

Major Defense Equipment (MDE) constituted \$2.01 billion of this total.

On October 17, 2018, Congress was notified by congressional certification transmittal number 18-0H of the possible sale, under Section 36(b)(5)(C) of the Arms Export Control Act, of the addition of the following MDE items: two (2) F110 General Electric or F100 Pratt & Whitney engines; four (4) iPDG; four (4) modular mission computers; four (4) Link-16 MIDS-JTRS; ninety-six (96) MXU-650C/B airfoil groups; ninety-six (96) MAU-209C/B or MAU-169D computer control groups; twelve (12) guidance units for AIM-9X-2 tactical missiles; and twelve (12) guidance units for AIM-9X-2 captive air training missiles (CATM). The following non-MDE items were also included: thirty (30) CATM-120C; twelve (12) joint helmet mounted cueing systems II; and twenty (20) aviator night vision devices AN/AVS-9. The total cost of the new MDE items was \$30.6 million, and the total cost of the new non-MDE items was \$5.6 million. The total notified cost of MDE increased to \$2.04 billion. The total case value did not increase and remained \$2.91 billion.

This transmittal notifies the inclusion of the following additional MDE items: four (4) F-16D Block 70/72 V configuration aircraft without engines; five (5) F110 General Electric or F100 Pratt & Whitney engines (4 installed, 1 spare); five (5) improved programmable display generators (iPDG) (4 installed, 1 spare); twelve (12) AN/AAQ-33 Sniper pods; five (5) embedded global positioning system inertial navigation systems (4 installed, 1 spare); one (1) Small Diameter Bomb increment I (SDB-I) guided test vehicle; one hundred twenty (120) GBU-39 SDB-I; twenty (20) LAU-129 guided missile launchers (16 installed, 4 spares); five (5) M61A1 anti-aircraft guns (4 installed, 1 spare); five (5) APG-83 Active Electronically Scanned Array

(AESA) radars (4 installed, 1 spare); five (5) 7000AH modular mission computers (4 installed, 1 spare); and five (5) Link-16 Multifunctional Information Distribution System—Joint Tactical Radio Systems. The following non-MDE items will also be included: AN/ALQ-254V(1) Viper Shield advanced electronic warfare suites, including lab assets (or equivalent); Infrared Search and Track (IRST) pods and processors; and other related elements of logistics and program support. The estimated total cost of the new items is \$990 million. The estimated MDE value will increase by \$609.4 million to a revised \$2.65 billion. The estimated non-MDE value will increase by \$380.6 million to a revised \$1.25 billion. The estimated total case value will increase by \$990 million to a revised \$3.90 billion.

(iv) *Significance*: This notification is being provided because the additional MDE items were not enumerated in the original notification. The inclusion of this MDE represents an increase in capability over what was previously notified. The proposed sale will improve Slovakia's capability to meet current and future threats by maintaining its F-16 fleet in combat-ready status and providing a credible deterrent to regional threats.

(v) *Justification*: This proposed sale will support the foreign policy and national security objectives of the U.S. by helping to improve the security of a NATO Ally that is a force for political stability and economic progress in Europe.

(vi) *Sensitivity of Technology*:

The IRST is a high resolution, passive, infrared sensor system that searches for, detects, and tracks threats with infrared signatures at long ranges within its field of regard. It functions without emitting any radiation of its own and enables aircrews to detect adversaries before those adversaries see or sense them.

The Sensitivity of Technology Statement contained in the original notification applies to the other items reported here.

The highest level of classification of defense articles, components, and services included in this potential sale is SECRET.

(vii) *Date Report Delivered to Congress*: December 16, 2025

Transmittal No. 25-79

Notice of Proposed Issuance of Letter of Offer Pursuant to Section 36(b)(1) of the Arms Export Control Act, as amended

(i) *Prospective Purchaser:* Government of Lebanon

(ii) *Total Estimated Value:*

Major Defense Equipment *	\$31.0 million
Other	\$ 3.5 million

TOTAL \$34.5 million

Funding Source: Foreign Military Financing

(iii) *Description and Quantity or Quantities of Articles or Services under Consideration for Purchase:* Foreign Military Sales (FMS) case LE-B-UAH was below congressional notification threshold at \$12.26 million (\$10.85 million in major defense equipment) and included fifty M1151A1 High Mobility Multi-Purpose Wheeled Vehicles (HMMWVs). The Government of Lebanon has requested that the case be amended to include an additional

ninety M1151A1 HMMWVs. This amendment thus exceeds the notification threshold, therefore notification of the entire program is required. The above notification requirements are combined as follows:

Major Defense Equipment (MDE):

One hundred forty (140) M115A1 high mobility multipurpose wheeled vehicles (HMMWVs)

Non-Major Defense Equipment:

The following non-MDE items will also be included: RF-7850M-HH multiband handheld radio; Global Positioning System (GPS) receiver; Quicklook electronic counter-countermeasures (ECCM) waveform; spare parts, repair parts, publications and technical documentation; training; United States (U.S.) Government and contractor engineering; technical and logistics support services; and other related elements of logistics and program support.

(vii) *Sensitivity of Technology Contained in the Defense Article or Defense Services Proposed to be Sold:* None

(viii) *Date Report Delivered to Congress:* December 16, 2025

* as defined in Section 47(6) of the Arms Export Control Act.

POLICY JUSTIFICATION

Lebanon—M1151A1 High Mobility Multi-Purpose Wheeled Vehicles

The Government of Lebanon has requested to buy an additional ninety (90) M1151A1 High Mobility Multi-Purpose Wheeled Vehicles (HMMWVs) that will be added to a previously implemented case whose value was under the congressional notification threshold. The original Foreign Military Sales case, valued at \$12.26 million (\$10.85 million in MDE), included fifty M1151A1 HMMWVs. This notification

is for a combined total of one hundred forty HMMWVs. The following non-MDE items will also be included: RF-7850M-HH multiband handheld radio; Global Positioning System receiver; Quicklook electronic counter-countermeasures waveform; spare parts, repair parts, publications and technical documentation; training; U.S. Government and contractor engineering; technical and logistics support services; and other related elements of logistics and program support. The estimated total cost is \$34.5 million.

This proposed sale will support the foreign policy and national security of the U.S. by improving the security of a partner country that continues to be an important force for political and economic stability in the Middle East.

The proposed sale will provide a highly mobile and light combat vehicle capability enabling Lebanese Armed Forces to rapidly engage and defeat perimeter security threats and readily employ counter- and anti-terrorism measures. This acquisition will afford additional military-to-military tactics and operational training among the U.S. Army's and Lebanon's leadership and soldiers. Lebanon will have no difficulty

absorbing these articles and services into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractor will be AM General, located in South Bend, IN. At this time, the U.S. Government is not aware of any offset agreement proposed in connection with this potential sale. Any offset agreement will be defined in negotiations between the purchaser and the contractor.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government or contractor representatives to Lebanon.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.
