SUPPLEMENTARY INFORMATION:**I. Abstract**

This information is collected in order to respond to requests by Congress and industry to make foreign availability determinations in accordance with Section 768 of the Export Administration Regulations. Continued restrictions on exports when comparable items are available from uncontrollable sources decreases U.S. competitiveness in high technology industries and undermines U.S. national security interests. Exporters are urged to voluntarily submit data to support the contention that items controlled for export for national security reasons are available-in-fact, from a non-U.S. source, in sufficient quantity and of comparable quality so as to render the control ineffective.
