Abstract: Reclamation is responsible for recreation development at all of its reservoirs. Presently, there are more than 240 designated recreation areas on our lands within the 17 Western States hosting approximately 40 million visitors annually. As a result, we must be able to respond to emerging trends, changes in the demographic profile of users, changing values, needs, wants, and desires, and conflicts between user groups.

Statistically valid and up-to-date data derived from the user is essential to developing and providing recreation programs relevant to today's visitor. Reclamation is requesting re-approval for the collection of data from recreational users on Reclamation lands and waterbodies.

To meet our needs for the collection of visitor use data, we will be requesting OMB to authorize a two-part request: survey questions for our regional offices to choose from, and a survey form template. This will allow for a custom designed survey instrument to fit a specific activity or recreation site. The custom designed survey would be created by extracting questions from the approved list of survey questions that are applicable to the recreation area and issue being evaluated. Only questions included in the pre-approved list of survey questions will be used.

Revisions to this collection will be made to adjust respondent demographic questions to conform with Executive Order 14168, "Defending Women From Gender Ideology Extremism and Restoring Biological Truth to the Federal Government" (January 20, 2025) and OMB's "2024 Statistical Policy Directive No. 15: Federal Race and Ethnicity Data Standards."

Title of Collection: Recreation Survey Questions.

OMB Control Number: 1006-0028.
Form Number: 7-2675, Recreation Survey Questions.

Type of Review: Revision of a currently approved collection.

Respondents/Affected Public: Respondents to the surveys will be members of the public engaged in recreational activities on Reclamation lands and waterbodies. Visitors will primarily consist of local residents, people from large metropolitan areas in

the vicinity of the lake/reservoir, and people from out of state.

Total Estimated Number of Annual Respondents: 696.

Total Estimated Number of Annual Responses: 696.

Estimated Completion Time per Response: 15 minutes per survey (an average of 20 questions will be used on each survey; each question will take approximately 45 seconds to complete on average).

Total Estimated Number of Annual Burden Hours: 140.

Respondent's Obligation: Voluntary.
Frequency of Collection: Twice annually.

Total Estimated Annual Nonhour Burden cost: None.

Reclamation estimates that there will be a total of 140 out of 696 contacts that choose not to respond to the survey. These non-respondents account for 1 burden hour per year.

An agency may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

The authority for this action is the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 et seq).

Stephanie McPhee,

Acting Information Collection Clearance Officer, Bureau of Reclamation.

Overview of This Information Collection

1. *Abstract:* Regulations under 27 CFR 555.128 require explosives licensees/ permittees to transfer required records

The records on licensee/permittee importing, manufacturing, shipping, receiving, selling, or otherwise disposing of explosive materials aid ATF in conducting investigations into trafficking and other criminal misuse of explosives.

2. *Type of information collection:* revising of a previously approved collection.

3. *Title of the form/collection:* LEO Certification Letter for Official Duty Firearm Purchase.

4. *Agency form number, if any, and the applicable component of the Department sponsoring the collection:*

Form number: none.

Component: Bureau of Alcohol, Tobacco, Firearms, and Explosives; U.S. Department of Justice.

5. *Affected public who will be asked or required to respond, as well as the obligation to respond:*

Affected public: individuals or households, private sector for- or not-for-profit institutions.

6. *Estimate of the total number of respondents and the amount of time estimated for an average respondent to respond:* An estimated 50,000 respondents will apply for a firearm for official duty purposes once annually, and it will take each respondent approximately 8 minutes (0.13 hours) to complete their responses.

7. *Estimate of the total annual burden (in hours) associated with the collection:* The estimated annual public burden associated with this collection is 6,500 total hours, which is equal to 50,000 (total respondents) * 1 (# of responses per respondent) * 0.13 (8 minutes).

ESTIMATED TOTAL HOURLY BURDEN

Activity	Number of respondents	Frequency	Total annual responses	Time per response (hours)	Total annual burden (hours)
Certification (third-party disclosure) ..	50,000	1	50,000	0.13 hours (8 mins)	6,500

Revisions to This Information Collection

ATF is revising this information collection, OMB 1140-0046, to reflect the change in hourly pay for a first-line supervisor of police or detectives since the last time this hourly wage was calculated, resulting in a change from \$46 to \$71 (rounded). Although the number of respondents and the amount of time it takes to complete the certification letter have remained the same, the hourly wage rate change results in a change to the monetized value of respondent time. In addition, ATF is including monetized value of this time due to recent OMB changes and has also made small revisions to the title to make it easier to read.
