Information provided is utilized by the program staff to regularly assess overall progress of program requirements and analyze data in order to monitor award recipient compliance and track progress against proposed targets and goals. Information gathered allows an improved and more efficient method for identifying whether projects’

goals are being advanced or achieved, as set forth in 2 CFR 200.329. Program staff also use information provided over the period of performance to see emerging trends and to assess whether an award recipient requires technical assistance to address challenges that the award recipient may be experiencing with the implementation of the project. Seeking OMB approval of this revision comports with the regulatory requirement imposed by 2 CFR 200.207(a) and 200.329(b).
