SUPPLEMENTARY INFORMATION:

Title: Performance Measures for Highway Construction Training Program (HCTP) Grant.

Background: The demand for highway construction, maintenance, and operations workers is growing, while at the same time, emerging technologies require these workers to have new skills. According to a 2022 national survey by the Associated General Contractors of America (AGC), more than 70 percent of construction firms reported difficulty finding qualified trade and craft workers and 90 percent reported difficulty filling salaried positions. Government agencies, trade organizations, private agencies, and local and Tribal communities nationwide need new, collaborative approaches to meeting this challenge.

The predecessor to the HCTP, the Transportation Education Development Program, was originally established as a pilot program in 2005 by the Safe, Accountable, Flexible, Efficient, Transportation Equity Act: A Legacy for Users (P.L. 109-59) to provide grants to institutions of higher education to enhance transportation education and workforce development through "partnership[s] with industry and State departments of transportation (State DOT)." Now codified at 23 U.S.C. 504(f), amendments in Infrastructure Investment Jobs Act (IIJA) changed the program name to Transportation Education and Training Development and Deployment Program, expanded the type of entities eligible for grants and the activities that can be funded, and for the first time made State DOTs eligible grant recipients. The program will now be known as HCTP.

In 2016, FHWA collaborated with the American Association of State Highway and Transportation Officials, AGC, the American Road & Transportation Builders Association, and the U.S. Department of Labor's Employment and Training Administration to establish the Highway Construction Workforce Partnership (HCWP) Pilot Program. The two-year HCWP Pilot Program brought together working groups of highway, education, and workforce system representatives in six cities and six states to recruit, train, and place individuals into highway occupations.

In 2021, HCWP was selected as a focus program for the FHWA's Every Day Counts-6 (EDC-6) Program, a State-based model to identify and rapidly deploy proven but under-used innovations. The program was renamed the Strategic Workforce Development (SWD) Initiative and was also a focus program in EDC-7. The SWD has been adopted by 43 States. These programs developed valuable resources for

workforce development stakeholders, which can be found in the SWD Toolkit available at https://www.fhwa.dot.gov/innovativeprograms/centers/workforce_dev/hcwp/toolkit/. The HCTP grants will continue to build on the lessons learned through the HCWP and the SWD Initiative. This opportunity represents \$4,226,871 in funding available to applicants at no more than \$300,000 for each award.

This collection request, included in the NOFO for the HCTP Grant requirements, provides a resource to track the progress of the awarded programs through the period of performance of up to two years. The following performance measures are quarterly and are as follows: the number of entrants, the number of completed programs, the number of job placements, the median wages at time of hire and their progression at 180 days into the job placement, the number of trainees retained, and, if an educational institution, the number of enrollees in a particular curricula. There are two remaining performance measures to be submitted annually. They are both related to educational institutions and the number of credentials attained with the corresponding skill gains in post-secondary educational opportunities.

Respondents: 50 State DOTs, local and state governments, District of Columbia, Commonwealth of Puerto Rico, United States territories of American Samoa, Guam, N. Marina Is., and the Virgin Islands (4 territories), and educational institutions may apply. 56 respondents in total.

Frequency: Performance Measures for the HCTP Grant must be submitted quarterly and annually, respectively.

Estimated Average Burden per Response: 20 minutes per form requested.

Estimated Total Annual Burden Hours: 19 total annual burden hours.

Public Comments Invited: You are asked to comment on any aspect of this information collection, including: (1) Whether the proposed collection is necessary for the FHWA's performance; (2) the accuracy of the estimated burdens; (3) ways for the FHWA to enhance the quality, usefulness, and clarity of the collected information; and, (4) ways that the burden could be minimized, including the use of electronic technology, without reducing the quality of the collected information. The agency will summarize and/or include your comments in the request for OMB's clearance of this information collection.

(Authority: The Paperwork Reduction Act of 1995; 44 U.S.C. chapter 35, as amended; and 49 CFR 1.48.)

Issued on: March 11, 2026.

SUPPLEMENTARY INFORMATION: Under the PRA (44 U.S.C. 3501 *et seq.*), Federal agencies must obtain approval from the OMB for each collection of information that they conduct or sponsor. “Collection of information” is defined in 44 U.S.C. 3502(3) and 5 CFR 1320.3(c) to include agency requests or requirements, imposed on ten or more persons, that members of the public submit reports, keep records, or provide information to a third party. Section 3506(c)(2)(A) of title 44 generally requires Federal agencies to provide a 60-day notice in the **Federal Register** concerning each proposed collection of information, including each proposed extension of an existing collection of information, before submitting the collection to OMB for approval. To

comply with this requirement, the OCC is publishing notice of the renewal of this collection.

Title: Margin and Capital Requirements for Covered Swap Entities.

OMB Control No.: 1557-0251.

Type of Review: Regular.

Affected Public: Businesses or other for-profit.

Description: Title VII of the Dodd-Frank Wall Street Reform and Consumer Protection Act (Dodd-Frank Act) established a comprehensive regulatory framework for derivatives, which are generally characterized as swaps and security-based swaps. Sections 731 and 764 of the Dodd-Frank Act require the registration and regulation of swap dealers and major swap participants and security-based swap dealers and major security-based swap participants, respectively (collectively, “swap entities”). For certain types of swap entities that are prudentially regulated by one of the Agencies,¹ sections 731 and 764 of the Dodd-Frank Act require the Agencies to jointly adopt rules, for the entities under their respective jurisdictions, imposing capital requirements and initial and variation margin requirements on all non-cleared swaps. Swap entities that are prudentially regulated by the Agencies are referred to herein as “covered swap entities.” OCC’s rules for swap entities can be found in 12 CFR part 45.

Section 45.2 defines terms referenced in part 45. Under the definition of “eligible master netting agreement,” a covered swap entity that relies on such agreement for purpose of calculating required margin must (1) conduct sufficient legal review of the agreement to conclude with a well-founded basis that the agreement meets specified criteria and maintain sufficient written documentation of that legal review and (2) establish and maintain written procedures for monitoring relevant changes in law and to ensure that the agreement continues to satisfy the requirements of the definition. To demonstrate compliance with this section, records must be retained for as long as the covered swap entity relies on such agreement. The term “eligible master netting agreement” is used elsewhere in the rule to specify instances in which a covered swap entity may (1) calculate variation margin on an aggregate basis across multiple non-cleared swaps and security-based
