Annual Burden Estimates

The burden estimates for the consumer education website requirement at § 98.33 have been reduced based on analysis of the FFY 2025–2027 CCDF State and Territory Plans. Eighteen out of 56 lead agencies are non-compliant on requirements

related to their consumer education websites and would incur burden under this renewal, while the remaining grantees have demonstrated compliance and would experience minimal burden for ongoing maintenance to their consumer education websites. Accordingly, the burden hours for those 38 lead agencies only needing ongoing maintenance has been reduced from 300 to 50 average hours, resulting in an

overall reduction of approximately 57 percent in total annual burden hours compared to the previously approved version. The burden estimates for reporting serious injuries and deaths at § 98.42 remain unchanged, as the burden is limited to provider reporting when a reportable event occurs. States and territories have flexibility in how they structure the provider reporting.

Instrument	Total number of respondents	Annual number of responses per respondent	Average burden hours per response	Annual burden hours
Consumer Education Website Development and Maintenance	18	1	300	5,400
Consumer Education Website Maintenance	38	1	50	1,900
Reporting of Serious Injuries and Death	10,000	1	1	10,000
Estimated Total Annual Burden Hours				17,300
