

This proposed sale will support the foreign policy and national security objectives of the U.S. by improving the security of a NATO Ally that is a force for political stability and economic progress in Europe.

The proposed sale will improve Denmark's capability to meet current and future threats by ensuring it has modern, capable air-to-air munitions for its aircraft, and surface-to-air munitions for its ground-based air defenses. This sale will further advance the already high level of Danish Air Force interoperability with U.S. forces and other regional and NATO forces. Denmark will have no difficulty in absorbing these articles and services into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractor will be RTX Corporation, located in Arlington, VA. At this time, the U.S. Government is not aware of any offset agreement proposed in connection with this potential sale. Any offset agreement will be defined in negotiations.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government or contractor representatives to Denmark.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

Transmittal No. 25-99

Notice of Proposed Issuance of Letter of Offer Pursuant to Section 36(b)(1) of the Arms Export Control Act

Annex

Item No. vii

(vii) *Sensitivity of Technology:*

1. The AIM-120-C8 Advanced Medium Range Air-to-Air Missile (AMRAAM) is a supersonic, air or surface-launched, aerial intercept guided missile featuring digital technology and micro-miniature solid-state electronics. AMRAAM capabilities include look-down/shoot-down, multiple launches against multiple targets, resistance to electronic countermeasures, and interception of high and low-flying and maneuvering targets. This potential sale will include AMRAAM containers, load trainers, guidance sections, and control section spares.

a. The Advanced Medium Range Air-to-Air Missile-Extended Range (AMRAAM-ER) utilizes an AIM-120-C8 seeker and warhead joined with a new control section and rocket motor, applicable only for surface-launch mode applications for the National Advanced Surface-to-Air Missile System (NASAMS). This provides extended range and altitude as well as higher speed and maneuverability.

2. The highest level of classification of defense articles, components, and services included in this potential sale is SECRET.

3. If a technologically advanced adversary were to obtain knowledge of the specific hardware and software elements, the information could be used to develop countermeasures that might reduce weapon system effectiveness or be used in the development of a system with similar or advanced capabilities.

4. A determination has been made that Denmark can provide substantially the same degree of protection for the sensitive technology being released as the U.S. Government. This sale is necessary in furtherance of the U.S.

foreign policy and national security objectives outlined in the Policy Justification.

5. All defense articles and services listed in this transmittal have been authorized for release and export to the Government of Denmark.

December 15, 2025

The Honorable Mike Johnson
Speaker of the House
U.S. House of Representatives
H-209, The Capitol
Washington, DC 20515

Dear Mr. Speaker:

Pursuant to the reporting requirements of Section 36(b)(5)(C) of the Arms Export Control Act (AECA), as amended, we are forwarding Transmittal No. 25-1U. This notification relates to enhancements or upgrades from the level of sensitivity of technology or capability described in the Section 36(b)(1) AECA certification 21-07 of December 15, 2020.

Sincerely,

Michael F. Miller
Director

1. Transmittal

BILLING CODE 6001-FR-C

Transmittal No. 25-1U

*REPORT OF ENHANCEMENT OR
UPGRADE OF SENSITIVITY OF
TECHNOLOGY OR CAPABILITY (SEC.
36(B)(5)(C), AECA)*

(i) *Prospective Purchaser:* Government of Italy

(ii) *Sec. 36(b)(1), AECA Transmittal No.:* 21-07

Date: December 15, 2020

Implementing Agency: Air Force

(iii) *Description:* On December 15, 2020, Congress was notified by congressional certification transmittal number 21-07 of the possible sale, under Section 36(b)(1) of the Arms Export Control Act, of four (4) Multifunctional Information Distribution Systems—Joint Tactical Radio System (MIDS JTRS) (2 installed, 2 spares); three (3) Embedded/GPS/INS (EGI) with GPS security devices, airborne (2 installed, 1 spare); and four (4) RIO™ Communications Intelligence Systems (2 installed, 2 spares). The following non-MDE items were also included: Missile Warning Sensors; AN/ALE-47 Countermeasure Dispenser Sets (CMOS); MX-20HD Electro-Optical and

Infra-Red systems; Osprey 50 AESA Radars; AISREW ISR equipment; Secure Communications equipment; Identification Friend or Foe Systems; aircraft modification and integration; ground systems for data processing and crew training; ground support equipment; publications and technical data; United States (U.S.) Government and contractor engineering, technical, and logistics support services; flight test and certification; and other related elements of logistical and program support. The estimated total cost was \$500 million. Major Defense Equipment (MDE) constituted \$10 million of this total.

This transmittal notifies the inclusion of the following additional MDE items: one (1) Embedded/GPS/INS (EGI) with GPS security device; and one (1) Communications Intelligence (COMINT) Systems Sensor Suite. The following non-MDE items are also included: aircraft components, parts, and accessories; transportation support; and other related elements of logistics and program support. The estimated total cost of the new items is \$220 million. The estimated MDE value will increase by \$3 million to a revised \$13 million.

The estimated non-MDE value will increase by \$217 million to a revised \$707 million. The estimated total case value will increase by \$220 million to a revised \$720 million.

(iv) *Significance:* This notification is being provided because the MDE and non-MDE items were not enumerated in the original notification. The inclusion of this MDE represents an increase in capability over what was previously notified. The proposed sale supports and complements the ongoing efforts of Italy to modernize its airborne Intelligence, Surveillance, and Electronic Warfare capability and increases interoperability between the U.S. Air Force and the Italian Air Force (ITAF).

(v) *Justification:* This proposed sale will support the foreign policy and national security objectives of the U.S. by improving the security of a NATO Ally that is a force for political stability and economic progress in Europe.

(vi) *Sensitivity of Technology:* COMINT Systems Sensor Suite
The Sensitivity of Technology Statement contained in the original notification applies to items reported here.

The highest level of classification of defense articles, components, and services included in this potential sale is SECRET.

(vii) *Date Report Delivered to Congress*: December 15, 2025
