DEPARTMENT OF HOMELAND SECURITY

Transportation Security Administration

Intent to Request Approval From OMB of One New Public Collection of Information: Real-Time Wait-Time Dashboarding

AGENCY: Transportation Security Administration, DHS.

ACTION: 60-Day notice.

SUMMARY: The Transportation Security Administration (TSA) invites public comment on a new Information Collection Request (ICR) abstracted below that we will submit to the Office of Management and Budget (OMB) for approval in compliance with the Paperwork Reduction Act (PRA). The ICR describes the nature of the information collection and its expected burden. The collection involves airport operator owned, managed, and operated Real-Time Wait-Time (RTWT) technology solutions deployed in TSA checkpoint environments. The technology solutions are provided by various vendors at different airports and measure the average time that a passenger spends in the checkpoint queue.

DATES: Send your comments by May 5, 2026.

ADDRESSES: Comments may be emailed to TSAPRA@tsa.dhs.gov or delivered to

the TSA PRA Officer, Information Technology, TSA-11, Transportation Security Administration, 6595 Springfield Center Drive, Springfield, VA 20598-6011.

FOR FURTHER INFORMATION CONTACT: Christina A. Walsh at the above address, or by telephone (571) 227-2062.

SUPPLEMENTARY INFORMATION:

Comments Invited

In accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*), an agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a valid OMB control number. The ICR documentation will be available at <https://www.reginfo.gov> upon its submission to OMB. Therefore, in preparation for OMB review and approval of the following information collection, TSA is soliciting comments to—

(1) Evaluate whether the proposed information requirement is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

(2) Evaluate the accuracy of the agency's estimate of the burden;

(3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the collection of information on those who are to respond, including using appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Information Collection Requirement

Purpose and Description of Data Collection

Consistent with the requirements in the FAA Reauthorization Act of 2018, TSA intends to collect RTWT data voluntarily submitted by airport operators. *See* section 1922 of Public Law 115-254 (132 Stat. 3561; Oct. 5, 2018); 49 U.S.C. 44901 note. TSA will enter into Memorandum of Agreements with airport operators to effectuate the data sharing.

The purpose of the collection is to allow airport operators to provide TSA with real-time insight into the operational tempo of the checkpoint. This will allow TSA to quickly mitigate high wait-times and inform staffing allocation for recurring hot spots. TSA has designed an internal dashboard and Application Programming Interface to ingest and store the RTWT data in 60-second intervals. The data will be collected electronically, either from on-premises vendor/airport servers or

cloud environments. The data being collected is aggregated wait-time data across the various screening lane configurations (e.g., PreCheck, Standard, Blended, etc.) and will not contain any personally identifiable information.

TSA estimates that annually 450 airport operators will provide the information and that it will take approximately 0.7305 annual hours. This results in an estimated annual time burden on respondents of 328.725 hours.

Use of Results

TSA and individual airports will use these results to improve the passenger's experience; eliminate the need for TSA officers to collect this data manually—yielding a cost avoidance; refocusing the uniformed workforce on screening passengers; enable TSA to quickly respond and mitigate high wait-times; and evaluate opportunities to provide additional staffing resources to frequent hot spots.

Dated: March 3, 2026.

*Paperwork Reduction Act Officer,
Information Technology, Transportation
Security Administration.*

DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

**[FWS-R5-ES-2026-N003;
FXES11130500000-267-FF05E00000]**

**Endangered Species; Receipt of
Recovery Permit Applications**

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of receipt of permit applications; request for comments.

SUMMARY: We, the U.S. Fish and Wildlife Service, have received applications for permits to conduct scientific research to promote conservation or other activities intended to enhance the propagation or survival of endangered or threatened species under the Endangered Species Act. We invite local, State and Federal agencies, Tribes, and the public to comment on these applications. Before issuing the requested permits, we will take into consideration any information that we receive during the public comment period.

DATES: We must receive any written comments on or before April 6, 2026.

ADDRESSES: Use one of the following methods to request documents or submit comments. Requests and comments should specify the applicant's name and application number (e.g., PER0001234).

- *Email:* permitsR5ES@fws.gov.
- *U.S. Mail:* Abby Goldstein,

Ecological Services, U.S. Fish and Wildlife Service, 300 Westgate Center Dr., Hadley, MA 01035.

Individuals outside the United States should use the relay services offered within their country to make international calls to the point-of-contact in the United States.

SUPPLEMENTARY INFORMATION: We, the U.S. Fish and Wildlife Service, invite local, State and Federal agencies, Tribes, and the public to review and comment on applications we have received for permits under section 10(a)(1)(A) of the Endangered Species Act of 1973, as

amended (ESA; 16 U.S.C. 1531 *et seq.*), and our implementing regulations in part 17 of title 50 of the Code of Federal Regulations. The requested permits would allow the applicants to conduct activities intended to promote recovery of species that are listed as endangered under the ESA. Documents and other information submitted with the applications are available for review, subject to the requirements of the Privacy Act of 1974, as amended (5 U.S.C. 552a) and the Freedom of Information Act (5 U.S.C. 552).

Background

With some exceptions, the ESA prohibits activities that constitute take of listed species, unless a Federal permit is issued that allows such activity. The ESA's definition of "take" includes such activities as pursuing, harassing, trapping, capturing, or collecting, in addition to hunting, shooting, harming, wounding, or killing.

A recovery permit issued by us under section 10(a)(1)(A) of the ESA authorizes the permittee to conduct activities constituting or resulting in take of endangered or threatened species for scientific purposes that promote recovery or for enhancement of propagation or survival of the species. Our regulations implementing section 10(a)(1)(A) for these permits are found at 50 CFR 17.22 for endangered wildlife species, 50 CFR 17.32 for threatened wildlife species, 50 CFR 17.62 for endangered plant species, and 50 CFR 17.72 for threatened plant species.

**Permit Applications Available for
Review and Comment**

In accordance with the ESA, we invite local, State, and Federal agencies; Tribes; and the public to submit written data, views, or arguments with respect to the applications in table 1.
