*General Description of Collection:*

This information collection involves the submission of various forms by (1) contractors who wish to do business with the FDIC or are currently under contract with the FDIC, (2) those vendors and parties participating in innovation pilot programs and prize competitions with the possibility of being awarded a contract, and (3) government agencies or commercial businesses that provide FDIC with past performance information. The Federal Deposit Insurance Act (the Act) (12 U.S.C. 1819) empowers the FDIC to enter into contracts using private sector contractors to provide goods or services. The Act also provides that the FDIC may promulgate policies and procedures to administer the powers granted to it, including the power to enter into contracts. Pursuant to such policies, the Acquisition and Corporate Services Branch of the FDIC's Division of Administration has developed forms and clauses to facilitate the procurement of goods and services from private sector contractors. The information collected through these forms and clauses falls under the definition of collection of information under the Paperwork Reduction Act of 1995 (PRA). The FDIC is revising Form 7400/04A by removing certain language and questions in the form to comply with Executive Order 14151. The decreased burden is due to the removal of Questions 3, 4, and 7.

**Request for Comment**

*Comments are invited on:* (a) whether the collections of information are necessary for the proper performance of the FDIC's functions, including whether the information has practical utility; (b) the accuracy of the estimates of the burden of the information collections, including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collections of information

on respondents, including through the use of automated collection techniques or other forms of information technology. All comments will become a matter of public record.

**SUPPLEMENTARY INFORMATION:** Under the Paperwork Reduction Act of 1995 (PRA) (44 U.S.C. 3501-3520), federal agencies must obtain approval from the Office of Management and Budget (OMB) for each collection of information they conduct or sponsor. The term "collection of information" is defined in 44 U.S.C. 3502(3) and 5 CFR 1320.3(c) and includes agency requests or requirements that members of the public submit reports, keep records, or provide information to a third party. Section 3506(c)(2)(A) of the PRA (44 U.S.C. 3506(c)(2)(A)) requires federal agencies to publish a 30-day notice in the **Federal Register** concerning each proposed collection of information, including each proposed extension or reinstatement of an existing collection of information, before submitting the collection to OMB for approval. To comply with this requirement, CMS is publishing this notice that summarizes the following proposed collection(s) of information for public comment.

1. *Type of Information Collection Request:* Revision of a currently approved collection; *Title of Information Collection:* Medicare Enrollment Application for Physician and Non-Physician Practitioners; *Use:* The Social Security Act (Act) requires providers and suppliers to furnish information concerning the amounts due and the identification of individuals or entities that furnish medical services to beneficiaries before allowing payment. The primary function of the CMS-855I Medicare enrollment application for physicians and non-physician practitioners is to gather information from an individual provider or supplier that tells us who he/she is, whether he/she meets certain qualifications to be a Medicare health care provider or supplier, where he/she practices or renders services, and other information necessary to establish correct claims payments.

The collection and verification of this information is the first line defense to defend and protect our beneficiaries from illegitimate physicians, non-physician practitioners, and other eligible professionals and to protect the Medicare Trust Fund against fraud. It gathers information that allow Medicare contractors to ensure only legitimate physicians, non-physician practitioners, and other eligible professionals enroll in the Medicare program, and are not sanctioned from the Medicare and/or Medicaid program(s), or debarred, or excluded from any other Federal agency or program. This is the sole instrument
