Petitioner's 2021 rulemaking petition sought the "promulgation of rules that reverse the Environmental Protection Agency's (EPA) 1991 Bevill regulatory determination excluding phosphogypsum and phosphoric acid production process wastewater ("process wastewater") from the Resource Conservation and Recovery Act (RCRA) Subtitle C hazardous waste regulations," and "govern the safe treatment, storage and disposal of phosphogypsum and process wastewater as hazardous wastes under RCRA Subtitle C."

II. Additional Information About the Proposed Settlement Agreement

On February 8, 2021, Petitioners submitted a rulemaking petition "seeking the promulgation of rules that: (1) reverse the Environmental Protection Agency's (EPA) 1991 Bevill regulatory determination excluding phosphogypsum and phosphoric acid production process wastewater ("process wastewater") from the Resource Conservation and Recovery Act (RCRA) Subtitle C hazardous waste

regulations,” and “(2) govern the safe treatment, storage and disposal of phosphogypsum and process wastewater as hazardous wastes under RCRA Subtitle C.” In their mandamus suit, Petitioners allege EPA has failed to take action on the 2021 rulemaking petition within a reasonable time, as required by the RCRA and APA.

The proposed settlement agreement states that no later than February 1, 2027, EPA shall issue a final decision on the petition. Further, the proposed settlement agreement states that within 15 days of the execution of the proposed settlement agreement, the parties will file a joint motion to continue holding the litigation in abeyance pending EPA’s issuance of a final decision on the rulemaking petition. Finally, the proposed settlement agreement provides that within five days of receipt of EPA’s decision, the Petitioners in the case shall file a stipulation of voluntary dismissal with prejudice.

For a period of thirty (30) days following the date of publication of this document, the Agency will accept written comments relating to the proposed settlement agreement from persons who are not named as parties to the litigation in question. EPA or the Department of Justice may withdraw or withhold consent to the proposed settlement agreement if the comments disclose facts or considerations that indicate that such consent is inappropriate, improper, inadequate, or inconsistent with the requirements of the APA or RCRA. Unless EPA or the Department of Justice determines that consent should be withdrawn, the terms of the proposed settlement agreement will be affirmed.

III. Additional Information About Commenting on the Proposed Settlement Agreement

Any identifying or contact information provided in the body of a comment will be included as part of the comment that is placed in the official public docket and made available in EPA’s electronic public docket. If EPA cannot read your comment due to technical difficulties and cannot contact you for clarification, EPA may not be able to consider your comment.
