SUPPLEMENTARY INFORMATION:

Title: FERC–539 (Gas Pipeline
Certificates: Import & Export Related
Applications).

OMB Control No.: 1902–0062.

Type of Request: Three-year extension
of the FERC–539 with no changes to the
current reporting requirements.

Abstract: The purpose of FERC–539 is
to implement information collections
pursuant to Section 3 of the Natural Gas
Act (NGA).¹ This statute provides, in
part, that “. . . no person shall export
any natural gas from the United States
to a foreign country or import any
natural gas from a foreign country
without first having secured an order
from the Commission authorizing it to
do so.”² This statute applies not only to
natural gas imported and/or exported
via pipeline but also to any import and/
or export of liquefied natural gas via a
liquefied natural gas terminal. The 1992
amendments to Section 3 of the NGA
concern importation or exportation
from/to a nation which has a free trade
agreement with the United States, and
requires that such importation or
exportation: (1) Shall be deemed to be
a “first sale”, *i.e.*, not a sale for a resale,
and (2) Shall be deemed to be consistent
with the public interest, and
applications for such importation or
exportation shall be granted without
modification or delay.

*Estimate of Annual Burden:*³ The
Commission estimates the annual public
reporting burden for the information
collection as:

¹ 15 U.S.C. 717–717w.

² 15 U.S.C. 717b.

³ Burden is defined as the total time, effort, or
financial resources expended by persons to
generate, maintain, retain, or disclose or provide
information to or for a federal agency. See 5 CFR
1320 for additional information on the definition of
information collection burden.

⁴ The Commission staff estimates that industry is
similarly situated in terms of hourly cost (for wages
plus benefits). Based on the Commission's FY
(Fiscal Year) 2025 average cost (for wages plus
benefits), \$103/hour is used.

Number of respondents (1)	Number of responses per respondent (2)	Total number of responses (1) * (2) = (3)	Average burden hours & average cost ⁴ per response (\$) (4)	Total annual burden hours & total annual cost (\$) (3) * (4) = (5)	Cost per respondent (\$) (5) ÷ (1) = (6)
6	2	12	15 hours; \$1,545	180 hours; \$18,540	\$3,090

Comments: Comments are invited on: (1) whether the collections of information are necessary for the proper performance of the functions of the Commission, including whether the information will have practical utility; (2) the accuracy of the agency's estimates of the burden and cost of the collections of information, including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility and clarity of the information collections; and (4) ways to minimize the burden of the collections of information on those who are to respond, including the use of automated collection techniques or other forms of information technology.

Dated: February 19, 2026.

Secretary.

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Project No. 2082-074]

PacifiCorp; Notice of Intent To Prepare an Environmental Assessment

On August 22, 2025, PacifiCorp filed a non-capacity application for Klamath Hydroelectric Project No. 2082. The project is located on the Klamath River and Fall Creek, in Klamath County, Oregon and Siskiyou County, California. The project occupies federal lands managed by the U.S. Bureau of Reclamation.

The applicant proposes to decommission and administratively remove the Fall Creek Development from the project license to facilitate conveyance of the decommissioned infrastructure and lands to the City of Yreka, California (City). The applicant proposes to cease power generation, disconnect the generating units from the power grid, drain the units of any fluids, and convey the decommissioned infrastructure and associated lands to

the City for its own water supply purposes. No construction, development, or ground-disturbing activities are proposed. The proposed conveyance would not affect the California Department of Fish and Wildlife's (California DFW) hatchery operations at the Fall Creek Hatchery. Both Yreka and California DFW have water intakes in the tailrace canal that are used for water supply and fish hatchery operations, respectively, and support approval of PacifiCorp's amendment application.

On January 6, 2026, Commission staff issued public notice of the application and established a deadline for filing comments, motions to intervene, and protests by February 5, 2026. The Department of Interior filed a timely request to extend the comment period through February 27, 2026. On February 12, 2026, the Commission granted this request and reopened the comment period through February 27, 2026.

This notice identifies Commission staff's intention to prepare an environmental assessment (EA) under the National Environmental Policy Act (42 U.S.C. 4321 *et seq.*) for the project.¹ Commission staff plans to issue an EA by April 15, 2026. Revisions to the schedule may be made as appropriate. The EA will be issued for a 30-day comment period. All comments filed on the EA will be reviewed by staff and considered in the Commission's final decision on the proceeding.

For public inquiries and assistance with making filings such as interventions, comments, or requests for rehearing, contact the Office of Public Participation at (202) 502-6595 or OPP@ferc.gov.

Any questions regarding this notice may be directed to Diana Shannon at 202-502-6136 or diana.shannon@ferc.gov.
