The Commission has updated the International Bureau Filing System (IBFS) to allow for filing of electronic forms directly into the system through an integrated web-based program with fillable fields. The integrated web-based program requires the use of an FCC Registration Number (FRN) will include support for Forms 314-IBFS, 315-IBFS, and 316-IBFS. Applicants will be required to submit these forms through the integrated web-based program. The forms were previously in development but are now completed and included as part of this collection.

On July 13, 2021, the Commission released an Order titled, "In the Matter of Mandatory Electronic Filing of Section 325(c) Applications, International Broadcast Applications, and Dominant Carrier Section 63.10(c) Quarterly Reports." The purpose of this Order is to require that any remaining applications and reports administered by the International Bureau and filed on paper or through an alternative filing process be filed only electronically through the Commission's International Bureau Filing System (IBFS).

In July 2021, OMB approved this information collection under OMB Control No. 3060-1290 to implement mandatory electronic filing of International Broadcast station applications in the International Bureau Filing System (IBFS). The versions of FCC Forms 314, 315, and 316 to be used by International Bureau licensees were renamed as FCC Form 314-IBFS, FCC Form 315-IBFS and FCC Form 316-

IBFS. These forms will only be used by the International Broadcast stations in IBFS.

Under 47 CFR 73.3540, the filings of the FCC Forms 314-IBFS, 315-IBFS, and 316-IBFS are required when applying for consent for assignment of a broadcast station construction permit or license. In addition, the applicant must notify the Commission when an approved assignment or transfer of control of a broadcast station construction permit or license has been consummated.

The FCC Forms 314, 315, and 316 were previously shared between the Media Bureau and the International Bureau. The forms were used by the International Bureau for International Broadcast stations and by the Media Bureau for other broadcast licenses. These FCC Forms were previously approved by Office of Management and Budget (OMB) for use by Media Bureau licensees under OMB 3060-0031 and OMB 3060-0009.

Accordingly, the early forms included references to all broadcast services. The new version of the forms removes references to all services except for International Broadcast stations, since they are only used for these stations. The changes also remove references to rules that do not apply to International Broadcast stations and updates the instructions to comport with the new sections.

Specifically, the Commission modified its rules to mandate the electronic filing of, among other things, applications for International Broadcast Stations, including applications for voluntary assignments and transfers of control. These mandatory electronic filing requirements will reduce costs and administrative burdens, result in greater efficiencies, facilitate faster and more efficient communications, and improve transparency to the public. The changes to section 73.3540(c) and (d) state that "[f]or International Broadcast Stations, the application shall be filed electronically in the International Bureau Filing System (IBFS)." There are currently fewer than 20 International Broadcast stations subject to obligations in section 73.3540, and the International Bureau receives an average of one application involving voluntary transactions per year pursuant to section 73.3540.

#### **§ 73.3540 Application for Voluntary Assignment or Transfer of Control**

(a) Prior consent of the FCC must be obtained for a voluntary assignment or transfer of control.

(b) Application should be filed with the FCC at least 45 days prior to the

contemplated effective date of assignment or transfer of control.

(c) Application for consent to the assignment of construction permit or license must be filed on FCC Form 314 "Assignment of license" or FCC Form 316 "Short form" (See paragraph (f) of this section). For International Broadcast Stations, the application shall be filed electronically in the International Bureau Filing System (IBFS).

(d) Application for consent to the transfer of control of a corporation holding a construction permit or license must be filed on FCC Form 315 "Transfer of Control" or FCC Form 316 "Short form" (see paragraph (f) of this section). 4. Information that VRS and IP CTS providers must request to validate each

individual who seeks to register that he/she is an actual person living or visiting in the United States;

5. Information related to users signed up with multiple providers for VRS or IP CTS; and

6. Information that is contained in the records of the inquiries that VRS and IP CTS providers will make available to the ITRS-URD administrator and its contractors and subcontractors who manages the database (providing verification/call/service center(s) services) to verify that individuals who are deaf, deaf-blind, hard of hearing, or have speech disabilities and who are eligible under the ADA to participate in ITRS programs.

Collecting and maintaining these types of information allows staff access to documents necessary for key activities discussed in this SORN, including verifying the eligibility of individuals to participate in ITRS programs; analyzing effectiveness and efficiency of related FCC programs and informing future rule-making and policy-making activity; and improving staff efficiency.
