

purpose of allowing students to pay the costs of attendance at the institution. The Department executes a two-stage Sampling and Estimation Methodology Plan (S&EMP) that is based in part on the results of compliance audits to estimate its improper payments and unknown payments in accordance with the Public Law 116–117, Payment Integrity Information Act of 2019 (PIIA) and OMB Circular A–123, Appendix C (A–123C). The Department requires sample, population, and as applicable, finding information regarding testing performed by the auditors, however, this is not reported with the compliance audit. This information is necessary to execute FSA’s S&EMP.

The legal and administrative requirements that necessitate the collection of this information are the audit access provisions in 2 CFR 200.517(b) and Title IV regulations at 34 CFR 668.23(e)(1)(ii), which the Department has concluded gives it the authority to collect certain information from the single audit in order for the Department to carry out its oversight responsibilities with regard to improper payments and unknown payments. PIIA section 3352 (31 U.S.C. 3352) requires federal agencies to review all programs and activities they administer that may be susceptible to significant improper payments and publish the payment integrity information annually.

This is a request for a new information collection to develop a form for institutions of higher education to have a mechanism to report to the Department information required to carry out the S&EMP and publish payment integrity information on an annual basis.

Ross Santy,

Chief Data Officer, Office of Planning, Evaluation and Policy Development.

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Project No. 14851–003]

White Pine Waterpower, LLC; Notice of Revised Schedule for White Pine Pumped Storage Project

This notice revises the Federal Energy Regulatory Commission’s (Commission) schedule for processing White Pine Waterpower, LLC’s (White Pine) license application for the White Pine Pumped Storage Project. A prior notice issued on March 3, 2025, identified an anticipated

schedule for issuance of draft and final National Environmental Policy Act (NEPA) documents and a final order for the project. After the issuance of that notice, White Pine requested an extension of time to complete its hydrogeologic study with a final study report to be filed by January 31, 2027. Commission staff issued a letter approving the extension of time on March 10, 2026. To account for the additional time needed for White Pine to complete the study and file the study report, the application will be processed according to the following revised schedule.

Notice of Ready for Environmental Analysis: April 2027.

Draft NEPA Document: January 2028.

Final NEPA Document: July 21, 2028.

The project is covered under Title 41 of the Fixing America’s Surface Transportation Act (FAST–41). Under FAST–41, agencies are to publish completion dates for all federal environmental reviews and authorizations. This notice identifies the Commission’s anticipated schedule for issuance of the final order for the project, which is based on the revised issuance date for the final NEPA document. We currently anticipate issuing the final order for the project no later than:

Issuance of Final Order—October 19, 2028

If a schedule change becomes necessary, additional notice will be provided so that interested parties and government agencies are kept informed of the project’s progress.

(Authority: 18 CFR 2.1)

Dated: March 11, 2026.

Carlos D. Clay,

Deputy Secretary.
