

DEPARTMENT OF COMMERCE**National Oceanic and Atmospheric Administration**

[RTID 0648–XF578]

Pacific Fishery Management Council; Public Meeting

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of public meeting.

SUMMARY: The Pacific Fishery Management Council (Pacific Council) will convene an online meeting of its Advisory Bodies to discuss the Pacific Council's Special Project 1: Adaptive Management and Flexibility; this meeting is open to the public.

DATES: The online meeting will be held on Thursday, April 2, 2026, from 1 p.m. to 3 p.m., Pacific Time, or until business for the day is completed.

ADDRESSES: This meeting will be held online. Specific meeting information, including directions on how to join the meeting and system requirements, will be provided in the meeting announcement on the Pacific Council's website (see www.pcouncil.org). You may send an email to Mr. Hayden York (hayden.york@pcouncil.org) or contact him at (503) 820–2424 for technical assistance.

Council address: Pacific Fishery Management Council, 7700 NE Ambassador Place, Suite 101, Portland, OR 97220–1384.

FOR FURTHER INFORMATION CONTACT: Gilly Lyons, Staff Officer, Pacific Council; telephone: (503) 820–2427.

SUPPLEMENTARY INFORMATION: The Pacific Council will hold an online meeting of its Advisory Bodies to review materials related to and discuss next steps in the implementation of Special Project 1: Adaptive Management and Flexibility, which will be on the Pacific Council's agenda at its April 6–12, 2026, meeting. Special Project 1 is focused on identifying processes and actions that may improve the Pacific Council's ability to respond to rapidly changing conditions. No management actions will be decided at this meeting, but recommendations may be brought forward for consideration by the Pacific Council at its April meeting. A detailed meeting agenda will be available on the Pacific Council's website prior to the meeting.

Although non-emergency issues not contained in the meeting agenda may be discussed, those issues may not be the subject of formal action during this

meeting. Action will be restricted to those issues specifically listed in this document and any issues arising after publication of this document that require emergency action under section 305(c) of the Magnuson-Stevens Fishery Conservation and Management Act, provided the public has been notified of the intent to take final action to address the emergency.

Special Accommodations

Requests for sign language interpretation or other auxiliary aids should be directed to Mr. Hayden York (hayden.york@pcouncil.org; (503) 820–2424) at least 10 days prior to the meeting date.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: March 12, 2026.

Rey Israel Marquez,

Acting Deputy Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

BILLING CODE 3510–22–P

CONSUMER PRODUCT SAFETY COMMISSION

[Docket No. CPSC–2009–0073]

Agency Information Collection Activities; Extension of Collection; Virginia Graeme Baker Pool and Spa Safety Act Verification of Compliance Form

AGENCY: Consumer Product Safety Commission.

ACTION: Notice of information collection; request for comment.

SUMMARY: As required by the Paperwork Reduction Act of 1995 (PRA), the Consumer Product Safety Commission (CPSC or Commission) announces that the Commission has submitted to the Office of Management and Budget (OMB) a request for extension of approval of information collection regarding a form used to verify whether pools and spas are in compliance with the Virginia Graeme Baker Pool and Spa Safety Act. OMB previously approved the collection of information under control number 3041–0142. OMB's most recent extension of approval will expire on March 31, 2026. On December 16, 2025, CPSC published a notice in the **Federal Register** to announce the agency's intention to seek extension of approval of the collection of information. The Commission did not receive any public comments. Therefore, by publication of this notice, the Commission announces that CPSC has submitted to OMB a request for

extension of approval of that collection of information.

DATES: Submit comments on the collection of information by April 15, 2026.

ADDRESSES: Submit comments about this request by email: OIRA_submission@omb.eop.gov or fax: 202–395–6881. Comments by mail should be sent to the Office of Information and Regulatory Affairs, Attn: OMB Desk Officer for the CPSC, Office of Management and Budget, Room 10235, 725 17th Street NW, Washington, DC 20503. Written comments that are sent to OMB also should be submitted electronically at <http://www.regulations.gov>, under Docket No. CPSC–2009–0073.

FOR FURTHER INFORMATION CONTACT: Cynthia Gillham, Consumer Product Safety Commission, 4330 East-West Highway, Bethesda, MD 20814; (301) 504–7791, or by email to: pra@cpsc.gov.

SUPPLEMENTARY INFORMATION: CPSC seeks to renew the following currently approved collection of information:

Title: Virginia Graeme Baker Pool and Spa Safety Act Verification of Compliance Form.

OMB Number: 3041–0142.

Type of Review: Renewal of collection.

Frequency of Response: On occasion.

Affected Public: Public pools and spa facilities.

General Description of Collection: The CPSC administers and oversees compliance with the Virginia Graeme Baker Pool and Spa Safety Act (VGBA), 15 U.S.C. Ch. 106. The VGBA is designed to prevent the tragic and hidden hazard of drain entrapment and evisceration in public pools and spas. To achieve its purposes, the VGBA requires, among other things, each swimming pool and spa drain cover manufactured, distributed, or introduced into commerce meet specific requirements of the CPSC recognized performance standard, and that each public pool and spa be equipped with anti-entrapment devices or systems that comply with the recognized performance standard. 15 U.S.C. 8003; 16 CFR part 1450.

CPSC, directly or through State contracted employees, inspects and assesses public pools and spas for compliance. A compliance form is used to record observations and assessments of compliance. The VGBA Form is available for viewing at <https://www.regulations.gov> under docket number, CPSC–2009–0073, “Supporting and Related Material.”

Estimated Number of Respondents: CPSC compliance staff estimates that 50

inspections are completed annually, based on a review of prior completed inspections.

Estimated Time per Response: CPSC estimates that three hours will be required to inspect a pool or spa facility.

Total Estimated Annual Burden: CPSC estimates that total annual burden hours are at most 150 (50 inspections × 3 hours per inspection).

Total Estimated Annual Cost to Respondents: CPSC estimates that hourly compensation for the time required for inspecting is \$76.45 (U.S. Bureau of Labor Statistics, “Employer Costs for Employee Compensation,” June 2025, Table 4, total compensation for management, professional, and related workers in private service-producing industries: Employer Costs for Employee Compensation News Release—2025 Q02 Results). Therefore, CPSC estimates the annual cost to be \$11,468 ($\$76.45 \times 150 = \$11,467.50$).

Alberta E. Mills, Secretary,

Consumer Product Safety Commission.

BILLING CODE 6355–01–P

DEPARTMENT OF DEFENSE

Department of the Army, Corps of Engineers

Notice of Solicitation of Input on Potential Future Changes to Nationwide Permits; Establishment of a Public Docket; Request for Input

AGENCY: U.S. Army Corps of Engineers, Army, DoD.

ACTION: Notice; solicitation of input.

SUMMARY: The U.S. Army Corps of Engineers (Corps) is seeking input from all interested parties on ways to increase the efficiency of the nationwide permit program. The Corps will consider this input in future rulemaking related to the nationwide permits. The nationwide permits authorize activities under Section 404 of the Clean Water Act and Section 10 of the Rivers and Harbors Act.

DATES: In order to be considered, comments must be received in *regulations.gov* or postmarked on or before May 15, 2026.

ADDRESSES: You may send comments, identified by docket number COE–2026–0001, by any of the following methods:

- *Federal eRulemaking Portal:* <https://www.regulations.gov>. Follow the online instructions for submitting comments.

- *Mail:* U.S. Army Corps of Engineers, Attn: CECW–CO–R, 441 G Street NW, Washington, DC 20314–1000.

Due to security requirements, we cannot receive comments by hand delivery or courier or uploaded on external storage devices.

Instructions: All submissions received must include the agency name and docket number for this notice. All comments received will be posted without change to <http://www.regulations.gov>, including any personal information provided, unless the commenter indicates that the comment includes information claimed to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. Do not submit information that you consider to be CBI, or otherwise protected, through *regulations.gov*. The *regulations.gov* website is an anonymous access system, which means we will not know your identity or contact information unless you provide it in the body of your comment.

FOR FURTHER INFORMATION CONTACT: Ms. Katherine McCafferty at 513–310–4196 or access the U.S. Army Corps of Engineers Regulatory Home Page at <https://www.usace.army.mil/Missions/Civil-Works/Regulatory-Program-and-Permits/>.

SUPPLEMENTARY INFORMATION:

I. Background

Under Section 404 of the Clean Water Act (33 U.S.C. 1344), Department of the Army (DA) authorization is required for discharges of dredged or fill material into waters of the United States. Under Section 10 of the Rivers and Harbors Act of 1899 (33 U.S.C. 403), DA authorization is required for any construction of any structure in, under, or over any navigable water of the United States; the excavating from or depositing of material in navigable waters of the United States; or the accomplishment of any other work affecting the course, location, condition, or capacity of navigable waters of the United States. Under Section 103 of the Marine Protection, Research, and Sanctuaries Act of 1972 (33 U.S.C. 1413), DA authorization is required for the transportation and disposal of dredged material into ocean waters.

The U.S. Army Corps of Engineers (Corps) issues individual and general permits to authorize activities under Section 404 of the Clean Water Act and Section 10 of the Rivers and Harbors Act of 1899. The Corps also issues individual permits to authorize activities under Section 103 of the Marine Protection, Research, and

Sanctuaries Act of 1972. The Chief of Engineers and his or her designated representatives have been delegated the authority to issue individual permits and general permits from the Secretary of the Army.

Reducing unnecessary paperwork and delays is a continuing Corps goal. General permits provide applicants a streamlined process to obtain DA authorization in exchange for avoiding and minimizing impacts to jurisdictional aquatic resources. Nationwide permits (NWP) are a type of general permit. The NWP program is designed to provide timely authorizations for the regulated public while protecting the jurisdictional aquatic resources.

Section 404(e) of the Clean Water Act provides the authority for the Corps, after notice and opportunity for public hearing, to issue general permits on a nationwide basis for any category of activities involving discharges of dredged or fill material into waters of the United States. The categories of activities authorized by NWP issued pursuant to section 404(e) of the Clean Water Act must be similar in nature, cause only minimal adverse environmental effects when performed separately, and have only minimal cumulative adverse effect on the environment (33 U.S.C. 1344(e)(1)). An NWP issued under Section 404(e) of the Clean Water Act is in effect for a period of no more than five years after the date of its issuance (33 U.S.C. 1344(e)).

The Corps also issues NWP to streamline the authorization process for activities that require authorization under Section 10 of the Rivers and Harbors Act of 1899. Section 10 of the Rivers and Harbors Act of 1899 prohibits any obstructions to the navigable capacity of any waters of the United States “unless the work has been recommended by the Chief of Engineers and authorized by the Secretary of the Army prior to beginning the same.” Since 1975, the Corps has issued general permits under section 10 of the Rivers and Harbors Act of 1899 (see 40 FR 31335). The Corps has issued NWP under the authority of section 10 of the Rivers and Harbors Act since 1977 (see 42 FR 37140).

The Corps has not issued NWP for activities subject to Section 103 of the Marine Protection, Research, and Sanctuaries Act (MPRSA) of 1972, as amended. Section 103 of the MPRSA authorizes the Secretary of the Army to “issue permits, after notice and opportunity for public hearings, for the transportation of dredged material for the purpose of dumping it into ocean waters.” Corps regulations (33 CFR
