procedures to lessen cancer risk and/or improve early detection of cancer among firefighters.

The below table outlines the estimated time burden for participants enrolling in the NFR. There are three corresponding documents to be completed as part of the enrollment process; the Informed Consent, User Profile, and Enrollment Questionnaire. The estimated time burden for the Informed Consent and User Profile are five minutes each, and an estimated twenty-minute burden for enrollment
