

specific questions related to collection activities should be directed to Nancy Kook, IC Liaison, Bureau of Industry and Security, phone 202-482-2440 or by email at PRA@bis.doc.gov.

SUPPLEMENTARY INFORMATION:

I. Abstract

This collection of information is needed to detect violations of the Export Administration Regulations (EAR) and determine if an investigation or prosecution is necessary and to reach a settlement with violators. Reporting violations or imminent violations, whether through voluntary self-disclosures or based on information provided by those who have direct knowledge of possible violations of the EAR, strengthens BIS's enforcement efforts. The disclosure activities and burden associated with this collection allows BIS to begin and conduct investigations faster and with more accurate information than would be the case if BIS had to detect the violations without such information or disclosures. BIS evaluates the seriousness of the violation and either (1) Informs the person making the disclosure that no action is warranted; (2) issues a warning letter; (3) issues a proposed charging letter and attempts to settle the matter; (4) issues a charging letter if settlement is not reached; and/or (5) refers the matter to the U.S. Department of Justice for criminal prosecution.

BIS is revising the title of this collection of information to better reflect enforcement and protective measures associated with the full scope of disclosures that are covered in Part 764 of the EAR. In addition, with the modernization of its website (www.bis.gov), BIS would like to add additional questions for submission of online tips to make the submission process easier for the public and to allow BIS to more effectively triage and process a tip once it has been submitted.

SUPPLEMENTARY INFORMATION:

I. Abstract

This information is collected in order to respond to requests by Congress and industry to make foreign availability determinations in accordance with Section 768 of the Export Administration Regulations. Continued restrictions on exports when comparable items are available from uncontrollable sources decreases U.S. competitiveness in high technology industries and undermines U.S. national security interests. Exporters are urged to voluntarily submit data to support the contention that items controlled for export for national security reasons are available-in-fact, from a non-U.S. source, in sufficient quantity and of comparable quality so as to render the control ineffective.

Certain Crystalline Silicon Photovoltaic Products from Taiwan: Final Results of the Antidumping Duty Administrative Review: 2023-2024

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: The U.S. Department of Commerce (Commerce) finds that EEPV Corp. (EEPV), a producer/exporter

subject to this administrative review, did not make sales of certain crystalline silicon photovoltaic products from Taiwan at less than normal value during the period of review (POR) of February 1, 2023, through January 31, 2024.

DATES: Applicable February 24, 2026.

FOR FURTHER INFORMATION CONTACT: Thomas Martin, AD/CVD Operations, Office IV, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 1401 Constitution Avenue NW, Washington, DC 20230; telephone: (202) 482-3936.

SUPPLEMENTARY INFORMATION:

Background

On June 11, 2025, Commerce published the Preliminary Results of this administrative review in the Federal Register and invited interested parties to comment. On August 22, 2025, Commerce issued a post-preliminary analysis memorandum in which it made certain changes to its differential pricing analysis. Due to the lapse in appropriations and Federal Government shutdown, on November 14, 2025, Commerce tolled all deadlines in administrative proceedings by 47 days. Additionally, due to workflow delays and outages experienced by Enforcement and Compliance's Antidumping and Countervailing Duty Centralized Electronic Service System (ACCESS), on November 24, 2025, Commerce tolled all deadlines in administrative proceedings by 21 days. Accordingly, the deadline for these final results is now February 17, 2026.

A summary of the events that occurred since the Preliminary Results and Post Preliminary Results, as well as a full discussion of the issues raised by the respondent for these final results, are discussed in the Issues and Decision Memorandum. The Issues and Decision Memorandum is a public document and is on file electronically via ACCESS.

Commerce conducted this administrative review in accordance with section 751(a)(1)(B) of the Tariff Act of 1930, as amended (the Act).

Scope of the Order 6

The merchandise covered by the Order is crystalline silicon photovoltaic cells, and modules, laminates and/or panels consisting of crystalline silicon photovoltaic cells, whether or not partially or fully assembled into other products, including building integrated materials.

A full description of the scope of the Order is contained in the Issues and Decision Memorandum.7

Analysis of Comments Received

All issues raised in the case brief filed by EEPV are listed as an appendix to this notice and addressed in the Issues and Decision Memorandum.

Changes Since the Preliminary Results

Based on a review of the record and comments received from the interested party regarding the Preliminary Results, we made certain changes to the preliminary weighted-average dumping margin calculated for EEPV. For a detailed discussion of these changes, see the Issues and Decision Memorandum.

Final Results of Review

Commerce determines that the following estimated weighted-average dumping margin exists for the period February 1, 2023, through January 31, 2024:
